## CENTRAL PROVINCES ADMINISTRATION

### Revenue and Scarcity Department.

Nagpur, the 22nd April 1911.

#### READ—

- (1) Review by the Financial Commissioner of the reports by the Commissioner<sup>s</sup> on the Land Revenue Administration and that on Report on Land Records<sup>s</sup> and Settlements by the Commissioner of Settlements and Director of Land Records for the year 1909-10.
- (2) The reports.

#### RESOLUTION.

The several reports for the year 1909-10 show it to have been a year of very general prosperity, the particular feature being the excellence of the cotton and wheat crops. Its predecessor, the year 1908-09, was only a moderately good one, and it had again been preceded by the very bad season of 1907-08. Agriculturists had, therefore, legacies of suspended revenue and loans to make good, while the termination of the inauspicious season of *singhas* conduced to much expenditure on weddings and merrymaking. The cultivators might, however, have secured much more profit than they did if they had not listened to the predictions of the astrologers who foretold in connection with Halley's comet a famine of the most dire description to occur in 1910-11. As a result all grain stocks were held fast for a rise in price, ornaments being sold in preference to grain, and the grain which might then have fetched full prices has now to be sold after a substantial fall. Nevertheless, there has been a considerable and steady improvement in agricultural strength; population, as the provisional census figures show, has increased in every district without exception, and with the excellent rabi crops now being harvested general contentment prevails. The steady growth in the areas contained in occupied holdings is shown by the following figures:—

| Year.   |     | Occupied area in acres. |
|---------|-----|-------------------------|
| 1906-07 | ... | ... 21,259,250          |
| 1907-08 | ... | ... 21,370,424          |
| 1908-09 | ... | ... 21,501,787          |
| 1909-10 | ... | ... 21,609,329          |

2. It is a commonplace in these reports that with few exceptions the relations between landlords and tenants are excellent; but the closer examination which settlement operations render possible show that unsatisfactory features may go on for years in certain tracts without exciting attention or notice. From the Chief Commissioner's own long experience of the Province, he feels convinced that though there are generally very amicable relations between landlords and tenants, the exceptions are more numerous and more important than annual reports would indicate, and he desires that District and Sub-Divisional Officers should devote more attention to this matter than they have always done in the past. Where, as in the case of Katra-Belkhera in the Jubbulpore District mentioned by the Financial Commissioner, the proprietors hold partially free of revenue, their revenue-free grants should be suspended until oppression in their villages has become a thing of the past. All revenue-free grants are held subject to good behaviour, and it is intolerable that landlords who are grossly oppressive like those mentioned should continue to enjoy special concessions from Government.

Again, in a large number of villages in Chhattisgarh systematic ejectment of tenants has gone on. Among the amendments introduced by the Tenancy Act of 1898 was one enabling ejected tenants to be summarily reinstated by a Revenue Officer, but it does not appear that action was taken under its provisions to protect the tenantry in that part of the Province. These things do not happen except when tenants are thoroughly intimidated, and they are only brought to light by minute local enquiry, for intimidated tenants will not resort to courts.

3. The land revenue was collected with the greatest ease and with a minimum of coercion; only three persons were imprisoned in the Civil Jail, in only 24 cases was moveable property brought to sale, and immoveable property only in one solitary instance. With this small amount of coercion was collected a sum which, including arrears and cesses, aggregated over one crore of rupees. The landlords have at the same time been very successful in collecting rents from their tenants, and the balances are accounted for more by failure of landlords to recover than by failure of tenants to pay. The money-lending landlord is prone to credit receipts from tenants to debts before rents, while co-sharers holding tenant land in each other's shares are wont to keep back rents in settlement of profits. It is often among the richest tenants that the principal defaulters are to be found, as is manifest from the check of any village rental arrears list; in fact, of such arrears as exist sheer inability to pay on the part of the tenant accounts for a very small fraction.

4. The collection of loans has also been satisfactory, about 90 per cent of the amount due during the year having been collected. It is, however, disappointing to find from remarks made in some of the reports that it is not yet understood that if the instalment due in a year is suspended on account of crop failures or losses of cattle, the suspended instalment will not be recoverable in the following year in addition to the instalment proper to that year, but all subsequent instalments are advanced one year. Some officers express regret that the sum available for loans is not larger, and report that many tenants are driven to make forward bargains to deliver produce at low rates at harvest time in order to obtain the necessary advances at sowing time. No doubt this circumstance is most regrettable, but it is quite impossible for the Government to finance the whole country side. Its loans should be used most of all to assist cultivators when crops have failed, or cattle have died, or homesteads have been burnt. The remedy for the larger evil complained of, high interest, hard bargains, and so forth, is to be sought in the steady extension of co-operative credit, which is calculated to produce far more effect on thrift and industry than indiscriminate loans by Government.

5. In respect to settlement operations there has been a remarkable quickening up of work during the year, for which the Chief Commissioner desires to thank the Settlement Commissioner, Mr. Blenkinsop, and the Settlement Officers and their Assistants whose good work is warmly commended by him. The new assessments always undergo searching scrutiny at the hands of the Settlement Commissioner, the Financial Commissioner, and the Chief Commissioner himself; and Mr. Craddock has no hesitation in saying that every consideration is shown to the interests of the landlords by the several officers concerned in the work. The recent proceedings in the Imperial Council merely served to give formal expression to the existing practice of moderation in assessments. The Chief Commissioner has recently toured through two of the districts just re-settled, and he received not a single complaint from either landlord or tenant that the lately enhanced assessments were felt to be burdensome. The settlement was discussed with the classes concerned, and they had ample opportunities to make complaints if they had been so minded.

6. In the matter of revenue business, continued decentralisation has produced a reduction in volume and greater despatch in disposal, and this policy will be pursued as far as circumstances permit; but there comes a point beyond which it is not possible to go without loss of efficiency, and it is not possible to entrust subordinate authorities with cases of a more important nature without either providing an inordinate number of appellate and revisional authorities, or else causing dissatisfaction by withdrawing from the higher Revenue Officers all

power of adjudicating upon difficult questions of revenue law and practice. The reduction of correspondence to which Mr. Laurie, the Commissioner of the Nerbudda Division, has given so much attention is being considered in other Divisions also, and subsequent reports will show greater results in them; but while single instead of duplicate records will amply suffice in a number of routine and ephemeral proceedings, it is most necessary that in all cases of importance the risks to public and private interests arising from the possible loss or destruction of original orders should be fully considered before safeguards are relaxed.

7. The new Land Revenue Bill is now before the Government of India and a number of amendments in the Tenancy Law are under examination by Divisional Conferences of Revenue Officers and non-officials, and should take final shape before the current year is over. It is hoped that these proposed enactments will increase the smoothness and efficiency of revenue administration and remove numerous defects in the Tenancy Law which twelve years' experience and alterations in circumstances have brought into prominence. But the Chief Commissioner would like all Revenue Officers to note and respond to the developments in the scope of revenue administration which the efflux of years has brought about. Mr. Craddock can remember the time when the District Officers and their Assistants were so much engrossed in the decision of criminal and civil cases that revenue administration was confined to the collection of land revenue and the disposal of Revenue Court work. The disastrous years of the last decade of the 19th century compelled their relief from judicial work and forced all their energies into a battle with famines, scarcities, and agricultural depression. The consequent losses and deterioration have had to be met by remedial action and measures of recuperation during the period of convalescence, and with the close of the first decade of the present century the Province may be deemed to have been restored to normal health. Revenue administration has now entered upon a new and constructive stage. The Revenue Officer is no longer a mere passive spectator of such gradual progress as may evolve itself; he has to take an active part in a campaign of improvement. The country is to be strengthened and protected against loss by future similar calamities. The people have to be taught to utilise and take full advantage of the irrigation works that are now being rapidly constructed in insecure areas; the efforts of the Agricultural Department have to be seconded with enthusiasm and judgment; the people have to be taught to improve themselves both by more enlightened agricultural practices and by the organisation of co-operative credit. The present generation of revenue administrators have an infinitely more complex and interesting task to perform than that which confronted their predecessors, though the way has been made easier for them by the labours of those who have gone before in the greater intelligence and education, and greater readiness to co-operate among the agricultural population. It is, therefore, gratifying to notice the many evidences which these reports offer of the recognition by the various Revenue Officers of this change in the character of their duties. Although to a larger and larger extent the assistance of experts has had to be invoked, the co-ordination and smooth working of all these branches of work can only be secured by the lively interest and help of the District Officers, and wherever this is now wanting it should be supplied.

8. The Chief Commissioner's acknowledgments are due to the Financial Commissioner, the Commissioners of Divisions, and also to the numerous Revenue Officers, whose work during the year has been specially noticed in the several reports.

---

ORDER.—Ordered that a copy of this Resolution and its annexures be submitted to the Government of India in the Revenue and Agriculture Department, that copies be forwarded to all Commissioners and Deputy Commissioners, the Commissioner of Settlements and Director of Land Records and Settlement Officers, and that the Resolution be published in the Supplement to the *Central Provinces Gazette*.

[Maximum limit of the Review—8 pages.]

**Review by the Financial Commissioner of the Land Revenue Administration of the Central Provinces during the year 1909-10, as reported by the Commissioners of Divisions, the Commissioner of Settlements and Director of Land Records, and the Deputy Commissioners of Districts.**

---

The monsoon of 1909 was characterized by normal and well distributed rain during the months of June and July, and though the rainfall was generally below the normal during the month of August, the deficiency was only marked in the rice districts of Bhandara, Raipur and Bilaspur. The rainfall in September was everywhere below the normal, the defect being most marked in Bhandara and Bilaspur.

Little or no rain fell during the months of October and November, but the rainfall during December and the first week of January was unusually heavy. The remainder of the cold weather was unusually dry, and except for a severe hail-storm in parts of Nagpur and Bhandara, there was but little hail.

The rainfall of the year, though light, was unusually well distributed, and except in the rice districts of Bhandara and Chhattisgarh where the broadcast rice suffered from want of moisture, the kharif crops were generally above the normal, while even in those districts transplanted rice did fairly well.

The breaks during the monsoon afforded opportunity for the careful preparation of land for the rabi crops, and the heavy rains at Christmas materially improved the prospects.

Bumper rabi crops were harvested in almost every district, the outturns of wheat varying from 95 per cent of the normal in Bhandara and Balaghat to 150 per cent in Seoni.

The year on the whole was therefore a very prosperous one.

2. Owing to the transfer of the lower taluqas of Sironcha to Madras during the year, the area dealt with in the reports has been reduced. Making an allowance for the transfer of an occupied area of 14,969 acres, the occupied area rose from 21,486,818 acres in 1908-09 to 21,609,329 acres in 1909-10, the rise being most marked in the districts of Betul, Chhindwara, Chanda, Bilaspur and Raipur, in all of which the area available for cultivation is still very large. Reductions in the occupied area are found in the districts of Nimar, Narsinghpur, Nagpur and Damoh, but are nowhere of much importance.

The area held as *sir* has increased in all districts under settlement, except Raipur and Drug, but has fallen in those districts where settlement operations are not in progress owing to the creation of occupancy rights on transfers by proprietors. The total area held as home-farm by malguzars has risen in all districts.

Owing to a recent decision of the Judicial Commissioner certain areas formerly held by malik-makbuzas, and which had been recorded as khudkhast of malguzars who had purchased the holdings, have been recorded again as malik-makbuzas, and the increase in the area held in this right is therefore only apparent.

The sub-division of tenants' holdings noticed in last year's review has continued, and the average area held by tenants of each class continues to fall slowly, a fact which should lead to closer cultivation. In the Drug District, the area held by occupancy tenants in zamindaris has fallen from 137,647 acres in 1908-09 to 129,348 acres in 1909-10, owing to an order of the Commissioner of Settlements that in the zamindaris transferred from Chanda to Drug, all new tenants must be considered to acquire only ordinary rights under Section 62 of the Central Provinces Tenancy Act, and that the special provisions of Section 44 of the Act no longer apply to these areas.

In the converse case, where an area of the Hoshangabad District was transferred to Nimar, it was held that the law in force in the area so transferred was that which prevailed in the area before the transfer, and the ruling of the Com-

missioner of Settlements is opposed to the previous ruling of the Chief Commissioner, which was in accordance with the view taken by the Judicial Commissioner, and the Government Advocate of the effect of the law. The point will be considered in connection with the amendment of the Tenancy Act, but I am of opinion that the order of the Commissioner of Settlements is wrong, and that the transfer was not intended to and did not effect any change in the law prevailing in the territories transferred.

3. Rental collections were everywhere good, the total collections on account of the demand for both the current and previous years exceeding the current demand by about 6 per cent.

4. Two good seasons in succession have raised the agricultural classes to a high pitch of prosperity, more especially in the cotton districts. The prices of food-grains have begun to fall. Labourers, as the Deputy Commissioner of Nagpur points out, have never been better off. The good crops meant demand for agricultural labour, while a revival in the manganese industry, and the many new Railway and Irrigation works have kept wages at a high level. In Nimar agricultural tenants did so well that the Deputy Commissioner speaks of some as being so flush with money that they were buying expensive ponies which they would never ride.

5. The district reports show indications that tenants are beginning to know and assert their rights as against the malguzars. The refusal of the tenants in Kamtha zamindari to give the customary begar to inferior proprietors which they owe only to the zamindar and the assertion in the Wardha Courts of the right of a villager to payment for articles damaged as a result of begar, are instances where the advance in wealth of the cultivating class has led them to emancipate themselves from the burden of old customs which pressed but lightly on them in an undeveloped state of society. Elsewhere, in the more backward tracts, the malguzar still exacts his begar and feasts his tenants in the old-fashioned manner in return for their willing services. But in no portion of the Provinces are cases of friction between malguzars and tenants other than rare. Cases like that of Thakur Vishvanath Singh of Katra Belkhera, in the Jubbulpore District, whom I regret to see again in trouble with his tenants, are happily not common. The chief questions at issue are usually connected with nistar, and though the fault is often on the side of the malguzar, as in the cases reported from Seoni, it must be remembered that he has not infrequently just cause of complaint on account of excessive exercise by tenants of their right of user. The whole question has, however, been carefully considered in connection with the amendment of the Land Revenue Act, and under the proposals which have been made, the control of not only the management of village forests by the proprietors, but of the right of user by tenants and others is definitely and fully provided for.

6. Indications are not wanting that the people in general are beginning to appreciate to a greater degree the efforts of Government for the improvement of their condition. The opposition to measures directed to allay the ravages of plague has broken down both in the north and south of the Provinces, and the popularity of new scientific methods of treating cholera has been conspicuously exemplified in Bilaspur. Re-settlement, imposing fresh demands, has been received with equanimity in Mandla. All reports testify to the excellent work done by the Department of Agriculture and to its growing popularity, and although the work of the department is separately reviewed, no Land Revenue Report would be complete without some notice of the progress effected by it. The demand for improved machinery and improved seed is developing steadily, while the improved methods taught in respect of, for example, the transplantation of rice appear to be taking a firm hold of the people. In Balaghat Mr. Dewar has followed with great success the policy inaugurated by Mr. Low of instructing the people by means of fairs combined with agricultural shows; and opportunity was taken of the fair held this year at Balaghat to explain the benefits of irrigation projects and to organize co-operative credit. Co-operative banking has made considerable strides in the Nagpur Division, but in the Nerbudda Division it would appear that the Registrar will still have a good deal to do to

place it on a sound basis. From various parts of the Provinces come reports of the increasing popularity of the Veterinary Department, but the Commissioner of the Nerbudda Division complains again that the staff requires strengthening. Cattle disease was fortunately slight during the year and the lightness of the early rains kept down the mortality among stock which usually characterises the early part of the monsoon. The private cattle farms in Mandla and Drug have been carefully inspected, and the encouragement of enterprises of this kind may raise the standard of cattle in the Provinces.

7. As was to be expected from the general conditions of the year, collections under the Loans Acts were good. Recoveries under the Land Improvement Loans Act on account of principal reached the respectable figure of 92 per cent of the demand; while under the Agriculturists' Loans Act the percentage of 89 compares favourably enough with the figures of rental collections. Of the balance of Rs. 72,000 under the latter Act, Rs. 25,000 is outstanding in Betul, where the cultivators apparently had against them a considerable balance of private debt from previous years, a state of things which the re-organization of the co-operative credit system in the district should do much to remove. The joint security system appears to be working well, and misuse of Land Improvement loans was slight and in every case promptly dealt with. Uncollected arrears in Baihar, which was hit hard by the bad season of 1907-08, account for the large arrears in this tahsil, and it will probably be advisable, as the Deputy Commissioner indicates, to accord liberal treatment in the way of remissions to this developing tract. The improvement of the Bhandara tanks on which greater expenditure than is now available would, in the Deputy Commissioner's opinion, be a sound investment, must, as the Commissioner remarks, be deferred for consideration in the light of the new provisions for irrigation which have been included in the proposed amendments to the Land Revenue Act.

8. There was a net increase of Rs. 1,16,000 in the total malguzari demand of land revenue on the roll, of which revision of assessment in five districts, *vis.*, Mandla, Balaghat, Raipur, Bilaspur and Drug, accounts for Rs. 1,09,515. There was an addition of Rs. 4,000 in Bhandara and Rs. 6,100 in Raipur on account of the reimposition of abated revenue and deferred enhancement, while resumption of muafis swelled the demand in Bilaspur. At the close of the year 1909 the arrears of land revenue remaining to be collected were Rs. 9,38,077 suspended and Rs. 2,437 unsuspended; Statement F, Part I (a), has been prepared on a different system in different districts and the result is some confusion in the figures. In the Saugor and some other districts the amount out of suspended arrears ordered for collection has been transferred from column 5—"Suspended arrears" to column 6—"Unsuspended arrears," while in Jubbulpore the whole sum, whether collection has been ordered or not, is shown as suspended. The system adopted in Saugor is the more logical and should be followed in future. The result of the year, however, is that the suspended balance at the commencement of the year has been reduced to Rs. 68,903 and only Rs. 189 of unsuspended arrears was left uncollected. Minor suspensions were granted in Mandla, Nagpur and Drug. The collections on account of current demand were decidedly good, the unsuspended demand outstanding on current account at the close of the year being only Rs. 4,482, more than half of which was on account of land submerged by the Ramtek tank in the Nagpur District, a demand which has been remitted since the close of the year. The number of coercive processes is still high; there was an increase in the number of warrants of arrest issued, but while the number of attachments also increased the number of sales dropped by 27 per cent. The number of notices of demand issued again shows a decrease, and it seems doubtful whether these notices are used with sufficient freedom and whether they might not in many cases take the place of and be just as effective, if issued at an early date, as severer processes issued later on. At the same time vigorous action will alone put an end to wilful default; to this necessity is attributed the large number of the severer forms of process shown against the Nagpur Division, and the same condition appears to prevail in Saugor where the Deputy Commissioner remarks that the past history of the district had induced in many malguzars a regular habit of refraining from payment till coerced. In Narsinghpur the Deputy Commissioner went so far as to warn certain hardened offenders

that it might be necessary to consider the cancellation of their settlements. In the case of habitual and wilful default, the sale of the villages of the defaulters is the most effective remedy, and this procedure is more suitable than the more complicated process of taking a village under direct management.

The personal influence of the Tahsildar can be, and is reported in some cases to have been, used with great success in securing the prompt payment of revenue; and next year, when the volume of demand on various accounts will be considerably less, should show a material decrease in the amount of legal coercion used.

9. The increase in the area occupied as survey numbers in ryotwari villages has been more marked even than last year, and amounts to 39,372 acres. The revenue, however, shows a decrease, explained by the restoration to Government forest of certain revenue-paying areas in Mandla and Chanda and by the transfer to Madras of 60 regularly-settled villages in Chanda. The increase in the total area thus represents, beyond the net excess over last year's figures, a considerable addition of land which, owing to the pagras system of allotment, does not at present pay revenue. The drop of 5,582 acres in Balaghat is due to the exclusion of large areas of uncultivated land from holdings at re-settlement. In Nimar a large area of 47,121 acres was added to the Government estates. Subletting by ryots increased in Chanda, Nimar, Mandla and Seoni. This would seem to indicate a high demand for land in those districts, but the practice is undesirable, and the decrease of 2,000 acres in the area sublet in Balaghat shows what can be done to check it. The Commissioner of the Nerbudda Division is taking steps to put an end to it in the districts under his control, and similar action should be taken elsewhere. Subletting is, however, generally due to non-residence, and as the law at present stands, the clause in the kabuliat requiring residence can only be enforced by a civil suit. The Deputy Commissioner of Nimar draws attention in his report to a practice of attaching the crops of survey numbers in execution of decrees for debt, and remarks that applications for permission to do this under Section 91-A of the Land Revenue Act are increasing, and that one patel reported that if this were sanctioned, the revenue would be endangered. The Deputy Commissioner is enquiring into the matter and suggests that it may be necessary to take action under Section 61 of the Civil Procedure Code to reserve to the ryot sufficient of his crops to enable him to continue to cultivate his land. The point is a very important one, and the result of the enquiries should be noticed in next year's report. Attention has been paid everywhere to the water-supply in ryotwari villages so as to encourage ryots to take up permanent residence. In the Jubbulpore Division, and especially in the Mandla District, field embankments have been constructed. The new method by which patwaris keep the accounts of collections is reported to be working well, but the burden on the patwaris is considered to be excessive in Mandla and Chanda, and in the latter district the Deputy Commissioner, while praising the system, suggests that the halkabandi will require revision on this account. Chanda is the district in which the development of the Government estate is at present most important, as there large areas of Government forest land are commanded by irrigation tanks, and excision is being attended to by a special officer. The bursting of the Asola tank prevented the settlement of land below it which the Deputy Commissioner expected to colonise this year, and the project of enlisting Jat colonists from the Punjab under the auspices of the Salvation Army, from which great things were expected last year, has fallen through owing to the unsuitability of the land for their purposes. Irrigation has made great strides also in Baihar where the increase of 30,000 acres under rice, and the fall of 14,000 acres under the lesser millets, has been mostly in ryotwari villages.

10. Private sales of land have decreased considerably, but the number of sales by order of Court show a disproportionate increase. As noticed in last year's review transfer of land, as a manifestation of agricultural distress, is noticeable not so much during the years of actual calamity, but rather during those which follow. Except in Wardha where over half the transfers were in favour of the money-lending classes, the land seems mostly to have remained in

the hands of agriculturists. The average for the Provinces of the consideration fetched at private sales was 27 times the land revenue, prices being better than in either of the two previous years for which the same factor was 23 and 24, respectively.

11. The number of partition cases instituted exceeded that of the previous year, but there was a slight reduction of the pending file. This shows that the disposal was good, but it is to be hoped that the result was not obtained by a tendency, such as is suspected in Chhindwara by the Commissioner of the Nerbudda Division to reject applications on flimsy technical grounds. Two or three districts have pending cases of some standing, and the case in the Nagpur District which has been under disposal since 24th December 1905 is still undisposed of. No explanation has been given of the delay, and the Commissioner should see that it is dealt with promptly.

12. Irrigation projects and the new railway lines have again produced a heavy volume of land acquisition cases. Disposal has, however, been particularly prompt in most cases, and the Deputy Commissioner of Betul notices in this regard the work of Mr. Umrao Singh, who has been specially deputed to carry out the large acquisitions required in that district. In Nagpur where the work was exceptionally heavy, the completion of acquisition in connection with the two large reservoirs of Ramtek and Gorewara has shown that the old rules for the distribution of compensation between the various interests in the land require revision where large areas are acquired. Mr. Mahmud-ul-Hasan, who had charge of these two cases, worked out a very suitable method for calculating the correct proportions in varying cases, and the question of modifying the standing orders on the subject on somewhat similar lines is under consideration. The disposal of this class of cases has improved during the year, and the enquiry ordered by the Honourable the Chief Commissioner in paragraph 7 of last year's Resolution appears to show that the delays are due more to omissions to comply with the rules than defects in the rules themselves. Most officers whom I have consulted report that the rules work well.

13. The volume of work under the revenue business heads shown in Form L fell considerably from 5,230 to 4,477 cases. The more notable variations occur under applications by lambardars for recovery of arrears, applications by tenants under Section 10 of the Tenancy Act, applications for the transfer of *sir*, for the execution of decrees by ejectment and for reinstatement after illegal ejectment, all of which show a fairly marked decrease. There was, however, a larger number of claims to protected status from thekadars and of applications for enhancement of rent and for possession of surrendered occupancy holdings. Many of the provisions of the Tenancy Act are, however, but little used and the question of its revision is now under consideration, with a view to render recourse to its provisions simpler. In general the variations are such as would indicate, and they may probably be attributed to the greater prosperity which now prevails.

14. The reduction of 450 or 5 per cent in the number of suits for arrears of rent is another effect of the same cause, but a further drop is still required to bring the statistics back to the normal.

15. Cases in which sale of land was ordered and in which it was actually effected by the Collector both rose in number, though more sales were averted than in the previous year. The average price realized shows an extraordinary fluctuation, for while it equalled 32 times the land revenue in 1908-09, it has fallen to a multiple of only 17 in the past year. These variations are not susceptible of explanation, for the question is obscured by encumbrances on the properties sold.

16. There has been a marked decrease, amounting to 20 per cent, in the number of general revenue cases for disposal. Applications for taccavi, which swelled the figures of former years, have, as was natural, dwindled away. The remarks of

Mr. Laurie, who has devoted much attention to impressing on his district officers the necessity for avoiding unnecessary routine complications of work, as to the waste of labour involved by the methods now followed in registration and in the Record-room, deserve careful attention. They are probably applicable to most parts of the Provinces and considerable possibilities of saving of time and work appear to lie in the direction of eliminating superfluous routine and reducing the number of hands through which papers of even the most ephemeral importance are made to pass. In the Nerbudda Division the number of letters dealing with revenue matters registered in the English department has been reduced from 22,528 in 1908-1909 to 4,860 in 1909-1910, and though some reduction has been made in other Divisions also, there is clearly scope for further reduction. The rules framed by Mr. Laurie for his Division were communicated to other Commissioners late in the year, and the effect of any change in procedure would not appear in this report. The question should receive careful attention in other Divisions and be noticed in next year's reports. Attention was drawn last year to the undue length of many of the district reports, and I am compelled again to notice the excessive length of the reports from Betul, Nimar, Chanda and Drug where the prescribed maximum of 4,500 words has been much exceeded. The suggestion of the Deputy Commissioner of Bhandara that Naib-Tahsildars might, as in Berar, be given powers to dispose of certain minor revenue cases in which they now prepare reports for the Tahsildar's orders is in accordance with the trend of the general policy of the Administration for sometime past, and the introduction of a measure of this kind will be separately considered.

17. Additions to the Land Records staff were necessitated by the increase in the number of ryotwari villages and by the revision of the establishment in the Eastern Zamindaris of Raipur. The necessary reforms in the pay and allowances of the officials of the department which were mentioned in last year's review have been taken in hand. The pay of patwaris in the Nagpur and Wardha districts has been raised to a minimum of Rs. 12 per mensem and a scale of good-conduct allowances introduced. Since the close of the year proposals have also been submitted to the Government of India to raise the pay of Assistant Superintendents of Land Records and to grant pony allowances to Revenue Inspectors and provision has been made for further improvement of the position of the patwari establishment. The work of the staff was on the whole good, although the roll of punishments shows a slight increase compared to last year. The checking of land records by district officers might be improved, though doubtless more checking is done by them than finds its way into the statistics. Short checking by Tahsildars is receiving attention, but there is a considerable and unexplained drop in the number of entries checked by Deputy Commissioners and their Sub-Divisional Officers, in which respect I hope to see some improvement next year. On the other hand the work of kanungoes appears to have been very generally adequate, and except in the districts under settlement the filing of papers was fairly punctual.

18. Settlement operations continued in the districts of Mandla, Raipur, Drug, Bilaspur, Wardha, Jubbulpore and Damoh. Ryotwari settlement work was carried out in Mandla and Balaghat, and settlement continued in the zamindaris of Bilaspur. Progress has been good in all districts, and the Settlement Commissioner mentions particularly the strenuous efforts made by Mr. Crosthwaite in Jubbulpore, Saiyyad Mir Padshah as Assistant Settlement Officer in Raipur and Drug, and Saiyyad Azmat Ali, Settlement Superintendent in Bilaspur. The reimposition of abated rents and revenue in the Saugor District was carried out during the year by Mr. Corbett, Assistant Commissioner, under the direct control of the Settlement Commissioner. It was also decided to post Assistant Commissioners to Nimar and Nagpur to prepare reports preliminary to settlement, in preparation for which the amendment of the village maps was commenced. An unusually large programme of settlement work was carried out during the year, and Mr. Blenkinsop is to be congratulated on the excellent progress that has been made.

19. There are few complaints against the working of the lambardari system, though the Deputy Commissioner of Wardha points out that the position of the lambardar is legally weak since he cannot collect rents in pattis, nor recover a co-sharer's proportion of the loss on a village except by a civil suit. The irregular procedure noticed last year by which pattidars in Jubbulpore paid in their revenue direct, disregarding the lambardar entirely, has been stopped, as it gave rise to extortion on the part of minor tahsil officials. As pointed out by the Deputy Commissioner of Damoh it is always open to a co-sharer to pay by the co-sharer's money-order, if he distrusts his lambardar, and any other method tends to detract from the position of the lambardar, a result which it is desirable to avoid. The matter has not escaped attention in the amendment of the Land Revenue Act which should do much in the future to emphasise and strengthen the lambardar's position.

20. Mukaddams appear to have carried out their functions satisfactorily during the year, and the usual complaints against gomash-tas are not so much in evidence, partly perhaps because the question of their proper remuneration appears to have been receiving the necessary attention of district officers. It is on this attention that the working of mukaddams in general largely depends, but it is possible that the Deputy Commissioner of Bilaspur is right in saying that in the south mukaddams have not such a lively sense of the duties of their position as those of the northern districts.

21. Kotwars generally worked well. Orders were issued during the year to endeavour to raise the remuneration of kotwars to a fixed minimum of Rs. 48, but in the more backward tracts it has been found difficult to reach even this limit, for it is in these tracts that the non-agricultural class from whom it was intended that the extra remuneration should be derived, is practically non-existent and the agriculturists already pay as much as can be expected.

22. The office of Financial Commissioner was held throughout the year by Mr. Fox-Strangways. 127 appeals were filed and disposed of in the Court of the Financial Commissioner, the orders being modified or reversed in only ten cases. Of 26 applications for revision 21 were disposed of, only two being successful. 208 applications for the transfer of *sir* were dealt with. The appellate work done by Commissioners, which has been shown this year in all the reports, was considerable, especially in the Nerbudda Division where 227 appeals came up for disposal.

23. Touring and inspection was in general adequately done and most district as well as tahsil offices were carefully inspected. In Wardha, however, the necessity for inspection seems to have been too much disregarded, and the Deputy Commissioner should see that all the tahsilis are thoroughly inspected this year.

NAGPUR: }  
The 18th March 1911. }

H. A. CRUMP,  
Offg. Financial Commissioner.

# Loans made under the Land Improvement Loans Act and Agriculturists' Loans Act.

## I.—Account of Local Government with Government of India for Central Provinces during the Revenue year ending the 30th September 1910.

| Amount advanced to Local Government by Government of India. |                                       |                   | Interest payable for the year by the Local Government to the Government of India at 3½ per cent on mean outstanding. |
|-------------------------------------------------------------|---------------------------------------|-------------------|----------------------------------------------------------------------------------------------------------------------|
| Outstanding at the commencement of the year.                | Outstanding at the close of the year. | Mean outstanding. |                                                                                                                      |
| 1                                                           | 2                                     | 3                 | 4                                                                                                                    |
| Rs.                                                         | Rs.                                   | Rs.               | Rs.                                                                                                                  |

## III.—Financial results of loan operations to Local Government for the Revenue year ending the 30th September 1910.

|                                                                                                                                                                                                                      | Land Improve-<br>ment Loans Act. | Agriculturists'<br>Loans Act. | Total both<br>Acts. |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|-------------------------------|---------------------|
| 1                                                                                                                                                                                                                    | 2                                | 3                             | 4                   |
|                                                                                                                                                                                                                      | Rs.                              | Rs.                           | Rs.                 |
| 1. Interest payable for the year by the Local Government to the Government of India                                                                                                                                  | 52,629                           | 24,523                        | 77,152              |
| 2. Interest collected during the year                                                                                                                                                                                | 1,25,004                         | 57,052                        | 1,82,056            |
| 3. Balance of interest accruing to Local Government, i. e., difference between (1) and (2)                                                                                                                           | 72,375                           | 32,529                        | 1,04,904            |
| 4. Remissions of principal during the year                                                                                                                                                                           | 5,582                            | 5,281                         | 8,863               |
| 5. Net result (profit or loss) for the year 1909-10                                                                                                                                                                  | +66,793                          | +29,248                       | +96,041             |
| 6. Net result for previous years                                                                                                                                                                                     | 1908-09                          | ...                           | ...                 |
|                                                                                                                                                                                                                      | 1907-08                          | ...                           | ...                 |
|                                                                                                                                                                                                                      | 1906-07                          | ...                           | ...                 |
|                                                                                                                                                                                                                      | 1905-06                          | ...                           | ...                 |
|                                                                                                                                                                                                                      | 1904-05                          | ...                           | ...                 |
| 7. Expenditure on free grants-in-aid towards the construction of private protective works or on establishments for well-boring or other outlay incurred from current revenue in connection with takavi transactions. | Nil.                             | Nil.                          | Nil.                |

NOTE.—The figures in Part II, which are compiled from the Departmental Returns, do not agree with those in Parts I and III which have been received from the Comptroller. Instructions have already been issued revising the system of the loans account, which, it is hoped, will secure greater accuracy in future.

# Land Revenue Administration Report of the Jubbulpore Division for the year 1909-10.

## PART I.—AGRICULTURE.

1. The rainfall of the year was light, but well-distributed, and both kharif and rabi crops gave more than average outturns. The area sown increased in every district.

Character of Season.

2. The area occupied for cultivation increased slightly in the Jubbulpore district and substantially in the Saugor, Mandla and Seoni districts. In Damoh, however, it apparently fell off by 1 per cent but the area of 1908-09 was a mere estimate, and it is not certain that the decrease is real. The total area held by tenants rose from 3,964,093 to 3,979,740 acres.

Area in holdings.

In Damoh and Jubbulpore, some *khudkasht* became *sir* under the orders of the Settlement Officer; in the other three districts *sir* decreased by conversion of *sir* into ex-proprietary land. But the total area held by *malguzars* as home-farm increased in every district.

3. Rents showed a slight tendency to rise. In Saugor, with an increase in cultivation, the acreage rate of ordinary land shows a decrease of 1 pie, but in other districts the ordinary acreage rate rose by from 1 to 3 pies.

Rental.

In the Jubbulpore and Mandla districts, however, the rise is due to announcement of the revised settlement rents.

In Damoh, owing to settlement operations, the figures of rental collection are not available. Collections on account of current and arrear demand amounted in Jubbulpore to 91 per cent, in Mandla to 90 per cent, in Seoni to 97 per cent and in Saugor to 112 per cent of the year's rental demand.

4. Good crops on a larger area assisted the people in recovering from the depression of 1907-08, but the increase in the stock of plough-cattle which began in the previous year was not continued.

Condition of the agricultural classes.

There were losses from cattle disease in 1908-09 and to a small extent in 1909-10, but they do not suffice to explain the set back in replenishing plough-cattle. It seems that even good harvests did not enable the cultivator to meet an unusually large drain on his resources; he had to pay off the balance of obligations incurred in the bad year 1907-08; alarmed at the astrologers' forecast of a famine in 1910-11 he had to reserve as large a supply of grain as he could afford: and the close of a long period unfavourable for marriages drove him to much expense on ceremonies. He was forced to postpone some outlay, and made his stock of plough-cattle serve as best it might. Indeed in some cases he actually sold cattle to meet expenses.

5. An oppressive family in the Jubbulpore district and some *malguzars* in the Seoni district who deny *nistar* to their tenants are marked exceptions to the general rule that landlords and tenants work well together.

Relation between landlords and tenants.

Suits for arrears of rent were fewer than in the previous year; but more decrees were obtained in the Jubbulpore and Mandla districts.

Applications to eject tenants for failure to satisfy decrees for arrears of rent were somewhat fewer.

6. The satisfactory relations between Government and the people were indicated by the ready acceptance of the measures taken by Government to combat plague.

Relations between Government and the people.

7. Sanads having been granted in the previous year for works executed with *takavi* taken in 1907-08, the number granted in 1909-10 fell to 298.

Sanads.

8. At the beginning of the year the outstanding balance of Agricultural loans had been reduced to a lakh and two-thirds, and a distribution of only half a lakh sufficed for the year. Nearly a lakh and a quarter was collected, leaving a balance of less than one lakh. The balance due but uncollected was small in four districts, and in the fifth, Jubbulpore, the collection was complete.

9. The balance of land improvement loans outstanding at the beginning of the year was nearly  $5\frac{1}{2}$  lakhs; about Rs. 15,000 were lent during the year. Over one lakh was collected. The amount due during the year was collected in full in the Saugor district and nearly in full in the other 4 districts.

#### PART II.—LAND REVENUE COLLECTIONS.

10. The arrears of land revenue on 1st October 1909 amounted to  $2\frac{1}{4}$  lakhs of rupees. About Rs. 3,000 were remitted. A lakh and three quarters were set down for collection and were collected in full, leaving on the 1st October 1910 a suspended balance of under half a lakh. To the current revenue demand of  $21\frac{1}{4}$  lakhs of rupees, the Settlement added Rs. 30,000 in Jubbulpore and Rs. 15,000 in Mandla, making the demand Rs. 21,70,226. Rupees 12,000 were struck off and a small sum of Rs. 200 was suspended. The net demand for collection was  $21\frac{1}{2}$  lakhs, and, except Rs. 40 in Mandla, it was collected in full.

11. In the ryotwari land revenue the arrear demand was under Rs. 1,000 and the current demand over  $1\frac{1}{4}$  lakhs. Some small sums were remitted and suspended, and the balance was collected in full except Rs. 62.

12. One defaulter was imprisoned, in 15 cases moveable property was sold and in three cases immoveable property was sold or brought under management. Collection was therefore successful, and the notices or attachments were sufficient without further measures.

#### PART III.—LAND REVENUE SETTLEMENTS.

13. Resettlement is dealt with elsewhere. No important assignments of revenue were made or resumed during the year.

#### PART IV.—REVENUE COURT WORK.

14. In the course of recovery from 1907-08 private sales or mortgages with possession of mahals or shares decreased, but sales or foreclosures by the Courts, set in progress in the previous year, increased.

15. Owing to settlement operations, the making of imperfect partitions is suspended in Jubbulpore and Damoh.

The institution and disposal of partition cases was as much as in the previous year, but in Mandla the close of settlement operations was marked by applications for imperfect partitions and the pending file is now heavy.

16. The cases under selected sections of the Land Revenue and Tenancy Acts, set out in Statements L and M, show no marked general tendency. A prosperous year, for instance, was accompanied by a decrease in decrees for arrears of rent in three districts and an increase in two.

#### PART V.—OTHER HEADS OF REVENUE WORK.

17. Except in the Jubbulpore District the number of land acquisition cases was small: in Jubbulpore the number was large from acquisition of land for irrigation works. Most of the cases were completed, the balance is moderate, and no case has been pending for an excessive time. Delay due to the boundaries of villages being incorrectly marked on the plans is now obviated by having village boundaries marked by the Land Record staff.

18. The number of orders for sale of land to be disposed of by Collectors was 676, and fairly satisfactory progress was made in disposing of them.

In the completed cases the action taken was :—

|                                                                               | Per cent. |
|-------------------------------------------------------------------------------|-----------|
| Sale averted by payment ...                                                   | 30        |
| " " " temporary alienation ...                                                | 2         |
| Village, share or malik-makbuza land sold ...                                 | 12        |
| Absolute-occupancy land sold ...                                              | 15        |
| Refused because decree-holder refused to take a lease on reasonable terms ... | 2         |
| Struck off in default or otherwise ...                                        | 39        |

Owing to the varying effect of encumbrances, the number of year's purchase deduced from the sale-price fluctuates excessively.

19. The local practice by which sharers in a village collect rents according to their share and pay in revenue not necessarily through a lambardar is again animadverted on by the Deputy Commissioner of Damoh, who suggests that revenue be accepted only from a recognized lambardar; a co-sharer who fears that his lambardar will not pay in full may still remit his share by co-sharer's money order form. In Jubbulpore orders have issued that co-sharers should pay in through lambardars; the practice of allowing co-sharers to pay direct into the treasury was being made an engine of extortion.

20. Punishments of mukaddams and kotwars have been few and they have usually worked well. Assistance to kotwars in recovering their dues was occasionally given.

21. The number of revenue cases fell from 20,000 to 16,000 and the increase in cases pending at the close of year (which is common to all districts but Saugor and Mandla) requires attention. The longer pending cases, however, have decreased.

Appeals to the Commissioner, which were fewer than in the previous year, numbered 107; of these 22 per cent were allowed, 74 per cent were rejected and 4 per cent were pending at the end of the year. The number of letters received and issued decreased and the restriction of correspondence continues to receive attention.

22. Volume B of the Gazetteer was brought up to date in all districts of the division except Jubbulpore where 5 tables were in course of completion.

23. The ryotwari estate is of little importance in the Saugor, Damoh and Jubbulpore districts, but in each district the area occupied and revenue increased. In Seoni, the area and revenue were almost stationary, and in the important Mandla district the area was almost stationary, but revenue rose by 8 per cent owing to revision of settlement.

In Damoh allotment was held up, pending the Settlement Officer's revision of the survey numbers, in which possession differs from the original boundaries.

In Mandla, as the result of the Settlement Officer's systematic examination, 46 villages were restored to Government Forest, while 18 villages were newly constituted; the net decrease was 28. Hence the cultivated area did not increase though land was in demand. The provision by Government of a water supply is lessening the difficulty of making ryots live in certain villages, and resident ryots show signs of demanding that non-resident ryots should reside or relinquish their holdings.

In Seoni the discrepancies in the ryotwari records were examined; Forest and Ryotwari boundaries were reconciled or set down for local inspection in the camping season; missing leases and agreements were issued and the revision of Form J was begun.

24. Patels worked satisfactorily and collected most of the revenue. In Seoni they received 15 per cent on the collections, in Mandla 11 per cent.

25. Improvements were carried out in the ryotwari estate. In Saugor a well was completed. In Damoh 7 wells or tanks were improved or sunk and a field embankment was made: the programme of works was drawn up and approved.

In Jubbulpore 2 wells were improved and 1 was dug.

In Seoni, where works are being carried out in accordance with a programme 8 wells were improved and 8 new wells were started.

In Mandla, an extensive programme is under execution. 16 wells were completed before 1909-10 and 6 more were finished during the year. In April 1910, 64 wells were under construction. Field embankments were made in 86 villages and 3 tanks were repaired.

26. The detailed accounting by patwaris of collections according to holdings was introduced in the Damoh district, but the patwaris' settlement work hindered the working of the accounts.

In Jubbulpore, the system, introduced in the previous year, worked well.

In Seoni the system was introduced during the year. Lists of defaulters were not regularly submitted at the Tahsil, and the Deputy Commissioner fears that inspection in the camping season will show defects in the patwaris' accounts. Inspection should do much to remedy defects found.

In Mandla, where the matter is very important, the Deputy Commissioner is inclined to think that the burden thrown on the patwaris is excessive. He reports favourably on the new system for showing the payment of commission to patels who pay in cash; the net amount is paid in, the Wasil-baki-navis prepares a triplicate form; one is given to the patel and of the other two, one vouches for land revenue and the other for commission.

27. In Saugor the examination of forests notified under Section 124-A of the Land Revenue Act resulted in the release of 12 out of 25.

28. In Jubbulpore with effect from 1st October 1909, the Jubbulpore Tahsil was split into two Tahsils: Jubbulpore and Patan.

29. In Saugor 600 and in Damoh 1,263 revenue money-orders were used. In Jubbulpore, they are used most freely by malguzars who have small or moderate sums to remit.

In Mandla Rs. 44,000 of land revenue and Rs. 60,000 of miscellaneous revenue were remitted by money-order.

30. The touring and inspection of District Officers was sufficient but the Deputy Commissioner of Jubbulpore was much detained at head-quarters.

My predecessors were on tour for 177 days and inspected all the treasuries and most of the district offices and tahsils of the Division.

31. Mr. H. A. Crump held charge of this Division until mid-July, and Mr. R. A. B. Chapman for the rest of the year.

The districts were held by the following District Officers during 1909-10:—

|            |     |                                                                                                           |
|------------|-----|-----------------------------------------------------------------------------------------------------------|
| Saugor     | ..  | Mr. R. Moss-King<br>(Mr. G. L. Corbett for 6 weeks).                                                      |
| Damoh      | ... | Mr. L. A. G. Clarke.                                                                                      |
| Jubbulpore | ... | Sir Arthur Blennerhassett, 2 months.<br>Mr. R. A. B. Chapman, 7½ months.<br>Mr. H. F. E. Bell, 2½ months. |
| Mandla     | ... | Mr. R. A. Wilson, 7 months.<br>Mr. R. V. Russell, 5 months.                                               |
| Seoni      | ... | Mr. L. E. P. Gaskin.                                                                                      |

I am unable to comment on the work done during the year.

The district reports specially mention the following officers :—

*Extra Assistant Commissioners :—*

Messrs. Abdur Rahman, W. J. Bagley, Bhagwan Das, R. H. Collins,  
N. K. Hardass, Jai Narayan, Manzur Ahmad, Mian Bhai Abdul  
Hussain, W. Pasley.

*Tahsildars :—*

Abdur Rahim Khan, S. R. Date, Krishna Sewak, R. W. Lakhkar,  
Mohammad Ali Shah.

*Naib-Tahsildars :—*

Chhatar Singh, Jagannath Pershad, Jawahir Lal.

C. W. MONTGOMERIE,

*Offg. Commissioner,*

*Jubbulpore Division.*

## Land Revenue Report of the Nerbudda Division for the year ending 1909-10.

The total rainfall of the year was in all the Districts of this Division considerably below the average, but the general monsoon conditions, and notably the timely breaks, were very favourable for agricultural operations. The monsoon lasted practically from the middle of June to the middle of September; for the next three months there was no rainfall, but in the latter half of December there were good showers which gave a rainfall varying from 1 inch in Hoshangabad to 3 inches in Betul. The kharif sowings were started in the middle of June: germination was good and timely breaks afforded excellent opportunities for weeding and for thorough preparation of the land for rabi sowing, which began in good time and was finished earlier than usual. The absence of rainfall between September and December caused some anxiety, but the good Christmas rains revived the drooping rabi and brought on the crop to a bumper harvest.

Character of the season.

2. The average outturn of most crops was generally above the normal throughout the Division, but Narsinghpur stands first in this respect not only in the Division, but in the Central Provinces. Juar is said here to have given an outturn of 190 and kodon of 175. Wheat was again as much as 135. The effect on agricultural conditions of the favourable monsoon did not stop here, for it also accelerated the reclamation of new fallow. The area under crop in this Division in 1908-09 was in excess of that for 1907-08 by over  $1\frac{1}{2}$  lakhs of acres and another  $1\frac{1}{2}$  lakhs of acres were added in 1909-10. The cropped area is now much in excess of the normal cropped area. All Districts share the increase. Hoshangabad had the largest increase of about 50,000 acres; Nimar comes next with 34,000; Chhindwara and Betul had about 23,000 each, while Narsinghpur had about 10,000. In Narsinghpur and Chhindwara the excess area gained by kharif after the scarcity is being gradually restored to rabi. In other places the increase in the cropped area is common to kharif and rabi.

Outturns of crops.

3. There has been a net increase of over 12,000 acres in the total occupied area in the Division. Chhindwara continues to take the lead in this respect and Betul follows. In Hoshangabad there has this year been an increase of 800 acres, while Nimar and Narsinghpur have a decrease of 2,000 and 700 acres, respectively. The increase in Chhindwara and Betul Districts is reflected in the figures both for khudkasht and tenant lands, but the comparatively slight increase of rents indicates that the new land consists for the most part of poor soil. In Hoshangabad and Narsinghpur the khudkasht area has increased by 3,000 and 2,000 acres at the expense of the tenant area, and this fact explains the decrease of over 3,000 in the rental demand for the year in spite of the increase due to new lands in Betul and Chhindwara. In Nimar the malik-makbuza area has recovered 2,000 acres from khudkasht and tenant land as a result of the Judicial Commissioner's ruling of 1908. The whole of the decline in the occupied area has been in tenant land.

Area statistics.

4. The practice of subletting *sir* land is on the increase. The area sublet this year was 127,984 acres or about 3,000 more than in the previous year and the rent has gone up by Rs. 58,000. In Hoshangabad there has been an increase of Rs. 45,000 in the rent demanded for *sir*, though the area has dropped by 2,000 acres. In Betul an increase of 2,500 acres has been accompanied by an increase of Rs. 12,000 in rent. The highest rate of rent demanded per acre of *sir* is Rs. 4 in Nimar against the incidence of tenant rent at Re. 0-9-9; in Narsinghpur and Hoshangabad it is Rs. 3 per acre, while in Chhindwara and Betul it is light.

5. The total demand of the malguzars on account of rents from tenants, tenants of *sir* land and from malik-makbuzas amounted to over Rs. 38,00,000. The revenue demand was over Rs. 21,00,000, giving the malguzars a balance of about 17 lakhs, besides profits from direct cultivation of the home-farm. The collection of rents has been

Rents.

generally satisfactory, and there appears to have been special activity in the collection of arrears in the Hoshangabad and Betul Districts, where the bulk of the suspended rents of 1907-08 fell due in 1909-10. The percentage of the collection of the current demand was lowest in Narsinghpur in spite of its phenomenal crops; this is ascribed to the rush of marriages. Other Districts have done well. The percentage of the total collections to the current demand were 98 in Narsinghpur, 110 in Chhindwara, 111 in Nimar, 128 in Hoshangabad, and 136 in Betul. The Divisional percentage works out to 112.

6. The year was one of marked agricultural prosperity. Fine crops and high prices have enabled the cultivators to pay off, without much pressure, their arrears of rents, taccavi and other private debts, as well as to carry through the many marriages deferred on account of the 'Singhast.' The Deputy Commissioner, Nimar, notices the mischief that is being caused by Bania sahuikars in ryotwari villages. This evil is common to all Districts but is most prevalent in cotton tracts. We can only look to the gradual development of Co-operative Credit Societies to remedy this state of affairs. Prices of food-grains have fallen considerably, and with another good rabi, of which there is now promise, prices may get down to the pre-scarcity level. The labouring classes find plenty of employment in the fields and on works constructed by private persons, as well as on Government and Railway works and good wages are obtained. Complaints are beginning to be made of the want of labourers for agricultural work on occasions of pressure. I have been told of large bodies of labourers from Hoshangabad migrating during the rains to the Nimar District, where high wages are earned on weeding juar and cotton crops.

7. The use of improved machinery is gradually spreading, and there is a strong demand for winnowing machines in wheat tracts. The benefits of embankments, irrigation, and the use of manure and improved seed are gradually becoming more familiar to members of agricultural associations, but few are willing to take the trouble of imparting to their tenantry the knowledge and experience which they gain as members of the associations. Mr. Evans is doing his best to infuse life and energy into the work, and I think that some success has attended his efforts, so that it is not uncommon to find members who take an active interest in agricultural development. With the majority, however, membership is still regarded more as an honour than a responsibility. The remedy for this is to be sought in confining membership to practical cultivators and gradually weeding out inactive members. In this country, where Government distinctions have peculiar value, it would be quite a good move if some title or honorific form of address could be devised which would be appropriate for men who make their mark in practical agriculture or, if this is deemed impracticable, the grant of formal *sanads* or certificates may be found useful. The associations as a rule hold annually not less than two meetings at which the execution of definite programmes of improvement in the matter of selection of seed, &c., is assigned to individual members. The Deputy Director and his Agricultural Assistants, and in all places which cannot be reached by them, the Sub-Divisional Officers, Tahsildars, Naib-Tahsildars, and members of the Land Record Department should personally observe the progress of experiments. Action is being taken in Hoshangabad with the help of the Deputy Director to record notes of possible improvements for certain villages. The Deputy Director cannot be expected to work out schemes for all villages, but he is able to do so for some which he visits in the course of his tours, and any suggestions recorded by him or by his Assistants will be of use to the officers of the District staff.

8. Altogether 135 *sanads* for improvements were granted during the year against 206 in the previous year and 67 in the year before. The largest number was 62 in Narsinghpur.

9. There was no serious epidemic among cattle during the year except in parts of Betul and Chhindwara. The number of bullocks has increased in all Districts except Betul, where a decrease of 20,000 has been reported. This decrease is possibly the result of incorrect reporting, for there is a corresponding increase in the number of

Condition of the agricultural classes.

Improvements.

Veterinary Dispensaries.

cows and young stock. The only other causes that can be assigned for the decrease are cattle disease and sales for payment of taccavi, but the latter were noticed by the Deputy Commissioner and seem to have been stopped in good time.

10. Veterinary Assistants are doing as much as they can to check cattle disease but, as noticed in paragraph 11 of my report for last year, it is impossible for a small staff of Assistants in each District to cope with the rush of work in times of epidemic. Perhaps something might be done to give instructions to intelligent Malguzars and Revenue Inspectors and Patwaris in the matter of inoculation and in the treatment of the more serious forms of cattle disease.

11. Co-operative Credit Societies exist in Hoshangabad and Betul and are reported to be doing useful work. But the stage has not yet, according to my enquiries on the spot, been reached at which the Society has entirely taken the place of the ordinary banker in the business transactions of its members. The whole-time Registrar recently appointed should be able to put the Betul societies on a better basis. The Nimar report indicates that there is urgent need of starting such societies in the ryotwari tracts and my tour in Nimar last year impressed me strongly with this need in many malguzari villages also.

12. Relations between landlords and tenants and between Government and the people continue to be satisfactory. The Betul report speaks unfavourably of the treatment accorded by certain Bania malguzars to their tenants. I am not convinced that the fault is all on one side.

13. The year opened with a balance outstanding under both Acts of Rs. 6,30,929. The demand for loans has now returned to normal. Rs. 59,668 were advanced for the purchase of seed and bullocks and Rs. 28,905 for the improvement of land. The demand falling due for recovery during the year amounted to Rs. 3,81,123, of which Rs. 3,25,753 on account of principal and Rs. 49,264 on account of interest were collected. The overdue balances are somewhat large, amounting to Rs. 59,069, more than two-thirds of which is in Betul, where the Deputy Commissioner had to stop collection in order to prevent agricultural cattle being sold to provide funds for repayment. Collections were good in the Hoshangabad and Narsinghpur Districts and the malguzari portions of the Nimar District. My inspections of Tahsil offices showed that few Tahsildars and Sub-Divisional Officers have fully understood the effects of the suspension of loans. In many instances one and even two instalments of the suspended loans, which should have been put back one or two years, have been recovered with the current demand.

## PART II.—LAND REVENUE COLLECTIONS.

14. The total malguzari demand of land revenue on the roll has decreased by Rs. 878. The acquisition of land for the new Rail-ways in the Hoshangabad, Betul, and Chhindwara Districts accounts for a decrease of Rs. 1,027, and there were small increases, amounting to Rs. 149, on account of the resumption of nuafis. The collection of the suspended arrears of 1907-08, which at the beginning of the year amounted to Rs. 2,96,510, has now been completed, with the exception of a small item of Rs. 789.

The net demand on current account during the year, after allowing for remissions due to land acquisition and for advance collections, amounted to Rs. 21,66,604, practically the whole of which was collected. Advance collections came to Rs. 1,299, the largest amount being in Chhindwara. At his inspection of the Tahsil office in August last, Mr. Mayes was not satisfied that the large amount of advance collections was not due to the remissness of the Tahsil Wasil-baki-navis. The Deputy Commissioner and the Tahsildars should see that there is no such carelessness in future. Sums inadvertently paid in advance in one year must be taken into account next and not allowed to accumulate.

15. The arrears, including the balance of the suspended arrears of 1907-08, on account of ryotwari revenue, were at the commencement of the year Rs. 47,902; of this Rs. 33,847 were collected and Rs. 2,617 are due for collection in the current year. The rest of the demand, which was mostly due from ryots in the Harsud Tahsil who had died or absconded, had to be remitted. The current demand amounted to Rs. 1,26,543 and collections to Rs. 1,24,736, leaving a balance of Rs. 1,790 for collection in the Harsud Tahsil.

16. Cesses, both malguzari and ryotwari, amounted to Rs. 1,35,809, and were collected in full.

17. There has been very little variation in the demand on account of Miscellaneous Revenue, which for the current year amounted to Rs. 26,047, and was collected in full, with the exception of the royalties on the Mohpani Colliery, which are still outstanding pending the orders of the Government of India, and now amount to Rs. 41,287.

18. Notices of demand have again gone down from 301 to 214 and there has been a further increase in the number of warrants of attachment issued. The largest number of these was issued in the Chhindwara and the Betul Districts but the percentages of the arrear to the total demand for which processes were issued were only 7 and 6, respectively. In Narsinghpur, though coercive processes were not as numerous as in Chhindwara and Betul, the percentage of 15 on the Land Revenue demand was remarkably high. The Deputy Commissioner is not quite correct in saying that the Commissioner was satisfied at his inspection of the Tahsil office that the large number of processes was justified. This was so in Gadarwara, but in Narsinghpur the Tahsildar appears to have waited for payment of revenue till long after it had fallen due and then to have issued warrants of attachment where notices of demand issued at an earlier date might have been equally effective. In other places processes appear generally to have been issued with fair discrimination. The Deputy Commissioner, Nimar, and the Tahsildars of that District are to be congratulated on the very good results obtained with only 20 processes.

### PART III.—LAND REVENUE SETTLEMENTS.

19. All the muafi grants were verified during the year and resumptions were reported and sanctioned where necessary. The one case in the Chhindwara District, which has been pending for a long time, will, it appears from the Deputy Commissioner's report, be taken up by Deputy Commissioner, Nagpur, along with other cases relating to the estate of the late Naolaji Rao Gujar.

### PART IV.—REVENUE COURT WORK.

20. With the return of better times both the credit of the agriculturists and the land market appear to have recovered considerably. The number of private sales and mortgages has fallen, and there is a decrease of about 100 per cent in the area transferred. The price realized has, on the other hand, risen about 50 per cent. There has been little variation in the number, area or the consideration of the forced sales.

21. There were 34 partition cases pending at the beginning of the year and 74 more were instituted, making a total of 103 for disposal during the year. Thirty cases were disposed of by actual partition, while in 38 the applications for partition were either withdrawn or rejected, and 40 cases were left over for disposal in the current year. The best results were in the Betul District. In Hoshangabad and Narsinghpur disposal is not very prompt, and in Chhindwara the number of applications rejected or withdrawn was rather large. Having regard to the clear provisions of Section 136-A of the Land Revenue Act, the number of applications rejected appears large, and I fear that there may be a tendency among partitioning officers to reject applications on technical grounds, so as to avoid having to give

explanations of delay in the periodical returns. Deputy Commissioners should see that cases are not allowed to drag on till a favourable opportunity for striking off presents itself, the cases being subsequently again taken up on fresh applications.

22. The number of cases under the special provisions of the Land Revenue and the Tenancy Acts has gone down from 1,399 to 1,153 this year. As usual, the largest number of these were decrees for arrears of rent transferred to Revenue Courts for execution by ejectment. In 121 cases tenants complained of illegal ejectment by malguzars, but only 38 cases were found to be true. Applications for permission to transfer cultivating rights in *sir* land amounted to 102. There were 67 applications by malguzars for recovery of revenue for sub-proprietors and 77 from tenants for deposit of rents. In 35 of the former class of cases aid was given to the malguzars. I consider, however, that a larger number of these ought to have been successful. In the other class of cases, 9 applications for deposit of rent are shown as having been rejected. This was due to a misunderstanding on the part of the Tahsildars concerned as to the scope of Section 8. I found in some cases that deposits were not received without giving notice to the malguzar concerned of the tenant's intention to deposit and hearing what they had to say in the matter. Complaints by tenants as to excess recoveries continue to be rare, but the majority of these cases appear to be true and were successful. Applications by heirs to set aside surrenders or transfers of tenant-rights appear to have increased, even though the results were not favourable to the applicants. Out of 82 applications to set aside surrenders, only 25 were successful. Judging from the results in appeal, I am not sure that more might not have succeeded in the first instance. The working of Section 61 of the Tenancy Act appears to have been neglected in the past and better results may be expected next year. The evil, to prevent which this section was enacted, has, to a great extent, subsided in the Hoshangabad and the Narsinghpur Districts but appears now to be springing up in the cotton tracts. Land acquisition has increased the number of cases for alteration of rent, which this year were 141. Under the other provisions of the Tenancy Act, which provide for an increase or reduction of rent, there are shown 13 cases for enhancement and 4 for reduction of rent due to improvements. I have called for the records of these with a view to ascertaining if they have been correctly classified. For the rest very little use has been made of the provisions for the periodical enhancement of rents of ordinary tenants after settlement.

23. Suits for arrears of rent have fallen by about 500. As usual, a great majority of these cases were decreed in favour of the malguzars. About one-fourth of the decrees had to be transferred to Revenue Officers for execution. Hoshangabad and Narsinghpur continue to contribute the largest number of cases of this class. From the Nimar District 3 cases are reported in which malguzars tried to eject tenants under Section 52 (b), but failed to obtain decrees. The number of suits for recovery of possession of holdings has also fallen. The percentage of the cases decreed in favour of the plaintiff was nearly the same as in cases under Section 92 of the Tenancy Act.

#### PART V.—OTHER HEADS OF REVENUE ADMINISTRATION.

24. There has been a large increase in the number of cases owing to the acquisition of land for the new lines of Railway in the Hoshangabad, Betul, and Chhindwara Districts. The Land acquisition. Betul cases were dragging on badly at the beginning of the year, but have been disposed of with promptitude during the current year by Mr. Umrao Singh, and Mr. R. S. Thakur appears to have done equally well in Chhindwara. Out of a total number of 66 cases for disposal, only 21 remained over at the end of the year, and in the majority of these compensation has been paid. One case in the Betul District, about the land taken for the Badnur-Ellichpur road, will have to be taken up by a special officer.

25. There has again been an increase in the number of cases for the sale of land by order of the Civil Court. There were <sup>Collectors' cases.</sup> altogether 1,205 cases for disposal against 1,025 of the preceding year and 877 of the year before. Cases have, as a rule, been promptly disposed of, and, in spite of the increase in the number of cases, the pending file has not been allowed to increase. The number of cases in which properties were saved by temporary alienation continues to be very small but there has been a large increase in the number of cases settled out of Court. Sales were effected in fewer cases this year, and the prices realized have generally not been as good as in the previous year, probably an indication that it is, as a rule, the hopeless defaulter, who cannot get a good price in the market, that lets his lands be sold by the Collector.

26. The lambardari system is working well, though occasional cases of friction between the lambardars and co-sharers came to <sup>Village officers and servants.</sup> notice, generally in the course of partition proceedings, the number of which is steadily rising. Revenue is, as a rule, promptly paid, and comparatively little aid was asked for by the lambardars in the matter of recovery of revenue from co-proprietors. Mukaddams are generally doing their work satisfactorily, though the position of the gomashas, wherever they exist, needs strengthening. Kotwars have as a body worked well and very little punishment was necessary during the year. Action is being taken to revise the rates of remuneration payable to the kotwars, so as to bring it to the minimum of Rs. 48 per annum but, as remarked by the Deputy Commissioner, Betul, this standard will be difficult of attainment in villages where few non-agriculturists reside, though it is just in those villages that there is most need for increase. The Deputy Commissioner, Betul, suspects that mukaddams and kotwars suppress cases of illicit distillation in the jungle parts of the District.

27. There has been a general falling-off in the number of revenue cases for disposal during the year owing to the drop in the <sup>General Revenue Business.</sup> number of taccavi cases. The outturn of work has been good and the pending files are not very heavy. But here, as in the Correspondence Branch, there appears to be a deplorable waste of labour both in registration and in the Record Room owing to the need, imposed by rule, of treating as revenue cases papers which are of purely ephemeral importance. I hope to be able to look into this matter in the course of my inspection of offices in the current year.

28. With the fall in the number of cases for disposal, the pending file has been reduced and there are fewer cases of long standing. I agree in the opinion expressed in one of the reports that the cases that now come before Revenue Officers present more complications than before but there appears to be a general want of method about the disposal of Revenue case work, which is regarded as a matter of secondary importance only. During my inspections I have frequently had occasion to comment adversely on this state of affairs. If there is one thing more than another which requires to be pressed on the attention of Revenue Officers it is the need for accessibility to the public. In most District Offices all applications intended for presentation to the Deputy Commissioner and his Assistants were in the first instance handed in to the Assistant Superintendent, Vernacular Branch, by whom they were marked and transmitted to the Courts concerned through the Dak Book. The Courts then gave a preliminary notice to the applicant, directing him to pay in court-fees for the service of the notice on the non-applicant. I have ordered this to be stopped. If the petition-writers know the distribution of work among Assistants in the District, they can inform their clients to which officer a petition is to be presented, and petitions should be received personally by the Deputy Commissioner and his Assistants, not merely by the Court Readers. When officers are on tour, the Assistant Superintendent can receive petitions on their behalf but if Sub-Divisional Officers and Tahsildars adopt the method of halting for some days at convenient centres, parties can, if they so desire, without difficulty present applications direct to the officers concerned, and may be instructed at Sadar to do so if the centre happens to be conveniently situated for them. I do not

think that anything should be allowed to replace the old practice of regular receipt and personal scrutiny by Revenue Officers of revenue petitions as they are presented. It used to be part of the day's business at a certain hour to go through all the applications that had been presented and to hear what the applicants had to say. Often it was found that orders could be passed immediately and the applicant informed. The practice is distasteful only to the officer who will not attend office and cannot take the trouble of personally hearing parties on their first appearance. I hope, however, that effect is now being given to standing orders on this point.

29. There were the following number of Revenue cases for disposal by the Commissioner during the year; appeals 227, sale cases 309, *Sir* cases 44, and miscellaneous cases 21.

30. The number of English letters registered has gone down considerably this year as a result of the instructions issued on the subject. The numbers can now be reckoned by hundreds where they used to be thousands. The total number of letters issued registered in District Offices was 1,606 against 10,343 and 14,982 in the two previous years. Receipts registered numbered 3,254 against 12,185 and 18,260 of the two previous years. In my own office the total number of receipts and issues was 2,400 against 12,000 in the previous year. It is now generally admitted that work has been reduced. There are no complaints of overwork and none of the usual clamour for more establishment. I do not think that there has been any detriment to business from this reduction of labour, but the system requires to be worked carefully, and constant inspection and supervision will, for some time to come, be necessary; another point is that it must have a full trial, effort being made to prevent any secret introduction of private and unauthorized registration.

31. There is still the old complaint that the present minimum rate of pay is not sufficient to attract qualified men for the ministerial service. I should like to see a smaller staff of better paid men. The matter is under consideration and orders must be awaited. Meanwhile it would be a mistake, I think, permanently to fill places with men of inferior stamp, when before long improved conditions may attract the class of officials that we require.

32. The "B" Volumes of the District Gazetteer are reported to have been brought up to date in all the Districts of the Division.

33. All the Deputy Commissioners, Extra-Assistant Commissioners, Tahsildars, and Naib-Tahsildars appear to have done a sufficient amount of touring and all Tahsil Offices were inspected during the year by the Deputy Commissioners or their Sub-Divisional Officers. Mr. Mayes and I inspected all the District Offices and all the Tahsil Offices, except Sausar, during the year.

34. I have been impressing on Sub-Divisional Officers and Tahsildars the need of recurring halts of 5 or 6 days at a time at large centres in their charges, from which they can visit the surrounding villages. I am not satisfied from the travelling allowance bills that come before me that this plan has been generally adopted but I hope for better results this year.

35. The total occupied area for the Division has increased by about 50,000 acres, mostly in the Nimar District and there are still large areas awaiting allotment in the Nimar and Betul Districts. The condition of residence is being strictly enforced, and in Nimar several non-resident speculators were ejected but in view of the ruling of the Financial Commissioner that the condition of residence can under the present law be only enforced in a Civil Court, action in this direction will have to be deferred until the passing of the new Act. One good sign has been that the lands from which these speculators are ejected are promptly taken up by cultivators who are prepared to reside permanently in the villages. Subletting by ryots continues but action is being taken to stop it as

much as possible. As noticed above, nearly the whole of the ryotwari revenue on current and arrear accounts was collected, and the bulk of this came through the Patels whose profits from collections are small, their real profits being from cultivation of the areas which they can hold to a larger extent than the ordinary ryots. Many Patels were found in possession of much larger areas than what they can conveniently cultivate, either direct or through sub-tenants, and in several cases it came to light that Patels were using large areas for producing crops of grass.

The District reports indicate that fairly substantial amounts were advanced to the ryots in all Districts as loans for seed and bullocks, and to a certain extent for land improvement. The Nimar report indicates the need of the extension of the Co-operative Credit system in that District.

Substantial amounts have been spent in the improvement of the water-supply in villages. Programmes are in existence in every District and are being worked up to from year to year.

36. The suggestion in paragraph 41 of the report of the Betul District appears to me to be worth consideration. I think it should be possible, as suggested by the Deputy Commissioner, to send an official telegram to all Districts in the Central Provinces as soon as the Meteorological Department have been able to ascertain that the monsoon has broken for the first time and that it is likely to visit the various parts of the Provinces by a certain date.

37. All Deputy Commissioners have done well, and I am indebted to them for the assistance that they have given me. The following officers have been specially mentioned in the District reports for good work :—

Mr. T. E. Bromley, Assistant Commissioner.

|                            |     |                                  |
|----------------------------|-----|----------------------------------|
| Pandit D. B. Patwardhan    | ... | } Extra-Assistant Commissioners. |
| Sheikh Mohomed Ali Haqqani | ... |                                  |
| Pandit R. S. Thakur        | ... |                                  |
| Thakur Umrao Singh         | ... |                                  |

|                               |     |               |
|-------------------------------|-----|---------------|
| Munshi Nizam Ali              | ... | } Tahsildars. |
| Syed Meher Ali                | ... |               |
| Pandit Gaorishankar Agnihotri | ... |               |

Pandit Jageshwar Rao, Officiating Tahsildar.

There are others who have done excellent work but in regard to all those whose names are mentioned above, I can, from personal observation, thoroughly assent to the commendation bestowed on them.

H. M. LAURIE,

*Commissioner,*

*Nerbudda Division.*

HOSHANGABAD :  
The 12th December 1910. }

Annexure C.

REVENUE ADMINISTRATION REPORT, 1909-10.

NAGPUR DIVISION.

| 2                                            | General outturn }                                                    |                                         |
| 3                                            | Changes in occupied area and tenures                                 | 3 & 4                                   |
| 4                                            | Rental collections                                                   | 5                                       |
| 5                                            | Condition of the agricultural classes                                | 6                                       |
| 6                                            | Relations of landlords and tenants                                   | 7                                       |
| 7                                            | Relations of Government and the people                               | 8                                       |
| 8                                            | Sugar industry                                                       | 9                                       |
| 9                                            | Sanads for improvements                                              | 10                                      |
| 10                                           | Loans                                                                | 11                                      |
| PART II.—LAND REVENUE COLLECTIONS.           |                                                                      |                                         |
| 11                                           | Changes in demand                                                    | 12                                      |
| 12                                           | Collection of revenue                                                | 13                                      |
| 13                                           | Revenue concessions                                                  | 14                                      |
| 14                                           | Coercive processes                                                   | 15                                      |
| 15                                           | Fluctuating land revenue                                             | 16                                      |
| 16                                           | Miscellaneous land revenue                                           | 17                                      |
| PART III.—LAND REVENUE SETTLEMENT.           |                                                                      |                                         |
| 17                                           | Muafi resumption                                                     | 18                                      |
| PART IV.—REVENUE COURT WORK.                 |                                                                      |                                         |
| 18                                           | Alienation of land                                                   | 19                                      |
| 19                                           | Partition cases                                                      | 20                                      |
| 20                                           | Cases under important sections of the Land Revenue and Tenancy Acts. | 21 & 22                                 |
| 21                                           | Civil litigation between landlord and tenant                         | 23                                      |
| PART V.—OTHER HEADS OF REVENUE BUSINESS.     |                                                                      |                                         |
| 22                                           | Land acquisition                                                     | 24                                      |
| 23                                           | Collector's cases                                                    | 25                                      |
| 24                                           | General revenue business                                             | 26                                      |
| 25                                           | Judicial work of the Court of Commissioner                           | 27                                      |
| 26                                           | Village officers and servants                                        | 28                                      |
| 27                                           | Management of Government estates                                     | 29-32                                   |
| 28                                           | B. Volumes of Gazetteer                                              | 33                                      |
| 29                                           | Tours and inspections                                                | 34                                      |
| 30                                           | Notice of officers                                                   | 35                                      |

## Land Revenue Administration Report of the Nagpur Division for the year 1909-10.

### PART I.—AGRICULTURAL CONDITIONS OF THE YEAR.

The monsoon of 1909 was a distinctly favourable one. It opened with light falls during June, but became well-established in July and that month was marked by heavy rain. In August and September the rain was well distributed and timely with opportune breaks. In Balaghat the fall was dangerously light for the rice harvest, but so extraordinarily timely that the rice crop of the district was above the average. December was marked by an abnormal fall of rain throughout the Division accompanied in places by hail. A certain amount of damage was done to kharif crops, but this was not really serious and was far outweighed by the benefit to the rabi crops.

2. Throughout the Division the kharif and rabi harvests were distinctly good. Sowings of cotton, juar, and rice were completed in time and germination was good and rabi sowings were effected under favourable conditions, though a swarm of locusts necessitated resowing in the Mansar Circle of the Ramtek Tahsil. The heavy rain of July somewhat damaged juar in lowlying black soil, and in Chanda District juar and rice suffered, slightly from the ravages of insects. The December rains interfered with threshing of rice in Balaghat, and elsewhere caused a large amount of juar to turn black, but as most of the cotton had been picked the damage was not serious, and the rain was most opportune for the spring crops. Parts of the Nagpur and Bhandara districts were visited by a severe hail-storm. The crops, however, recovered to a large extent, and investigation showed the harm was not as great as had been anticipated, though small suspensions and remissions were found necessary in the Nagpur Tahsil.

The area under spring crops in Balaghat was 186,050 which is larger than in any year on record except 1906-07, and the outturn is described by the Deputy Commissioner as easily the highest on record. Rabi-til yielded a bumper harvest in Sironcha Tahsil. The estimated outturn, of wheat range from 95 in Chanda and Bhandara to 120 in Wardha and Nagpur.

On the whole the harvests of the year leave little room for complaint.

3. The total area included in holdings increased by some 3,600 acres in the Division as a whole, but this figure is misleading. The area in Chanda shows a decrease of 2,187 acres, but if a decrease of 14,969 acres transferred to the Madras Presidency is allowed for, there has been an increase of 12,782 acres. Taking this into consideration the actual increase in the whole Division amounts to 18,600 acres.

The figures for Bhandara show a very satisfactory increase of 8,638, the result of the steady development of the district. The decrease of 2,941 acres in Nagpur is due to large acquisitions for the Ramtek reservoir. The area in Wardha rose a little owing to the cultivation of waste land, but it fell slightly in Balaghat.

The variations in areas under the different tenures exhibit the usual tendencies. The increase of 13,103 acres under occupancy right in Chanda is noticeable and practically counterbalances the area of occupancy land handed over to Madras. It is attributed to the favourable conditions of the year and the influx of new settlers from Berar and the Nizam's dominion. The Deputy Commissioner, Wardha, comments on the smallness of the increase in occupancy area considering the various transactions tending to increase it, and suggests that it is probably due to resignation for consideration to malguzars. The increase of sir at the expense of khudkasht is due to the Settlement now in progress there. Nagpur again shows a large rise in the number of tenancy holdings in spite of the fall in the total area which would imply that the average rise of a holding is growing less. Khudkasht land has extended there as usual. The increase of malik-makbuza land is not real as it is due to portions of the acquired area of the Ramtek Reservoir being leased out by the Irrigation Department and so recorded as Milkiyat Sarkar and shown under malik-makbuza in the Statement.

4. Statement B shows that the area held by Patels and Ryots has fallen by 12,818 acres, but if we allow for the land transferred to Madras, this figure should be 4,494. The decrease is chiefly in Balaghat—5,588 acres—and is due to the cutting down of the area of unwieldy and poorly cultivated survey numbers during the re-Settlement. The Deputy Commissioner notes that the numbers of Patels and Ryots have increased. In Bhandara 475 acres have been given out for the first time and the rent-rate reports have been submitted to the Commissioner of Settlements for sanction.

5. The total rental demand of the Division is shown as Rs. 36,74,185 as against Rs. 36,68,725 in the preceding year. The Rental collections. increase in Bhandara is ascribed to the extension of cultivation and in part to the termination of abatements in some villages. In Balaghat it is due to landlords enhancing rents informally. The remaining districts show decreases for which no explanation is vouchsafed but which are probably due to the circumstances mentioned in paragraph 3. The collection of the current rental demand and arrears was satisfactory. The percentage of the former ranges from 85 in Wardha and Bhandara to 97 in Chanda, giving an average of over 89 for the Division. Suspended arrears have been collected almost in full.

6. The general excellence of the harvests and the unprecedented price of cotton has resulted in a marked advance in the prosperity of the agricultural classes, and another such season should see them regain most of the ground they lost during the year of leanness. Condition of agricultural classes. The Deputy Commissioner, Wardha, however, states that many cultivators were unable to reap the profits of the good season to the full. The stringency of money during the sowing season, and their inability to obtain taccavi on account of the small allotment forced many to make forward sales of cotton at Rs. 50 to Rs. 60 per khandi on "lawni" system, though after the harvest the price rose to over Rs. 80. I do not understand how the Deputy Commissioner proposes to make taccavi fund available without regard to the Budget provision which is based on District Officers' forecasts. There is little doubt, however, that there was a general decrease in indebtedness among cultivators. The monsoon coming in like a lamb prevented the heavy mortality among agricultural stock which was so marked last year. No serious epidemics are reported except from a small group of riverain villages from Chanda Tahsil where the previous year's suspended revenue was remitted. The rate of wages was maintained, and the labourer has rarely been in better case. There was ample employment ready to hand in field operations, Irrigation and Railway works, and mines. In fact, the demand exceeded the supply and in every District the cultivator was hampered by the difficulty of obtaining sufficient field labour. This is a disquieting feature in the agricultural conditions of to-day. There is little indication from Nagpur that people are taking to improved methods of agriculture, though the copper-sulphate treatment of juar seed is said to be well-known and appreciated. In Wardha, however, the cultivator is beginning to see the advantage of thinner sowing and good seed. All the cotton seed from the Kutki home-farm was sold, and several would-be purchasers were left unsatisfied. The District Agricultural Association at Chanda is increasing in popularity, but the numbers are too small to have any wide influence as yet.

7. The relations of landlords with their tenants are reported to be generally satisfactory. The few disputes that arise are generally in connection with rights of nistar or tank water. For The relations of landlords and tenants. the most part if there is any ill-feeling in a village it is more usually between co-sharers than between landlords and tenants. The tenants are becoming fully alive to their rights and in one case in Kamtha Zamindari in Bhandara they have disputed the right of inferior proprietors to *begar* which can be exercised by the Zamindar personally. In Wardha a Kot-war was sued for the value of a cart and a decree obtained. It was discovered that a police official had taken this cart for *begar*, and left it broken in another village, so he was made to pay the decretal amount. As regards the question

of the denudation of malguzari forests by tenants the Deputy Commissioner, Bhandara, suggests that there should be some summary method of dealing with tenants for breach of the rules intended to protect the village forest. At present the malguzar can be proceeded against, but he has no redress against tenants except by litigation.

8. The relations of Government and the people have continued satisfactory. In rural areas the necessity for evacuation for plague has as usual been fully accepted, and generally no hostility is displayed towards Government measures. In backward tracts there is much inherent sensitiveness in regard to any changes in Forest regulations and in some Ranges in North Chanda the feeling regarding recent enhancement of rates was not without some cause.

False prophecies regarding disasters connected with the Comet led to large accumulations of grain stocks which accentuated the slump in prices when good harvests were assured.

The Balaghat Fair was established this year with its Agricultural Cattle and Horticultural Shows and proved a great success. The opportunity was taken to hold a meeting of landholders from the area commanded by the projected Wainganga Canal, and to inaugurate a District Bank for supplying capital to Co-operative Societies. Thus the Fair seems to fulfil other useful purposes beyond stimulating an interest in novel and improved agricultural methods. The organization of Co-operative Credit Societies in Chanda is making considerable headway and spontaneous applications by the people for new societies prove the growing popularity of the idea.

9. The Chanda report contains interesting notes on experiments in sugar-making and tassar silk cultivation. For the former the experiment was limited to 25 acres of cane, but even so almost the whole of the sugar and molasses had to be exported to Nagour as there was no local demand. I agree generally with the Deputy Commissioner's observations. Had the experiment aimed merely at the production of *gur* the financial results would probably have been much better.

As regards tassar silk further experiments were carried out at the tassar-rearing Farm at Arsoda. Disease was again prevalent, but the Assistant thinks that the culture of the Eri worm promises well.

10. The number of Sanads granted for improvements was 172 as compared with 145 in the preceding year. The increase was largest in Nagpur where 69 were granted as against 13 last year. Of these 39 were for sinking and deepening wells and 27 for embankments. The approaching Settlement and the better circumstances of the year are said to have stimulated the cultivators to make improvements. The Deputy Commissioner, Balaghat, remarks that Malguzars spend little on land improvements because few sites for irrigation works are available to them. In Wardha 21 Sanads were granted for wells and 25 for embankments.

11. The amount of loans paid out during the year was Rs. 76,000 as compared with Rs. 2,17,000 in the preceding year under the Agriculturists' Loans Act and Rs. 30,000 as compared with Rs. 44,000 under the Land Improvement Loans. The year being a good one there was not a great demand for taccavi. Enquiries were made about the proper application of the loans, but only 2 cases (1 in Chanda and 1 in Balaghat) of misuse came to light and the amount outstanding was recovered at once. The system of granting taccavi on joint responsibility is steadily gaining ground. The Deputy Commissioner, Bhandara, suggests that an immense amount of good would be done in his district if larger allotments were sanctioned for the improvement of tanks especially in the depressed tracts where there are many tanks in a dilapidated state, and that a portion of the funds available for irrigation may well be devoted to such loans. It is, of course, open to the Deputy Commissioner to ask for a larger Budget allotment on account of Land Improvement

Loans for tank work, but I am inclined to think that action of this sort on any large scale had better be deferred till an Irrigation section has been added to the Land Revenue Act as is proposed. The collection under Agriculturists' Loans was 73 per cent in Balaghat, 84 in Wardha and Nagpur, 97 in Chanda, and 100 in Bhandara. Those under the Land Improvement Loans varied from 92 to 98 per cent.

A sum of Rs. 458, principal and interest, was remitted in the Baihar Tahsil as the defaulters could not be traced or had become insolvent. This amount was advanced under Agricultural Loans in 1904-05 and 1905-06. Practically all the uncollected arrears under both Acts in Balaghat are of the Baihar Tahsil and have been carried over from 1907-08 owing to the damage done by the plague of caterpillars last year. A detailed enquiry is being made and proposals for the remission of Rs. 14,000 are likely to be submitted shortly. This will give Baihar a clear state, and wipe out the results of the scarcity of 1907-08.

## PART II.—LAND REVENUE COLLECTIONS.

12. The total on the roll has increased from Rs. 27,83,531 to Rs. 27,88,542. Changes in demand. The increase in Bhandara is due to the termination of abatements and in Chanda to the progressive assessment. The re-Settlement of the Baihar Pateli and Thekedari villages along with the Ryotwari villages is responsible for the increase in Balaghat. Other changes are chiefly the result of resumption of muafis and of the acquisition of lands.

13. If allowance is made for some small suspensions and remissions, land revenue, both current and arrears, was collected practically in full. Rs. 2,443, which were outstanding in Nagpur on account of the land submerged in the Ramtek Reservoir, have been remitted at the close of the year. Of the balance of Rs. 920 in Chanda, Rs. 441 have been recovered since the close of the year and the rest is due from a malguzar who is a habitual defaulter. His villages have been attached and taken under direct management. A similar case is responsible for the balance in Bhandara. The outstanding in Wardha is insignificant.

Cesses also were recovered almost in full.

14. The only concessions granted were in Nagpur and Chanda Districts. Revenue concessions. In the former district Rs. 813-8-0 on account of kharif revenue of three villages had to be suspended on account of the damage done to juar and cotton by the December hail-storm. Three-fourths of this amount was remitted subsequently. In the latter district Rs. 558-12-0 on account of suspended arrears of the 2nd kist of 1908-09, due from six villages of the Kothari Circle, were remitted as these villages had had a series of bad years.

15. In spite of the general prosperity there was practically no material variation in the number of processes issued. More use was made of notices of demand which rose from 462 to 521. Wardha showed a considerable decrease, but an increase was noticeable in Nagpur, Bhandara, and Chanda. Warrants of arrest were much the same in number, but warrants of attachment fell from 1,858 to 1,756. The highest figures are those for Bhandara which show 636 attachments ordered, 120 effected and only 2 sales. The increase from 73 to 120 in the number of attachments effected is due to Tahsildars adopting more rigorous methods and the Deputy Commissioner again emphasises the need of a provision in the Land Revenue Act authorising the levy of a penalty for wilful default. Three sales were held in Chanda, and one each in Nagpur and Wardha. The figures for Balaghat are still remarkably low, but show a slight increase over the preceding year, due to the numerous changes among the Tahsildars in Balaghat Tahsil. It was found necessary to commit two defaulters to the Civil Jail. On the whole the number of processes issued was not unreasonable considering the large amount of collections to be made.

16. The collection on account of land revenue not on the roll, which consists in the main of revenue from ryotwari villages, was most satisfactory. Out of the total demand of Rs. 60,207 on current account a sum of Rs. 59,638 was collected, leaving a balance of Rs. 569. The balance in Chanda is due from non-resident ryots in Warora Tahsil against whom steps have been taken. Of the outstanding Rs. 349 in Balaghat Rs. 148 are irrecoverable and the rest will be collected. There is an arrear balance of Rs. 243 in the same district due from a veteran Patel who has again been recommended for a free grant of the village of Chakerwahi during his life time, although a special commission of 8 annas was sanctioned in his favour. The outstandings in Nagpur and Wardha with the exception of Rs. 5 in the latter district have been proposed for collection during the next year. A few remissions of revenue were also granted owing to the absconding of certain tenants of mauza Khursapar in Nagpur and to the misappropriation of revenue by the Patel of Janala in Chanda who was sentenced to two years' imprisonment for embezzlement.

17. Under Miscellaneous Land Revenue the demand for the Division has decreased by Rs. 1,435. Receipts from mining rents and royalties in Nagpur and Bhandara show an increase of Rs. 5,587 and Rs. 3,676, respectively, so that the decrease in Balaghat of Rs. 11,919 is most marked. This is attributed by the Deputy Commissioner to the slump of 1907-08 which however affected the other mining districts equally. Apparently the Balaghat collections of 1908-09 must have been inflated by the belated collection of royalties appertaining to the preceding year. The demand was collected practically in full.

#### PART III.—LAND REVENUE SETTLEMENT.

18. All muafis have been verified with the exception of 8 in Nagpur. Final orders are awaited regarding the continuance of the muafis held by the late Mr. Naoloji Rao for his life-time, under different tenures, to his son, Yeshwant Rao Gujar. In the Chanda District two revenue-free villages were purchased by the Forest Department.

#### PART IV.—REVENUE COURT WORK

19. There is a decrease in the area transferred by private bargains, but the consideration paid indicates a keen demand for land. The decrease in the number of cases and in the area and value of the land sold in Balaghat is especially noticeable. On the other hand, there has been an increase in the area transferred by compulsory sales, but the consideration money is far less than in the preceding year. This is mainly due to the figures of the Bhandara District where 35,700 acres of land with a land revenue of Rs. 13,910 were sold for Rs. 8,585. The properties sold must have been heavily encumbered, but the Deputy Commissioner is making enquiries, the result of which will be reported. There is a considerable decrease in the number of mortgages which reflects more accurately than the figures regarding sales the favourable conditions of the year. The majority of transfers were in favour of agriculturists, but in Wardha out of 275 transfers 140 were in favour of money-lenders.

20. The number of partition cases instituted during the year was 101, as compared with 83 in the preceding year. The increase is practically confined to Bhandara where no less than 73 were instituted. The disposal of 82 cases is satisfactory. Of the 41 pending cases 11 refer to the Chichewara Shikmi Zamindari, dating from 1906. Little progress was made with these during the year, but they are now in the hands of a competent officer and it is hoped they will soon be finished. The pending file in other districts is quite moderate. Partition work in Wardha has been stayed owing to Settlement operations.

21. As observed in paragraph 19 of my review of last year the statistics generally are most noticeable in a negative sense, *i. e.*, in respect of the small extent to which the provisions of Revenue Law are used. The number of cases under Section 116 of the Land Revenue Act for recovery of arrears has decreased. Section 10 for imposing a penalty for the levy of anything in excess of rent legally payable has not been used much save in Bhandara. Here too there was a decrease, perhaps the result of penalties imposed in the year before. The number of cases for enhancement of rents under Sections 15—17, 51, 61 and 65 rose from 136 to 181, the number of applications under Section 51 for enhancing occupancy rents being 1 for the whole Division. The increase is chiefly in Balaghat, where there were also numerous cases of enhancements settled without recourse to the Courts. The Deputy Commissioner has made some strong remarks on the inefficacy of the existing rules for enhancement, and there is no doubt that the grounds for enhancement will have to be expanded and the procedure simplified if, as is most desirable, landlords are to take action towards the reasonable raising of rents between Settlements. Applications under Section 13 by landlord to enhance rent because of improvements made by him numbered only two, both of which failed. Applications of sub-tenants for ordinary rights rose slightly, but none succeeded. Cases for permission to transfer sir show a slight decrease. There were 272 cases for execution of decrees by ejectment of tenants as against 336 the preceding year.

22. It will be seen from the return that only 10 applications by ordinary tenants for the conferment of occupancy rights were made to Revenue Courts throughout the Division. As observed last year this is due not to failure of tenants to appreciate occupancy tenure in the more advanced tracts, but to the landlords and tenants arranging the matter among themselves without coming to Court. In Balaghat the right is evidently lightly esteemed.

23. Suits between landlords and tenants for arrears of rent show little variation. There was a considerable increase in Nagpur and decrease in Wardha, the change in both cases being attributed to the general prosperity of the year. It may be noted that the decrease in Wardha is practically confined to cases compromised. Sale in execution was actually effected in 3 cases in Wardha and 5 in Chanda. The number of cases transferred to a Revenue Officer under Sections 84 and 85 decreased, and sale was held in only two cases. Suits by tenants for recovery of possession generally decreased except in Nagpur. I am glad to hear that an improvement has been effected in the disposal of Tenancy suits in Nagpur.

#### PART V.—OTHER HEADS OF REVENUE BUSINESS.

24. Except in Wardha the land acquisition work has grown considerably heavier in all the districts. As usual it is heaviest in Nagpur. The progress made is generally satisfactory. The majority of the large number of unfinished cases in Nagpur are pending for payment of compensation or sanction for remission chiefly in Municipal and Public Works Department cases. There is a heavy pending file in Bhandara, but most of the cases refer to Irrigation projects involving considerable areas and the oldest case dates from 31st July 1909. In the case of the acquisition of land for the Gorewara Reservoir the orders of the Financial Commissioner for the valuation of proprietary rights of the landlord's share of compensation for tenant land acquired have been received and the compensation will shortly be paid. The Railway acquisitions in Nagpur, Bhandara and Chanda Districts for the extension of Gondia-Chanda-Brahmapuri-Nagpur extension have been completed, but fresh cases in connection with Nagpur-Chhindwara, Balaghat-Katangi and Nagpur-Shegaon doubling have been undertaken.

25. The number of cases of decrees transferred by Civil Courts to the Collector for disposal has increased by 182. This increase is shared by all districts except Chanda.

In 274 cases the claim was paid up, and in 22 sale was averted by temporary alienation. The number of proprietary shares and plots actually sold decreased by 10 while the number of absolute-occupancy holdings sold increased by 5. Institutions rose markedly in Bhandara and there has been some increase in the pending file in that district and Nagpur. Taking the Division as a whole the price realized was over 18 times the land revenue.

26. The number of cases for disposal during the year has everywhere decreased. In Nagpur decrease from 623 to 516 General Revenue Business. is mainly due to the falling-off in the number of applications for taccavi loans consequent on the return of prosperous conditions. In Nagpur and Balaghat the pending files have been appreciably decreased. In the other districts there are some not very serious increases in this respect regarding which the Deputy Commissioner's explanations may be accepted. The Deputy Commissioner, Bhandara, suggests that selected Naib-Tahsildars might be given power of disposal in certain minor Revenue cases as is the practice in Berar. The measure would save a certain amount of duplication of work and seems worth adopting in suitable cases. There is some increase in the number of cases pending over 12 months. These are mostly Collector's cases in which leases have been granted and which are shown as pending till the termination of the lease.

The total number of English letters registered as receipts and issues has decreased from 52,421 to 49,371, and the numbers of receipts and issues are less disproportionate than last year. The suggestions contained in Secretariat letter No. 590—IX-26-79, dated the 29th July 1910, regarding the curtailment of correspondence and clerical labour in District offices were given effect to in my office and all the District offices in the latter part of the year and the effect will be more apparent next year. The working of these instructions will require careful watching as it is possible to seek for economy in clerical labour and in stationery at too great an expense in other respects.

27. The Judicial work coming to the Court of Commissioner consisted of 133 appeals, 25 applications for revision, 108 applications for permission to transfer sir land and 246 recommendations for sale of land in pursuance of the Civil Court's order. Of the 133 appeals, 74 were rejected, the Lower Court's orders were reversed in 40 cases, 9 were remanded, 3 were forwarded to the Financial Commissioner for orders by Mr. Napier as they were appeals against his own orders passed as Deputy Commissioner and 6 were pending at the close of the year. Of 25 applications for revision 15 were rejected, the Lower Court's orders were reversed in 8, one was remanded for disposal afresh and one was pending.

28. The work of lambardars and mukaddams has as usual been generally satisfactory. In Wardha complaint is made of the Village officers and servants. inability of lambardars to collect rents in pattis, though they are responsible for the payment of the revenue of the whole village. Punishments of mukaddams were most frequent in Wardha and Chanda Districts. One Mukaddam in Wardha was fined for failure to repair boundary marks and in Chanda for disregarding plague rules. Kotwars generally gave satisfaction. In Nagpur and Wardha a considerable amount of assistance had to be given to Kotwars in the recovery of their dues and in four cases also to Mukaddams in Wardha. Under the recent orders action is being taken by the Deputy Commissioners to raise where possible the minimum remuneration of underpaid Kotwars. The post of Kotwal is, however, reported from several Districts to be still a good deal coveted wherever land or valuable perquisites in the shape of hides are attached to it. Remuneration from the latter source will, it is hoped, be put on a workable basis when the Land Revenue Act is revised.

29. The small Ryotwari estate in Nagpur is prosperous, but during the year Management of Government Estates, Nagpur. 6 tenants in three villages absconded and Rs. 11 on account of land revenue had to be remitted in consequence. Steps have been taken by the Deputy Commissioner to settle the relinquished holdings with others. A small programme of improvements to village wells is being carried out.

30. Proposals for the settlement of 7 ryotwari villages in Bhandara are under the consideration of the Commissioner of Settlements.

Bhandara.

31. The number of regularly settled villages was the same as last year except in Sironcha Tahsil where 3 villages were afforested and 60 transferred to Madras. Even allowing for this there has been a slight decrease of 381 acres in the occupied area due to the ejectment of non-resident ryots and relinquishments. Out of the 9 rice rule villages remaining 1 was resumed. No improvement can, however, be seen in these villages, though the lessees have fulfilled the terms of the grants—29 patch-cultivation villages were colonised during the year and large areas were allotted towards the close of the year in chaks—Durgapur, Nimbala and Barda. Accurate figures are not available, but the total is said to be about 8,000 acres. It does not appear that the system of allotting through Patels, who may hold the village free for three years, has been followed, presumably from the difficulty of finding suitable men for such patelship, but I believe that in at least a few cases such men could have been found, and the Deputy Commissioner's attention has been drawn to this point. The project of the colonization of land by Jat farmers from the Punjab has fallen through as the representatives of the Salvation Army pronounced the land to be unsuitable to their requirements.

Chanda.

Under Asola, Goreghari and other Government Irrigation tanks there is a large area of commanded forest land, proposals for the excision of which have been partially worked out. Special enquiries are being made by Mr. Ley, Assistant Commissioner on special duty, which should lead to the expeditious settlement of the question of excision and the determination of the special measures to be adopted to encourage the settlement of the tract with a good type of cultivation.

Revenue was recovered satisfactorily and it was mostly collected by Patels. Repairs to 18 tanks and 2 wells and the sinking of 3 wells were undertaken during the year under report. The staff of Special Naibs has been raised from 1 to 3 and one additional Ryotwari Revenue Inspector was also appointed. The two Naibs have passed through a course of tank work at Baihar. The system of maintaining the accounts by Patwaris has proved a success, but the Deputy Commissioner suggests that the extra work entailed may necessitate a readjustment of the halkabandi, where the Patwari is already heavily worked. The Deputy Commissioner mentions favourably the work of Mr. Balaji Madho, the senior Ryotwari Naib-Tahsildar.

32. One new village was established at Bichwa below the new Borikhera tank in the Balaghat Tahsil. The Deputy Commissioner is preparing the final report on the re-settlement of the

Balaghat.

ryotwari estate and so details of its effect are not given here. It is, however, noteworthy that there is an increase in the number of holdings of 389 and in their revenue (without the revised enhancements) of Rs 909. There is a marked increase of 30,000 acres under rice in the Baihar Tahsil, chiefly in the ryotwari estate accompanied by a fall of 14,000 acres under minor millets. This gain is no doubt mainly due to irrigation. Preliminary enquiries for the establishment of a commercial cattle breeding at Raigarh Farm are being carried out.

33. The B. volumes of the District Gazetteers have been brought up to date in all the districts of the Division.

34. Revenue Officers generally appear to have done a sufficient amount of touring work, though in Wardha and Balaghat this was restricted by changes in the staff of Assistants. Tahsils

Tours and inspections.

have been duly inspected by the Deputy Commissioners or their Sub-Divisional Officers except in Wardha where none of the tahsils appear to have been inspected by the Sub-Divisional Officers and the Hinganghat Tahsil was not inspected by the Deputy Commissioner. I held charge of the Division up to 10th March 1910 and for the rest of the year Mr. Napier was in charge. The District Offices of Bhandara, Wardha and Balaghat (that of Chanda after the close of the year) were inspected as well as most of the tahsils.

35. All the Deputy Commissioners have done good work. Mr. Dewar's  
 Notice of officers. zeal and energy in the administration of Balaghat have  
 been again conspicuous and Mr. Hullah seems to have  
 been very successful in discharging the onerous duties of Nagpur. I was absent  
 on leave for a greater part of the period under report, but I agree generally in  
 the comments made in the several reports regarding the work of the officers  
 mentioned therein.

J. WALKER,

*Commissioner,*

*Nagpur Division.*

# REPORT ON THE LAND REVENUE ADMINISTRATION OF THE CHHATTISGARH DIVISION FOR THE YEAR 1909-10.

## PART I.—AGRICULTURAL CONDITIONS OF THE YEAR.

1. The monsoon began early but was fitful later. The deficiency in August was most marked in the Bilaspur District and that in September, though general throughout the Division, did most harm in Mungeli, Janjgir, and a part of Sanjari; in fact Janjgir received only 6 inches and Mungeli 8 inches after August 1st as against a normal of 20 inches. Good rain about Christmas materially improved the spring crops.

Character of the season.

Outturn of crops.

2. In American notation the outturn of the chief crops was as follows :—

|                   | Raipur. | Bilaspur. | Drug. |
|-------------------|---------|-----------|-------|
| Rice transplanted | ... 120 |           | { 120 |
| Rice broadcasted  | ... 90  | 75        | { 85  |
| Wheat             | ... 120 | 100       | 113   |
| Linseed           | ... 100 | 85        | 97    |
| Kodo              | ... 100 | 90        | 95    |

Damage by grasshoppers is reported from Mungeli and Janjgir.

3. A further increase is found in the occupied area of 18,000 acres in Khalsa tracts chiefly in Raipur and Drug and 45,000 acres in Zamindaris shared about equally by all three districts in proportion to their size. I am confident that to the completion of Settlement operations much of the Khalsa increase is due. I was much struck by the increase in cultivation when touring through the Dhamtari Tahsil. In the Zamindaris of course there is enormous scope for fresh cultivation, and it is satisfactory to note that in Drug the increase has been largest in those Estates under the Court of Wards.

Occupied area.

4. The changes of sir and khudkasht in Zamindaris call for no remark but in the Khalsa portion sir increased by 6,000 acres in Bilaspur largely at the expense of khudkasht owing to Settlement operations, while in Raipur and Drug a decrease of 2,300 acres in sir (due to transfers) is counterbalanced by an increase of 17,000 acres of khudkasht. The changes in malik-makbuza right are due to Settlement.

Area held by the several classes of landlords and tenants.

In regard to tenants there is the usual small decrease in land held in absolute-occupancy right. As regards land held in occupancy right the only noticeable point is the decrease of some 8,000 acres in the Zamindaris transferred from Chanda to Drug. Formerly by virtue of being in the Chanda District every tenant became an occupancy tenant at once; but now, on the authority of Commissioner of Settlements' letter No. 2934, dated the 17th August 1908, new tenants are recorded in ordinary right. I have not seen this correspondence.

5. Figures in regard to rent collection are again unavailable in Bilaspur, but were good in Raipur (91 per cent in Khalsa and 92 per cent in Zamindaris) and in Drug (92 per cent in Khalsa and nearly 99 per cent in Zamindaris) in regard to the current year's rent, while a large sum was also collected on the arrear demand.

Rental collections.

6. The condition of the people was good: prices remained fairly high till the favourable monsoon gave promise of a bumper crop, but there was a considerable demand for labour. The removal of the bar of the *Singhasht* led to a large number of marriages and probably added to the happiness and to the indebtedness of the people, but this year's crops should go far to pay off the debts incurred. Cholera during the rains is reported from Bilaspur. The year seems to have been generally rather more unhealthy than the last as evidenced by the mortality statistics recorded.

Condition of the agricultural classes.

7. The great efforts of the Agricultural Department seem to be bearing fruit. Transplantation of rice seems to gain ground though statistics have not been given by all Deputy Commissioners. I notice in camp that many malguzars are anxious to explain how much they have done in this matter and how profitable it is, but they are handicapped by want of labourers and the lakhabhata system. The more I see of Chhattisgarh the more convinced I become that for the salvation of the country a short and simple Act allowing a Government officer to rearrange holdings into more compact blocks is necessary and the sentiment of the best men would be in favour of such a step.

Rupees 1,639 was paid for irrigation of wheat from Government tanks and as regards the irrigation of rice there is now no difficulty. I got more than one application in my recent tour for the extension of channels to fresh land.

Considerable interest has been taken in cattle-breeding in Raipur and especially in Drug where many malguzars have started small cattle-breeding farms in which the Veterinary Department has given assistance and advice. The experiments in cutting *sukla* grass for fodder before the spears grow were somewhat indeterminate in the year under report, but give better promise in the current year.

8. In Raipur 30 Sanads were granted for improvements, in Bilaspur 9 and in Drug 2 as against 15, 13 and 10 last year. The numbers call for no special remark.

9. The relations between malguzars and tenants are reported to be good on the whole as usual. In three cases malguzars were condemned to a penalty for levying sums in excess of the rent. There are still several harsh and inconsiderate landlords and some feuds of longstanding in which it is hard to say who is most to blame. One malguzar was murdered in the confines of his village and, though circumstances point to the fact that his murderers must have been recognised, he was so universally hated, even by his own servants, that no evidence is forthcoming.

10. The attitude of the people towards Government and Government measures continues to be most cordial and satisfactory. They do not always understand but, even if they do not, they seem to feel that Government means well and, as the results as in the case of irrigation become manifest, they are loud in their expressions of thankfulness. The Deputy Commissioner, Bilaspur, specially mentions the success and popularity of the introduction of the transfusion operation for cholera where delay, which seemed unnecessarily prolonged, nearly led to an assault.

11. With better times the amount of agricultural loans given in the Division has fallen from Rs. 1,39,017 to Rs. 82,061. Special liberality was shown in the Sanjari tract where crops had been especially bad and near Sheori Narayan where houses and crops had been damaged by an exceptionally high flood Rs. 82,891, principal, and Rs. 5,051, interest, was collected under this head. Raipur shows a clean sheet and the amounts not collected in the other districts were inconsiderable.

12. The amount of loans advanced for Land Improvements rose from Rs. 6,665 to Rs. 17,962. Great care has been taken to see that the loans were properly applied and in four cases of misuse in Bilaspur the loans were recovered at once. Collections amounted to Rs. 39,768 on account of principal and Rs. 16,097 on account of interest and were made in full in Raipur and practically in full in Bilaspur and Drug.

## PART II.—LAND REVENUE COLLECTION.

13. Rupees 97,592 has been added to the Land Revenue on the roll for collection. Revision of Settlement has added Rs. 54,556 in Raipur, Rs. 30,238 (Khalsa) and Rs. 2,499

(Zamindari) in Bilaspur and Rs. 4,321 in Drug. In addition Rs. 6,100 was added in Raipur owing to progressive assessments in the Zamindaris and Rs. 655 owing to the resumption of muafis in Bilaspur.

Against the increase must be set a reduction due to resettlement of Rs. 727 in Drug and one of Rs. 56 due to the acquisition of some plots on behalf of Government. The current Land Revenue on the rolls for the Division stood thus at Rs. 16,20,147.

14. In addition to the current demand there was an arrear demand of Rs. 1,50,575 on account of Land Revenue on the roll, Collection of Land Revenue. Rs. 3,916 on account of Land Revenue not on the roll and of Rs. 27,806 on account of Miscellaneous Land Revenue, of which the greater part is made up of irrigation receipts in Drug. Of the arrear demand Rs. 651 was remitted and Rs. 524 was further suspended in Drug and orders on proposals to remit Rs. 1,070 in Bilaspur are awaited : Rs. 12,364 still remain for collection in Bilaspur.

Of the current demand the whole was collected except Rs. 1,160 suspended in Drug and Rs. 198 in the same district due from Naoloji Rao's estate under the Nagpur Court of Wards which was credited on the 1st October. Of the remaining revenue the whole was collected except Rs. 26 of Miscellaneous Revenue in Raipur.

Cesses were collected in full with the exception of Rs. 11 suspended in Drug.

The large amount of Rs. 2,18,500 was credited by means of Revenue money orders : this procedure seems most popular in Drug.

15. Notices of demand numbered 103, warrants of attachment 745, and warrants of arrest 67: only 73 warrants of attachment had to be executed, and in one case sale was ordered: in no case was an arrested defaulter sent to Jail. Coercive process.

Coercive processes were considerably more numerous in the Raipur District than elsewhere, but I consider that a great mistake is often made in judging the efficiency of a Tahsildar's work by the fewness of processes issued and by the fact that all the revenue is collected before the end of the year. The great criterion in my opinion is the promptness of collection after due date, a matter not referred to in the reports and often, it seems to me, overlooked. The latest payers are invariably either the men who misapply collections from their tenants to the payment of personal debts or the rich men who retain the money as long as possible in order to earn interest on it, and neither class deserves consideration.

### PART III.—LAND REVENUE SETTLEMENTS.

16. There were no resumptions of revenue-free grants or escheats of malik-makbuza holdings during the year, but the case of the muafis held by the late Naoloji Rao Gujar is still pending orders from Government. Lapses and resumptions.

### PART IV.—REVENUE COURT WORK.

17. Transfers of proprietary right again decreased in number: 198 mahals and 79 plots being transferred by private sale and 43 mahals and 2 plots by order of Court against 280, 140, 43 and 2 in the previous year. In private sale 44 times the Land Revenue was obtained in Raipur and 47 times in Bilaspur against 16 times and 11 times the Land Revenue where the sales were compulsory. The difference is striking and the Deputy Commissioner, Raipur, suggests that it is due to the deterioration of villages under impoverished owners, but I think that the cause is more probably the fact that in enforced sales there are often mortgage liens still existing, known though not always declared, while the bidders are only speculators and not so keen on getting the particular villages as in the case of private negotiations. Transfer of proprietary right.

Figures given for Bilaspur and Drug show that the greater number of sales were made to agriculturists:—

|          | Agriculturists. |                    | Money-lenders. |                    |
|----------|-----------------|--------------------|----------------|--------------------|
|          | Voluntary.      | By order of Court. | Voluntary.     | By order of Court. |
| Bilaspur | 80 per cent.    | 45 per cent.       | 20 per cent.   | 55 per cent.       |
| Drug     | 87 per cent.    |                    | 13 per cent.   |                    |

The Raipur report again gives no figures.

18. Settlement operations have still formed a bar to cases of imperfect partition in Raipur, Bilaspur, and a part of Drug, but four cases were instituted and are pending in Raipur, one was instituted but struck off in default in Bilaspur. Of the pending file of 34 cases in Drug, augmented by 10 institutions, 27 were struck off in default or on account of Settlement operations and 7 have been completely disposed of, while in 8 cases possession alone remains to be given. In one of the two remaining cases the Sub-Divisional Officer's report has been received.

19. The enquiries into claims by thekedars for protection largely decreased in Raipur, but 106 cases were decided by the Zamindari Settlement Officer, Bilaspur, in favour of the thekedars and occupancy rights in home-farm were recommended in two cases from Drug.

Applications by lambardars for assistance in recovering revenue were more numerous but were largely unsuccessful.

Applications to deposit rent were most numerous in Drug and Raipur, but as a matter of fact come from just a few villages where feuds exist between the landlords and the tenants.

Penalties were inflicted in three cases upon landlords for recovering amounts in excess of the rents legally due, but more applications were unsuccessful than successful.

Applications for permission to transfer sir land have decreased in number, being surprisingly few in Bilaspur.

20. Suits for arrears of rent were rather more numerous except in Raipur, and plaintiffs were successful in 567 cases against 544 in the previous year, but there is nothing to call for remark. The number is very far below the average of other Divisions.

#### PART V.—OTHER HEADS OF REVENUE ADMINISTRATION.

21. Land acquisition work is well up to date. 3 cases are pending in Raipur, of which the oldest, begun on 28th November 1909, was disposed of just after the close of the year: 3 cases are pending in Bilaspur, the oldest of which, dating from 2nd April 1910, is awaiting a report from the Settlement Officer: in Drug 6 cases are shown, but of these 3 are pending as they relate to temporary acquisition merely; of the remaining 3 the oldest dates from 25th June 1910.

22. Only 97 decrees were sent by Civil Courts for disposal, to which 60 pending cases have to be added. In 102 cases disposed of sale was effected in regard to 5 villages or shares and 5 absolute-occupancy holdings, while in 4 cases sale was averted by temporary alienations and in 53 cases the claim was paid up.

23. The number of Revenue cases for disposal decreased in all three districts from 5,741 to 4,533 in Raipur, from 3,119 to 3,061 in Bilaspur, and from 3,731 to 3,540 in Drug. The pending files have also decreased notably in Drug from 228 to 136: the number of long pending cases is small in all districts.

24. As usual there is not much to remark about village officers. The Deputy Commissioner, Bilaspur, considers that mukaddams and kotwars have not the same feeling of responsibility here as in the north of the Province. Fourteen mukaddams and 71 kotwars were fined under the Land Revenue Act: two mukaddams and five kotwars were criminally prosecuted and four kotwars were otherwise dismissed. Applications for the recovery of remuneration are somewhat numerous.

25. Apparently nothing has been done towards the improvement of the 25 ryotwari villages in the Division though projects are under consideration in regard to Ekgharia in Bilaspur and Karamunda and Balda Kachar in Raipur. The last project has been under discussion since about 1906.

26. The statistics contained in the B Volumes of the District Gazetteers have been brought up to date.

27. The amount of touring done by different classes of officers is shown below :—

|                      |     |          |     | Days. |
|----------------------|-----|----------|-----|-------|
| Deputy Commissioners | ... | Raipur   | ... | 118   |
|                      |     | Bilaspur | ... | 103   |
|                      |     | Drug     | ... | 108   |
| Assistants           | ... | Raipur   | ... | 505   |
|                      |     | Bilaspur | ... | 581   |
|                      |     | Drug     | ... | 309   |

The greatest amount of touring was done by Messrs. K. Anand Rao Sharma (194 days), Ganpat Rao Lothe (157 days) and Izzudin Ahmad (147 days) among the Assistants and Messrs. G. V. Kane (153 days) and Majid Ali (143 days) among the Tahsildars.

Both the touring done and the inspections made seem adequate.

Mr. F. A. F. Phillips held charge of the Chhattisgarh Division from the 1st October 1909 till the 18th January 1910 when he was relieved by Mr. S. M. Chitnavis, who held charge till the end of the year. Mr. Phillips spent 24 days on tour and Mr. Chitnavis 48 days. 131 Revenue appeals and other Revenue Miscellaneous petitions were disposed during the year and 3 of the 10 Tahsils and 1 of the 3 District offices were inspected by them.

28. Having but lately taken charge of the Division I can offer no remarks of value in regard to the work of the officers, serving in the Division and, for the same reason, Mr. Ley, Deputy Commissioner of Raipur, has made none in regard to those serving in that district. The Deputy Commissioners, Bilaspur and Drug, speak well of all their Sub-Divisional Officers and mention specially Messrs. G. V. Kane, Abdul Hamid and Laxmi Pershad among their Tahsildars and also Naib-Tahsildar Abdul Ghaffar Khan.

A. B. NAPIER,

*Offg. Commissioner,*

*Chhattisgarh Division.*

5th January 1911.

## INDEX TO THE STATISTICAL TABLES.

Similarly, Rs. 50, on account of the recovery of the principal of Land Improvement Loans, were included in the collection of interest. Necessary adjustments were effected in 1909-10. Hence the decrease of Rs. 16. |

|        | 422   | 31                                | 8           | 5            | 19             | 2,154                                            | 2,681     | (a) One village was wrongly counted and added last year by the Settlement Department, i. e., the number of villages ought to have been 2,044 instead of 2,045. The decrease of 26 villages as returned in column 5 of the Statement under report is due to the restoration of 46 villages to the Forest Department and the constitution of 18 villages from land excised from Government Forests and of 4 more formed as parganas.                     |                      |

## CENTRAL PROVINCES ADMINISTRATION.

---

### Revenue and Scarcity Department.

---

*Nagpur, the 26th February 1913.*

READ—

Report by the Financial Commissioner on the Land Revenue Administration of the Central Provinces during the year 1911-12.

Report on Land Records and Settlements by the Commissioner of Settlements and Director of Land Records for the year 1911-12.

---

### RESOLUTION.

---

The year 1911-12, though not so propitious as the three seasons of unusual prosperity which preceded it, cannot be said to have been unfavourable. The rice crop was above the average and the cotton crop was returned as normal, two factors contributing materially to mitigate what might otherwise have been the serious effect of the damage caused to the rabi harvest by the hailstorms in the early part of the year, more particularly in the northern districts of Mandla, Seoni and Jubbu'pore, where the injury done was widespread and severe.

2. But if the character of the seasons was not so wholly favourable as that of its predecessors, the same remark cannot be made of the condition of the agricultural community. The progress of the last few years has been well maintained and the increase in general prosperity most marked. The standard of comfort is everywhere rising, and all classes alike—malguzar, tenant and labourer—have shared in the advance.

3. Though it is true that proprietors have lost a portion of their *sir* land, this loss has been more than compensated for by the high sub-rents which they are able to command and by the extension of their cultivation of *khudkash*. A sum of over four lakhs has been added to rental collections, mainly as the result of the completion of Settlement operations in various districts, and the land revenue payable has been correspondingly increased by about two lakhs. But, in spite of this large addition to payments, the arrears of revenue of the previous year have been recovered practically in full, and of the current demand of land revenue on the roll all but an infinitesimal fraction, excluding of course the amounts suspended or remitted, has been collected with even greater ease than in the previous year. The area occupied for cultivation has risen by 12,981 acres, almost the whole of the increase being, as the Financial Commissioner has remarked, in the areas held by ordinary and occupancy tenants. The rental enhancements alluded to above have been paid without complaint, and collections have been everywhere satisfactory. In the Chhattisgarh and Jubbulpore Divisions instalments of taccavi loans have been recovered in full, while in the other Divisions it has been found necessary to remit almost all the arrears that were outstanding. But if the progress of proprietor and tenant has been marked, it is the labourer whose prosperity is most in evidence. Never has the labourer enjoyed so commanding a position; agricultural labour, in the Central Provinces as well as in Berar, is at a premium, and almost every District Report testifies to the problem that is rapidly arising as a necessary result of the present situation.

4. The general prevalence of what can only be described as signal prosperity might have been expected to result in the lightening of the task of District Administration. But the contrary appears to be the case. It is true that the number of cases instituted has fallen from 63,203 to 60,381, and that in various particulars there has been a decrease of work in connection with revenue collection. There has been less necessity for the issue of coercive processes, a smaller demand for taccavi loans, the most striking example of which, in the Balaghat Tahsil, is, as the Chief Commissioner notices with pleasure, attributed as a direct result of the Co-operative movement. Suits for arrears of revenue and for ejectment have naturally been fewer, attachments and sale have again decreased in number, and only one defaulter was imprisoned in the Civil Jail.

5. On the other hand, increased activity is demanded from District Officers in other directions, the chief cause for which is to be found in the changing conditions of the times. The gospel of self-help has given birth to a spirit of self-reliance and independence. Patriarchal conditions are giving place to contractual relations. There are signs that the "commercial" character of the relations between landlord and tenant, noticed in last year's Resolution, has intensified. The result is naturally more particularly apparent in those departments of rural economy in the regulation of which custom plays the largest part, *vis.*, the management of the village waste and the rights and duties of village servants. And it is becoming increasingly important to define the rights and liabilities of the classes concerned with sufficient precision to minimise the risk of disputes. Again, lambardars and shareholders are becoming more apt to quarrel over the division of profits, and there is an increasing tendency to bring these matters to the Courts. This tendency, which is the outcome of growing knowledge, is inevitable, but there is a danger that the new spirit of independence is tending to find its expression in an ever-increasing resort to litigation, to which this country is so prone.

Sir Benjamin Robertson recognizes that the situation is a difficult one; it requires careful watching and tactful handling and calls more than ever, if development is to proceed on sane and sound lines, for the exhibition of those qualities in District Officers, to which allusion was made in last year's Resolution, and which, if they can be summed up in any one word, may perhaps be expressed best by the term personality.

6. The increasing tendency to refer to the Courts matters of everyday life make it all the more essential for all Revenue Officers to apply themselves to dealing with Revenue business with method and despatch. There are signs that there is room for general improvement in this respect, more especially in the Nagpur Division, where the percentage of cases of more than three months' duration is extremely high. The number of partition cases pending in Chhattisgarh is also conspicuous. The remarks of the Commissioner, Chhattisgarh Division, quoted by the Financial Commissioner in paragraph 28 of the Report, should be taken to heart, and the Chief Commissioner hopes that Deputy Commissioners will apply themselves to the task of seeing that the Revenue business of their charges is promptly and methodically dealt with.

7. The Chief Commissioner has read with pleasure the accounts of Settlement operations during the year, on the results of which the Settlement Department is to be congratulated. With no less than ten settlements in progress there has been an enormous quantity of work to deal with, but now that operations have been completed in six districts and will soon be finished in a seventh, the task of the Commissioner of Settlements should be considerably lightened. All the Settlement Officers have done well, and the revised rents and revenues announced during the year are reported to have been everywhere cheerfully accepted. The reports again give examples of the unwarranted and shortsighted policy of intentional retardation of development and concealment, to which special emphasis is given by the large extension of cultivation which has taken place in the districts of Jubbulpore and Mandla, where settlement has just been completed.

8. Not unconnected with this concealment, and to a certain extent animated by the same spirit, is the system of substituting *nazaranas* for rental enhancements, which several of the District Reports show to be becoming increasingly common. But in justice to malguzars it must be admitted that this is to a large extent due to the impossibility under the present system of securing adequate enhancements of rent. The Deputy Commissioner, Balaghat, reports that, if the rules were more elastic, just applications for rent enhancement would be received in thousands. The Chief Commissioner agrees that greater elasticity is desirable, not only from the point of view of the malguzar but also of Government, whom it would do much to relieve from the difficulty, at present invariably experienced, of imposing a fair enhancement on account of the "*per saltum*" consideration. To strengthen the hands of malguzars in this direction would be also to strengthen Government at the time of revision of settlement. The question will receive full consideration in connection with the contemplated revision of the present Tenancy Act.

9. The report on the Land Records Department is not quite so satisfactory. The Director has brought into prominence the main defect in the work of Superintendents of Land Records, the value of which is suspected in many cases to be more apparent than real. The Superintendent of Land Records, it must be remembered, is first of all an Inspector of Revenue Inspectors, and if he fails in supervising the work of these officials he fails in his primary duty. The pay and prospects of the Land Records staff have been much improved during the past three years, and an improved standard of work is now to be expected. Moreover, the accuracy of the Land Records returns and statistics is becoming yearly more and more important both commercially and otherwise, and now that it is proposed to give an increased evidential value to the annual papers, there is the more need for close supervision. The Chief Commissioner looks to Deputy Commissioners to give the matter the attention it deserves.

10. The Chief Commissioner has read with interest the Divisional and District Reports. He desires to express his acknowledgments to the Financial Commissioner and to Commissioners, as well as to Deputy Commissioners and other officers whose names have been brought to his notice.

---

ORDER.—Ordered that a copy of this Resolution and its annexures be submitted to the Government of India in the Department of Revenue and Agriculture; that copies be forwarded to all Commissioners and Deputy Commissioners, the Commissioner of Settlements and Director of Land Records and Settlement Officers; and that the Resolution be published in the Supplement to the *Central Provinces Gazette*.

R. C. H. MOSS KING,

*Second Secretary to the Chief Commissioner,*

*Central Provinces.*

## TABLE OF CONTENTS.

*Report by the Financial Commissioner on the Land Revenue Administration of  
the Central Provinces during the year 1911-12.*

| Serial<br>No. | Subject.                                                                                                                                                    | No. of<br>paragraph<br>in the<br>Report. |

| 10            | Ryotwari Estates ...                                                                                                                                        | 14                                       |
| 11            | Maufi resumption ...                                                                                                                                        | 15                                       |
| 12            | Land records ...                                                                                                                                            | 16                                       |
| 13            | Settlements ...                                                                                                                                             | 17                                       |
| 14            | Mutations and alienation of land ...                                                                                                                        | 18 & 19                                  |
| 15            | Partitions ...                                                                                                                                              | 20                                       |
| 16            | Land acquisition ...                                                                                                                                        | 21                                       |
| 17            | Cases under selected Sections of the Land Revenue and Tenancy Acts ...                                                                                      | 22                                       |
| 18            | Civil litigations between landlords and tenants ...                                                                                                         | 23                                       |
| 19            | Collectors' cases ...                                                                                                                                       | 24                                       |
| 20            | Lambardars ...                                                                                                                                              | 25                                       |
| 21            | Mukaddams ...                                                                                                                                               | 26                                       |
| 22            | Kotwars ...                                                                                                                                                 | 27                                       |
| 23            | General revenue business ...                                                                                                                                | 28—31                                    |
| 24            | Tours and Inspections ...                                                                                                                                   | 32                                       |
| 25            | Appeals, &c., to the Financial Commissioner ...                                                                                                             | 33                                       |
| 26            | Notice of officers ...                                                                                                                                      | 34                                       |

of Narsinghpur and Chhindwara both notice the growing tendency to depend for increased profits rather on *nazarana* than on rent enhancement, and this is a feature which now looms large in every Settlement Report that comes up, the sums ascertained to have been paid as *nazarana* frequently amounting to several years' revenue of the village.

5. The statistics of rental collection are in some cases not available owing to the interruption caused by settlement operations, and in some cases they are obscured by suspensions, but so far as they go they show that the collections on current and arrear account together generally amount to very nearly the full annual demand.

6. Notwithstanding the local losses from hail-storms and rust, and in spite of a good deal of plague and cholera and severe outbreaks of cattle disease in several districts, Mandla and Bhandara in particular, the year is generally described in the reports as a prosperous one. In Seoni indeed it is said that, but for the misfortune to the *rabi*, the year would have been one of "unexampled prosperity," and in Narsinghpur that prosperity is reflected by all statistics except those of crop outturns. In Wardha the good cotton crop, with high prices, enabled the tenantry to pay off a considerable amount of debt. The Deputy Commissioner of Bilaspur writes that there is no doubt that the standard of comfort is rising, and to any one revisiting Chhattisgarh villages, as I am now doing, after an interval of 20 years, this fact is very apparent. The prosperity of the last few years has affected all classes of the village community, but it is probable that the tenants have benefited in a greater degree than the *malguzars*, and it is certain that the labourers have gained more than either. The reports are full of references to the great and increasing difficulty of obtaining sufficient labour for the necessary work of the farm. Thus, in Betul it is said that no labourer will take less than four annas even in the most backward parts of the district, in Hoshangabad five annas and six annas were common rates during the harvest, and in Wardha eight to ten annas had to be paid for weeding. All the signs of the times point to still further rises in the wage-rate and keener competition for labourers; the labour-saving appliances that have as yet been introduced, even were their popularity to spread at a hundred times its present speed, could do but little to solve the problem, which, as pointed out by the Deputy Commissioner of Narsinghpur, will need careful consideration by Settlement Officers.

7. While most of the reporting officers are still able to say that the relations between landlords and tenants are generally and on the whole satisfactory, there is much in the reports to support the view taken in paragraph 5 of the Resolution on last year's reports that the development of the country is inducing a more commercial relationship between landlord and tenant. The Deputy Commissioner of Seoni notices an increase of disputes over questions of *nistar*, grazing, and rights of way, and a growing tendency to refer such disputes to the Revenue Courts, and the Deputy Commissioner of Bilaspur finds relations becoming more strained. In Chhindwara the *malguzars* are insisting on rights, which they are able to enforce in the Civil Courts, in the matter of grazing fees for "non-agricultural" cattle, in which, it may be noted, they are but following the lead of Government, though somewhat improving upon the example. Generally it may be said that disputes over matters of village management, especially in the case of absentee landlords, are growing more frequent, but that this is the result rather of increasing knowledge and self-assertion on the part of the tenants than of encroachments on the part of the landlords.

8. If the relations of tenants with landlords are not always what they might be, the attitude of the agricultural community generally towards Government and Government measures has been during the year under report entirely satisfactory. Nearly every report bears witness to the profound impression made on the popular imagination of the visit of their Imperial Majesties, and the extraordinary outburst of loyalty

which was then evoked has left the people readier to believe in the good intentions of His Majesty's Government. The Deputy Commissioner of Wardha notices "a growing desire for the advice of Government Officers and confidence in their good intentions." The changes in the grazing rules which were introduced during the year seem to have produced very little grumbling. Opposition to plague operations has almost completely died out; the only reference to it this year relates to the "persecution" of a suspected Veterinary Inspector in Damoh. The Agricultural and Veterinary Departments find their paths getting steadily smoother and are not able to keep pace with the demands for their assistance. The Divisional Agricultural Conferences held during the year were well attended and almost every Deputy Commissioner has to report continued progress or a promising beginning in the matter of Co-operative Credit Societies. Great progress was made with the introduction into Chhattisgarh of the transplantation of rice, the area transplanted under the guidance of the Agricultural Department amounting to 15,000 acres. In Chanda and Bhandara the progress in adopting agricultural improvements is said to have been disappointingly slow, and in the Jubbulpore Division irrigation is not yet making much headway; in Damoh, however, water was taken for the first time in the year under report.

9. The Commissioner of Chhattisgarh draws attention to what he considers the main obstacle in the way of agricultural development in Chhattisgarh, which is—

"the infinitesimally divided and scattered holdings, which are a legacy from the days of annual field distribution among the members of the village community. The adoption of irrigation and the spread of the practice of transplanting rice have brought, and must inevitably bring, more and more to the front the urgent need for the re-formation of holdings; what has stood in the way in the past and what still stands in the way is the legal difficulty about rights in exchanged plots of land, but that difficulty ought with the passing of a new Tenancy Act to disappear. There can be no question that when the country is freed from the disastrous legacy of *lakhabata* very great impetus will be given to agricultural improvement; indeed, there is at present for Chhattisgarh no task of greater administrative importance than that of effecting the consolidation of holdings."

It was Mr. Laurie who raised this question in 1905, when some experimental "Chakbandi" was carried out by the Settlement Officers, but the difficulties disclosed were then thought to be too great. He now returns to the charge under more hopeful circumstances. I entirely agree with him as to the urgent necessity for this reform, which is essential both for the proper development of irrigation and for the general adoption of higher methods of cultivation, and which will bring with it the minor but very substantial advantage of a great simplification of land records. The subject has been referred to the local officers for further enquiry, and a general report is due in May; I believe that this report will show that there is a strong demand for the reform, that it is one that will never be carried out except on the initiative of Government, and that though involving heavy and laborious work it is perfectly practicable.

10. The total number of *sanads* for land improvements issued during the year was 278, of which no less than 91 were granted in the Nagpur district. This is said to be the result of settlement operations, to which also is attributed a directly opposite result in Nimar. The most favourable time, from the point of view of exemption from assessment, for making an improvement is immediately after settlement, but probably settlement brings to light many cases of small improvements which would otherwise escape notice. It is said that the practice of embanking wheat fields, introduced a few years ago in ryotwari villages in Mandla, is now in considerable favour among malguzars, but only six *sanads* were granted for it.

11. Collection of the demands due under the Loans Acts amounted to

|                     |                                                                                               |
|---------------------|-----------------------------------------------------------------------------------------------|
| Agricultural loans. | 95 per cent in the case of Agriculturists and<br>96 per cent, in the case of Land Improvement |
|---------------------|-----------------------------------------------------------------------------------------------|

loans. In the Jubbulpore and Chhatisgarh Divisions there were practically no arrears under either Act, and elsewhere the small amounts outstanding have for the most part been remitted since the close of the year. The Agriculturists' loans were mostly distributed in villages which suffered from the February hail-storms. Cases are noted in the Hoshangabad and Bhandara reports where money advanced for land improvement loans was misapplied, and immediate recovery was ordered, but such cases are quite exceptional. The most striking fact reported in this connection is the practical disappearance of *takari* in the Balaghat tahsil, where in former years very large sums were issued annually and this year one loan of Rs. 20 was taken for the purchase of a single bullock. This is attributed, among other causes, to the rapid extension of the business of Co-operative Credit Societies. Possibly, the fall in the Jubbulpore district may be attributed in part to the same cause, which it is to be hoped may soon become general in its operation.

12. The total demand of Land Revenue on the roll rose from Rs. 93,22,621 on the 1st October 1911 to Rs. 95,45,911 on the 1st October 1912. Nearly the whole of this came from revisions of settlement in Damoh, Jubbulpore, Wardha, Drug, and Bilaspur, the remainder being due to large muafi resumptions in Nagpur. The arrears outstanding at the beginning of the year amounted to Rs. 8,882. Of this, a balance of Rs. 185 remained at the end of the year under report but has since been collected with the exception of an item of Rs. 43 in Drug due from a habitual defaulter whose village has since had to be sold. Of the demand of the year Rs. 50,455 were remitted, mainly on account of hail-storms, and Rs. 2,73,641 suspended, the greater part of it in the Jubbulpore, Seoni, and Mandla districts, where the combined attacks of rust and hail caused damage which was perhaps rather over-estimated at the time. The unsuspended balance remaining uncollected at the end of the year was only Rs. 262,—Rs. 80 in Jubbulpore, Rs. 19 in Hoshangabad and Rs. 163 in Drug, the latter sum due from the defaulter referred to above. Under "Land Revenue not on the roll" which consists mainly of ryotwari revenue there was a balance of Rs. 4,390, of which the greater part is under suspension. Under "Miscellaneous Revenue" there was a balance of Rs. 56,986, nearly the whole of which is on account of the claim against the Mohpani Colliery referred to last year, which is still under the consideration of the Government of India. Mining receipts increased in Nagpur and Bhandara, but fell considerably in Balaghat.

13. The revenue was collected with great ease. Statement G shows that under all heads the coercive processes issued were fewer than in the previous year. In only five districts were any sales of moveable property actually effected, and in only one was it necessary to confine a defaulter in the Civil Jail.

14. In the six main ryotwari districts, Mandla, Seoni, Nimar, Betul, Chanda, Balaghat, there was an increase in occupied area of about 20,000 acres, by far the greater part of it being in Nimar and Mandla. The total revenue has risen from Rs. 3,27,392 to Rs. 3,39,283 which falls at the average rate of  $5\frac{1}{2}$  annas on the total area, which is nearly a million acres. In Nimar seven villages, four in Burhanpur and three in Khandwa, were colonized by immigrants from other districts; in Mandla the increase is apparently only the result of normal growth, but it is possible that some slight check to the immigration habits of the Gonds has already resulted from the improvement of the ryotwari land by field embankment. The extension of occupation in Balaghat, though slight, is satisfactory after a re-settlement at which the large enhancement of revenue caused some grumbling. In Nimar it is said that subletting and non-residence are steadily decreasing; Mr. Leftwich, who did much to purge the Nimar villages of non-resident speculators, is conducting a similar campaign in Chanda, which partly accounts for the small increase in occupation in that district. It appears, however, that the sanguine hopes that were expressed last year of early and successful colonization of the large irrigated areas in Chanda are not likely to be realised just yet, and, desirable as it is to get these lands occupied quickly and to see the irrigation works bringing in some return, it is, as Mr. Leftwich says, much more important

that the colonists should be *bond fide* cultivators of the right stamp. Apart from these Chanda villages there still remain some 50,000 acres of ryotwari land available for occupation, of which the bulk is in Mandla, where colonization is likely to be a slow process, and in Nimar, where the unoccupied land is of the poorest description.

The reports show that steady progress has been made with the expenditure of the allotments for improvement of ryotwari villages. In Mandla the Rs. 11,000 allotted was fully utilised in the construction of field embankments and stone dykes for the prevention of erosion and in nistar wells. Of these latter, 107 have been constructed in the past eight years, and most of them are efficient and useful. In the same period 79 such wells have been provided for the comparatively small ryotwari estate in Betul. Twenty new wells were sunk in Nimar at a cost of Rs. 8,800, Rs. 12,655 were spent in 13 wells and 20 tanks in Chanda and Rs. 9,090 on 7 wells and 35 tanks in Balaghat. Altogether nearly one-sixth of the revenue was expended in improvements, most of which are not directly remunerative, but which must bring a return in time in the increased stability and prosperity of the villages. Two schools were opened in ryotwari villages in Seoni, and two in Chanda.

15. Under the head of lapses and resumptions of muafi grants the only important case was that of the Estate of the late Naoloji Rao Gujar, consisting of a number of villages in the Nagpur and Chanda districts, of which the grant lapsed and was resumed during the year with effect from the 1st July 1910. I must note here that from cases which have come before me I am inclined to think that the annual verification of muafi grants prescribed in Revenue Book Circular I—II is sometimes done in a somewhat perfunctory manner; I think that in districts where such grants are numerous better results would be obtained by spreading the work over two or three years.

16. During the past three years a good deal has been done towards the improvement of the pay and allowances of all grades of the Land Record Staff. Superintendents and Assistants have been given a better grading and higher scale of pay, with some concessions in the matter of travelling allowance: Revenue Inspectors have been granted a horse allowance of Rs. 10, and the patwaris of 16 districts now enjoy a minimum pay of Rs. 10 (Rs. 12 in Nagpur and Wardha) with a more liberal scale of allowances and free stationery. The Director reports that in some districts there is now a keen competition for vacancies. These concessions were very necessary, and it is to be hoped that they will lead to an improved standard of work, but the punishments of patwaris are still very numerous, and the Director is not able to speak well of the quality of the work done by the superior Staff. He gives instances which show that Superintendents and their Assistants think more of the statistics of their own performances than of the accuracy of the records, and that their check of Revenue Inspectors is often so superficial as to be useless. The general impression given by the report is that in some districts at least the Superintendent is left too much to himself. It is intended, by a provision in the new Land Revenue Act, to confer on the annual papers a greater evidential value than they now possess: this however can only be justified by the increasing accuracy of the records, and it is incumbent on Deputy Commissioners and their Assistants to do all in their power to secure honest and thorough work.

17. Settlement operations were in progress during the year in no less than 10 districts, but in three, — Raipur, Drug, and the Bilaspur Zamindaris, the work was brought to completion during the year, and in three more, Jubbulpore, Wardha, and Bilaspur Khalsa, soon after the close of the year, while in Damoh the operations are expected to be completed in March. In Nimar and Nagpur, where Settlement was notified in November 1911 and February 1912, good progress has been made; in Saugor, where operations began in July 1911, progress has, owing to special initial difficulties, been slower, but it should now improve considerably. The announcements of revised rents and revenue made during the year were everywhere well received.

18. A change in procedure was made during the course of the year by which mutations among malik-makbuza holders are no longer recorded in the tahsil registers, but merely entered in the patwari's papers. Consequently the statistics this year are incomplete except for mahals. Private sales of mahals decreased in number everywhere except in the Chhindwara district, where the rapid development of railway communication has given a great stimulus to speculation in land; the prices realised reached the very high figure of 57 times the Land Revenue. In the Wardha report also instances are given of very high prices.

19. During the year the whole subject of the transfer of proprietary rights, and of the extent to which the agriculturists' classes are losing their hold on the land, was again enquired into and discussed at the instance of the Government of India, and the general result of the discussion has been to show that on the whole the transfers that now occur are in the right direction and that there is no case for further hampering the the transfer of land by legislation. The question is constantly under examination in the group reports submitted by Settlement Officers, the tone of which is almost uniformly re-assuring.

20. The pending file of partition cases, which had been reduced last year from 151 to 124, has this year risen again to 175. All Divisions show increases, but the worst results are in Chhattisgarh, where only five partitions were actually effected out of 71 institutions. The reports do not show that either the Commissioner or the Deputy Commissioner look on this as anything unusual. It must be admitted that the conditions of Chhattisgarh agriculture, referred to above, make the task of partition exceptionally laborious; but the figures point to a congestion of work which needs immediate attention.

21. Land acquisition work continued to be heavy, especially in the Nagpur and Chhattisgarh Divisions. The Commissioners of the Nerbudda and Chhattisgarh Divisions both speak of the excellence of the work done by Thakur Umrao Singh, who was specially deputed for the acquisition of land for the Itarsi-Nagpur Railway and for the Tandula Canal, and who has since been confirmed in his temporary appointment of Extra-Assistant Commissioner. In Balaghat, the acquisition for the Weinganga Canal appears to have been carried out with commendable promptness by the district staff, and in Bhandara also the disposal of work was satisfactory. In the Nagpur districts the arrears are heavy, but much of them seems to be due to the inability of the Municipality to find funds for the acquisition of land which has been notified. The revised Book Circular has been published since the close of the year, and will, it is hoped, be of assistance to officers dealing with this increasingly difficult work.

22. The figures showing action taken under certain selected sections of the Land Revenue and Tenancy Acts (Statement L) show generally a remarkable constancy from year to year. Under the headings relating to transfer of *sir* land and to applications for execution of decree by ejectment and for reinstatement after illegal ejectment there is very little variation. There is again a marked increase in the Chhattisgarh Division in applications by tenants to deposit rent, owing to the unwillingness of the malguzar to accept the settlement entries of "without-rent" land, and also in some cases to unjust demands for *begar* or *nazarana*. There is also an increase, due to the Drug district in applications "to enhance, alter, or commute rents". These were applications for reduction of rent of holdings encroached on by the Tandula Canal channels. The amount of actual enhancement of rents effected through Revenue Officers is very small indeed, the only district where the sections were not almost a dead letter being Balaghat, and here the Deputy Commissioner notes that under the existing rules the amount of enhancement that can be effected is quite inadequate, and that could they be made more elastic applications would be received in thousands. Considering the universal spread of the *nazarana* system, and the

difficulty we have had in recent settlements in imposing anything like a fair enhancement *per saltum*, I think this question will have to be taken up. The large decrease in the number of applications for possession of surrendered holdings, mainly traceable to the Nerbudda Division, but not noticed in the reports, is a matter for satisfaction; under the present law claims have to be granted to most undeserving applicants. The Deputy Commissioner of Narsinghpur notices a growing tendency to transfer *sir* land without a corresponding share in the mahal, which he points out is inconvenient, but not open to legal objection. I have held in such cases that it is open to the Revenue Officer to refuse sanction to the transfer if it is calculated, as it often is, to endanger the security of the Government revenue. The reports contain many references to the fact that although Section 73 of the Tenancy Act is practically a dead letter, the acquisition of occupancy rights by private purchase, often at prices far in excess of the statutory  $2\frac{1}{2}$  times the rental, is quite a common event.

23. There has been a general reduction in the number of suits for arrears of rent and for ejectment, while suits by tenants for recovery of possession have gone up. The most marked variations are in the Nerbudda Division, where ejectment suits fell from 43 to 18, and in the Nagpur Division, where suits for recovery rose from 61 to 121. The lightness of rents in Chhattisgarh and the ease with which they are collected is shown by the fact that there was one rent suit to every four thousand rupees of rental in Chhattisgarh, against fifteen hundred rupees in the Jubbulpore, thirteen hundred in the Nerbudda and eleven hundred in the Nagpur Division.

24. The number of sale cases transmitted for disposal to the Revenue Courts rose from 1,658 to 1,922, the increase being common to all Divisions. Of the total number of cases for disposal 40 per cent remained pending at the end of the year; in 46 per cent the property was saved by payment or by temporary alienation or by settlement out of court, and in 14 per cent (429 cases) sale actually took place. The success was greatest in the Nagpur and Chhattisgarh Divisions, and least in the Nerbudda Division. The prices obtained, measured in terms of the Land Revenue, appear to have varied from 10 years' purchase in Narsinghpur to 85 years' in Chhindwara.

25. The Commissioner of Jubbulpore has found practical difficulties in enforcing the rule that Land Revenue in pattidari villages must be paid in through the lambardar alone, and has relaxed the rule in the case of imperfectly partitioned villages. But he points out that the chief difficulties arise in the case of unpartitioned villages where the co-sharers are not united by family ties or are not on good terms. In such cases disputes regarding the division of the profits are becoming a serious feature in village life, and a summary procedure for the settlement of disputes regarding the village accounts is desirable. Similar difficulties are referred to in the Bilaspur and Chhindwara reports. The position of lambardars will, it is hoped, be strengthened by the amendments embodied in the new Land Revenue Bill.

26. Mukaddams are generally reported to have performed their duties satisfactorily. Anything that tends to strengthen their position is to be welcomed, and the Commissioner of Nagpur writes that their prestige was enhanced by the duty enforced upon them of reading the King-Emperor's Coronation Proclamation. It would be interesting to know how many were able to read it. The mukaddams of the Nimar district are said to have given noticeable help to the police in criminal cases. On the other hand, complaints are made of their failure to report cases of illicit distillation in Betul and Chhindwara, and in Nagpur no less than 51 were fined for neglect of boundary marks. In the Mandla district, where the number of non-resident malguzars is very large, some difficulty has been experienced in getting resident tenants willing to serve as gumashtas on the miserable pittance allowed, and the Commissioner notes that the gumashtas require greater assistance than the law at present allows in recovering their dues.

Kotwars.

27. Progress has been made in raising the minimum remuneration of kotwars to Rs. 48 per annum in all districts.

28. The total number of Revenue "cases" instituted fell from 63,203 to 60,381. There was a large increase in Chhattisgarh, which is ascribed, though it is not very clear why, to the

General Revenue business. completion of settlement operations, and a large decrease in the Nerbudda Division owing to the operation of some provisional instructions regarding registration of "cases" issued by the late Commissioner, Mr. Laurie, which are now under consideration before adoption as standing orders. The orders abolishing separate "mutation" of malik-makbuza holdings have also produced some effect. The pending file was substantially reduced, but the figures for cases pending from three to twelve months show some falling off, the delays being greatest in the Nagpur Division, and especially in the Nagpur and Bhandara districts, where nearly half the cases are more than three months old. I am afraid that there is still in many districts room for much improvement in the matter of speeding up Revenue business. I write this with a full sense of the many annoying obstacles and interruptions that hamper a Revenue Officer in his work. But these are no excuse for leaving dates to be fixed, and notices to be issued as a matter of course, by the reader, or for what Mr. Laurie describes as "the tendency to sit in office brooding over or hatching 'cases' instead of doing actual work moving about the charge," both of which methods of procedure are commented on in the reports. Revenue business is bound to grow year by year, and it will only be dealt with successfully by promptness and method, combined with a proper sense of proportion.

29. It is pointed out in more than one report that Statement O gives a very inadequate and misleading account of the amount of Revenue work done, partly because there are important classes of work, such as the allotment of ryotwari land in Nimar, which find no place in it, and partly because there is much divergency of practice in the interpretation of the rules regarding registration of "cases". It is to be hoped that the revision of the rules will result in the clearance from the Record-room of a large amount of rubbish.

30. The figures in Columns 16 and 17 show a considerable reduction in the bulk of English correspondence, but this also is to some extent illusory; some officers have found that the curtailment of registration, consequent on the introduction tentatively of the Nerbudda Rules, has actually increased work. The drawbacks of the system were found to outweigh its advantages, and it has now been abandoned.

31. The reports submitted by Deputy Commissioners are almost without exception careful and complete, and show knowledge of their charges and in many cases keen personal interest. It is a pity that officers will not make more effort to observe the prescribed limits of length, and thus save trouble to themselves and other people. The Deputy Commissioners of Chanda and Damoh, who have submitted otherwise good reports, are particular offenders in this respect.

32. Touring was seriously interfered with in many districts by the Coronation celebrations and in one or two by plague.

Touring and Inspections.

The figures vary greatly from district to district, but all Commissioners report that the amount of touring and inspection done was adequate, and I accept their opinion. I notice, however, that, as not infrequently happens, the head-quarters tahsil was in four districts, Saugor, Narsinghpur, Wardha, and Bilaspur, left uninspected by the Deputy Commissioner. Only in the Narsinghpur and Hoshangabad reports is anything said about the orders which recently issued with a view to making touring more effective and less of a burden to the people. I presume that Commissioners scrutinize tour diaries and travelling allowance bills in order to satisfy themselves that these orders are observed as far as possible.

33. The office of Financial Commissioner was held by Mr. Crump from the commencement of the year to the 3rd August 1912, and by me for the remainder of the year. Eighty-five appeals were filed and disposed of in the

Court of the Financial Commissioner, the orders being modified or reversed in twelve cases. Thirty-five applications for revision were received and disposed of, only five being successful. Three hundred and two applications for the transfer of *sir* land were dealt with.

34. All Commissioners speak of the uniformly good work done by Deputy Commissioners in the administration of their charges, the only officer specially mentioned by name being Mr. Hullah, Officiating Deputy Commissioner of Narsinghpur, who has also submitted a particularly good report. Among subordinate officers some 70 or 80 names have been mentioned. All these, no doubt, have done good work, but it would be more useful if Deputy Commissioners and Commissioners would select the more conspicuous. I name some of those who appear to me to have done specially good work, although I fear that in making this selection I may be omitting some who are equally entitled to mention:—

*Assistant Commissioners.*

NAGPUR DIVISION.

(a) The difference is due to revision of settlements and it refers to the year 1910-11; but this increase was communicated by the Settlement Officer, Wardha, subsequent to the submission of the annual statements for 1910-11. As the increase refers to the year 1910-11, the figure in column 3 of Statement E for 1911-12 has therefore been altered to Rs. 6,95,640 from Rs. 6,95,616.

*STATEMENT F.—Showing Demand and Collections during the Revenue year ending the  
30th September 1912.*

## CENTRAL PROVINCES ADMINISTRATION.

---

### Revenue and Scarcity Department.

---

*Nagpur, the 23rd March 1914.*

READ—

Report by the Financial Commissioner on the Land Revenue Administration of the Central Provinces during the year 1912-1913.

Report on the Department of Land Records and Settlements by the Director of Land Records and Commissioner of Settlements for the year 1912-1913.

---

### RESOLUTION.

---

The year was one in which the prosperity of the agricultural classes was well maintained, the outturn of all crops over the whole Province being estimated at 97 per cent of the normal. There was no widespread calamity, and in spite of damage from hail, which in some places was serious, an exceptionally fine rabi crop was reaped in the Jubbulpore and Nerbudda Divisions, in every district of which the wheat-crop was particularly successful. These districts were thus well fortified to meet the consequences of the serious kharif failure which they have since experienced.

2. The statistical returns reflect the character of the year and its freedom from abnormal features, and contain few outstanding features for comment. Rental collections were good, and revenue collections excellent. In the expansion of the area occupied for cultivation, landlords and tenants have equally held their own. An examination of the figures for the last five years shows that neither from year to year, nor over the whole period, has there been any appreciable variation in the percentage of the occupied area which is held by the landlords: five years ago it was 19.01; it is now 18.84. The last three years, however, have witnessed a slight tendency for the tenants to increase their holdings in faster proportion than the home-farm of the landlords has expanded. The Financial Commissioner has cited some interesting instances which prove clearly the existence, always suspected, of the policy of restricting cultivation in view of an impending revision of settlement.

3. It is easy to find cases in which landlords have been oppressive in their relations towards their tenants, and still more easy to show how the village communities suffer from absentee landlordism, especially when the landlord's main business is the exploitation of his tenants by money-lending. Nevertheless the Chief Commissioner does not think that the landlords perform their duties towards their tenants any less conscientiously than they did in former days. Above all it must be remembered that much of the undoubted progress and enlightenment that are now apparent, as evidenced by co-operation, agricultural enterprise and the acceptance of veterinary science, would have been impossible but for the example that was first set by the landlords, through whom it is

necessary that District Officers must work in the first instance. On the other hand the landlord's position is no easier than before, and the tenants are becoming more independent. If the tenants often require protection to secure their rights under the wajib-ul-arz, the position of the landlord might well be strengthened in the matter of facilities for rent collection. The trouble and expense of obtaining decrees for arrears of rent are often wholly disproportionate to the amounts involved. The matter will receive attention in the approaching revision of the Tenancy Act.

4. Every district in which the ryotwari form of tenure exists, except Mandla, shows an increase in the area thus occupied. Cultivation in the ryotwari tracts is now becoming a good deal more stable than was formerly the case, and in Nimar progressive and commercial tendencies are becoming apparent, and a demand for extended powers of transfer is arising. There is little doubt that the grant of power to transfer, and a relaxation of the conditions of residence, would do much to stimulate occupation of the areas open for colonization, especially in the area under the Government irrigation tanks in Chanda, where there is practically no demand for land under the conditions prescribed. But the concessions asked for have hitherto been purposely withheld in order to avoid some of the most apparent evils of the malguzari tenure, and it is doubtful whether they would be in the interests of the persons who ask for them. The subject is at present under consideration, with reference to representations that have been received from officers both in Chanda and Nimar.

5. Revenue business has been conducted with reasonable despatch, and there has been a small decrease in the pending file. It is particularly satisfactory to notice that the pending file of partition cases, which, with land acquisition cases, perhaps form the most burdensome part of a Revenue Officer's work, has decreased in spite of a large increase in new institutions. The Raipur and Bilaspur Districts show good progress in this matter.

6. In the Settlement Department work was not heavy during the year, but Mr. Hemingway and his officers are to be congratulated on the admirable standard of promptness in the despatch of business that has been attained. Progress has also been good in map-correction preliminary to Settlement. It would be well if the Commissioner of Settlements, in reporting on this point, would give some indication of the degree of efficiency found to have been attained by the patwaris in keeping the maps up to date during the currency of Settlement. Regular operations for the correction of maps is an expensive matter, and it is doubtful whether in the open tracts with old-established cultivation the degree of error existing justifies the expense of elaborate operations for its amendment. An assessment is probably more affected by an error of soil-classification than by a mistake of area consequent on a small error in mapping. Large errors in mapping in old-established cultivation are, the Chief Commissioner believes, not often found.

7. Considering that there was no general addition to the work of the Land Record staff, such as takes place when a census is taken or a severe failure of crops occurs, it is unsatisfactory to find that there was a good deal of unpunctuality in the filing of the annual papers. Notwithstanding the abolition of the practice of fining patwaris, the punishment roll was heavy, and it is to be feared that several of the Superintendents of Land Records and their Assistants not only fail to perform efficiently their duties of inspection but are also incapable of enforcing discipline. A lifetime spent in the drudgery of field-to-field inspection is apt to render a man physically incapable of sustained energy and interest in his work, and it is doubtless for this reason that many officers, who come with credit through the hard ordeal of Settlement work, fail to maintain their reputation in later years. The contemplated amalgamation of the superior Land Record staff with the cadre of Tahsildars and Naib-Tahsildars should do much to render the career of a Land Records Officer more interesting and attractive, while it will also associate the Tahsil staff more closely with the

work of controlling the Inspectors and patwaris, a matter for which they are already responsible but in which their duties are at present honoured rather in the breach than in the observance.

8. Mr. Crump desires to express his acknowledgments for the assistance that the Administration has received from Mr. Walker and the Commissioners of Divisions, and to those officers whose names have been brought to favourable notice in the reports.

---

ORDER.—Ordered that a copy of this Resolution and its annexures be submitted to the Government of India in the Department of Revenue and Agriculture; that copies be forwarded to all Commissioners and Deputy Commissioners, the Commissioner of Settlements and Director of Land Records and Settlement Officers; and that the Resolution be published in the Supplement to the *Central Provinces Gazette*.

J. HULLAH,

*Third Secretary to the Chief Commissioner,*

*Central Provinces.*

**Report by the Financial Commissioner on the Land Revenue  
Administration of the Central Provinces during the year 1912-13.**

---

None of the Divisional Reports were received on the prescribed date, and that of the Jubbulpore Division was submitted nearly a month late. Greater punctuality will be expected in future.

2. The monsoon of 1912-13 set in late with a few slight showers in the third week of June, and it was not well established till the second week of July, after which and during the month of August it was copious in all districts. The sowing of certain minor kharif crops was interfered with, but the rain in August was particularly favourable to the transplantation of rice. September was generally dry, and the break facilitated weeding operations, though it slightly affected the kharif crop. There was a general and most opportune rainfall towards the end of September which secured the kharif crop and assured rabi sowings. November was also an unusually wet month, especially in the Jubbulpore Division, and the moisture was most helpful to the young rabi crops.

December and January were rainless, but in February there was general heavy rain accompanied in many places by severe hail-storms which did a good deal of damage.

3. The cotton crop was below the average throughout the Province, as also was the kharif outturn generally, except in the Nagpur Division. Except for local damage by hail, the rabi outturn was generally very good, and in most of the Nerbudda Division it was the best on record within the last 20 years. The wheat crop was excellent also in Saugor and Damoh Districts. In Bilaspur linseed suffered a good deal on account of cloudy weather.

4. The total area included in holdings has increased by 93,404 acres in the Province, and the addition of 35,308 acres to the area of tenants' holdings in the Jubbulpore Division is particularly remarkable. Of this increase, almost 19,000 acres are in the Jubbulpore District alone, and, though favourable seasons have had their effect in encouraging the increase of cultivation, there seems no doubt that the main impetus to the increase has been the setting free to allotment of culturable land held back during the pendency of Settlement operations. In Saugor District, where these operations are still pending, there has been an absolute decrease of about 1,000 acres in the area included in holdings. In Narsinghpur District, where the impending settlement has again been postponed, an instance is mentioned of a large land-owner who got tired of waiting and let out on a substantial premium over 1,000 acres of land which he had been deliberately keeping fallow in expectation of the settlement.

The area held as *sir* in the Province as a whole increased by 9,988 acres. The conferment of *sir* rights by Settlement Officers has more than counterbalanced the wastage that occurs when villages are sold without sanction to the transfer of occupancy rights in their *sir*. The variations in the areas held by different classes of tenants call for no special remark.

5. Rental collections were generally good. In Bilaspur and Chanda a percentage of collection of 99 per cent and in Drug of 96 per cent was obtained. In the Nerbudda Division the Commissioner considers that rental collections were not so good as they might have been. The low percentage of 75 per cent reported from the Nimar District is said to be partly due to the partial failure of crops necessitating the suspension of rent, but with settlement operations going on in the district the completeness of the returns seems open to doubt.

6. As the result of yet another good harvest, the general prosperity of the agricultural classes still further increased. Indeed, in the principal rabi tracts the resources of agriculturists probably reached the highest level of recent years in the spring of 1913, a point which is of much value in a lean year like the present. Almost all the reports again mention about shortage of agricultural labour. In Chhattisgarh the labourer gets double the wages he formerly did, and labour had to be imported from a distance for the Mahanadi Canal works. In Hoshangabad considerable loss was suffered owing to the inability of malguzars to obtain sufficient labour to get their heavy wheat crop cut and marketed in time. Cholera and small-pox prevailed for a short period in several districts, but the Province has been more free from the scourge of plague than it has been for many years.

7. The proposition that relations between landlords and their tenants are generally satisfactory still holds good. But the cleavage of interest between the two naturally intensifies as the country progresses and tenants become less dependent on their malguzars. The agents of absentee landlords are often lacking in sympathy, and also, as pointed out in the Nerbudda Divisional Report, trouble is often fomented by dispossessed landlords against their successors in title. Nistar rights are the most common cause of friction, and the Deputy Commissioner of Bilaspur is somewhat pessimistic of the relations between tenants and their malguzars in that district ever being altogether satisfactory, and considers that these relations will be exacerbated by the attempts which have been made at settlement to reserve the village grazing grounds. I am not sure that at settlement sufficient care is always taken accurately to record the proprietor's rights in the matter of breaking up waste for cultivation.

8. All the Reports reflect the excellence of the relations between the people and Government, and many instances of co-operation and good-will in public objects have been noticed. This is not the place to discuss details of the working of Co-operative Societies and of the Agriculture and Veterinary Departments. Immense strides have been made in the development of co-operative credit under the able guidance of Mr. Crosthwaite, seconded by the local officials, and admirable work has also been done by many non-officials in furtherance of the movement. A new departure is the formation of an Industrial society among the Gowlees of Nagpur. Seoni seems to be the only district in which a hopeful view is not taken as to progress in agricultural improvements. Generally there are indications of a slow but not unhealthy change; discontent with their traditional methods is beginning to be felt, and cultivators are paying more attention to the selection of seed and the manner of planting it, and to some extent to the use of improved implements. Cattle-breeding farms have been started in several places in the Chhattisgarh Division. Veterinary work seems to be generally gaining in popularity, but there are still complaints of the insufficiency of staff and also of the conservatism of the masses in their attitude towards cattle disease. In Bhandara, on the outbreak of cattle disease, people are still apt to send for the *Pujari* in preference to the Veterinary Assistant. Considerable success has been attained in several districts in the destruction of pig, one of the greatest banes to agriculture in the provinces. The matter might have been more fully noticed in the reports, but it is not mentioned at all in the Chhattisgarh report. Various methods for the destruction of pigs are adopted, but success seems mainly to depend on the possibility of obtaining in the district people with a real aptitude for the work. The enormous bag of over 15,000 pigs in Hoshangabad is in marked contrast with the small return of 322 from Nimar. As suggested by the Commissioner, it would perhaps be useful if the Nimar officials would study the Hoshangabad methods in detail.

9. Generally, there has been a falling off in the number of sanads for improvement granted during the year. In Nagpur 28 were granted against 91 in the preceding year, but from the report of the Department of Land Records it appears that up to the 30th of September 700 sanads were distributed by the Settlement Officer. In Wardha, and also in some other districts, where no applications were received it appears to be doubtful whether the duty of the Revenue Inspectors in this respect has properly been carried out.

10. During the year under report Rs. 4,18,345 and Rs. 77,032 were advanced under the Agriculturists' Loans Act and Land Improvements Loans Act respectively. The amount distributed under the former Act is over Rs. 1,50,000 larger than in the preceding year, and the expansion occurred mostly in areas where there had been some damage to crops or where there was a demand for cultivation of sugar-cane. The collection of the demand was good everywhere. Suspensions aggregated Rs. 3,766 and Rs. 14,245 under the Land Improvements Loans Act and the Agriculturists' Loans Act respectively, and were mostly given in the Nimar and Raipur Districts. The amounts remitted aggregated Rs. 1,603 and Rs. 3,251 respectively. There was little misuse of land improvement loans, and the cases of misapplication seem to have received due notice. The working of the transactions under the two Acts in the Central Provinces for the year under report shows a profit to Government of Rs. 23,539 and Rs. 4,578 respectively. In a season like that of the current year when loss rather than profit may be expected it seems advisable to defer the consideration of the question of utilising these profits on the improvement of agriculture as suggested in the Government of India's Resolution No. 6-204-16, dated the 30th November 1905.

11. On the 1st of October 1913 the Land Revenue on the roll was Rs. 96,40,900 against Rs. 95,50,017 on the 1st of October 1912. The increase is due mainly to settlement changes in the Damoh and Wardha Districts. In the Jubbulpore Division Rs. 20,417 was remitted on account of damage by hail and Rs. 27,928 was suspended on account of partial failure of crops and the balance was collected in full. In the Nagpur Division there is a very noticeable increase of Rs. 43,251 in fluctuating Land Revenue, mainly due to the proceeds from the sales of proprietary rights in malik-sarkar plots in accordance with the revised orders on that subject. Miscellaneous Land Revenue also shows a large increase of Rs. 76,964, mainly due to increased rates of royalty on manganese and to increase in exports of that mineral, and also, in the Nagpur District, to large recoveries of arrears of dead rent and royalty, which had been allowed to accrue owing to the concessions not having been brought on the Demand Register in the District Office. The Deputy Commissioner has now taken steps to set matters right.

The numbers of coercive processes used call for no particular remark except for the small increase in the number of warrants of arrest, due mainly to a somewhat indiscriminate use of that process in the Drug District. Eight sales were actually carried out as compared with nine in the preceding year.

12. The area held by patels and ryots increased in Chanda by 5,875 acres. This is partly due to new allotments and partly to the declaration of certain patch-cultivation villages to be regularly settled ryotwari villages. In Balaghat in spite of an increase in the area occupied by ryots, the rental demand fell by Rs. 5,213, a point which should have, but has not, been explained in the District Report. In Mandla the area relinquished exceeded that allotted by about 5,000 acres, which is ascribed to the habit of the aboriginal cultivator of shifting his ground to avoid payment of rent for fallows. The Commissioner suggests the advisability of a fuller assessment on cultivation followed by remission on fallow, as likely to check this tendency, and promises to go into the subject on the spot. When land is a drug in the market and the cultivation methods of the ryots are most inferior, stability cannot be obtained and no colonisation on the tract can be hoped for. The policy of fostering improvements, as recommended in the report for the year 1910-11, is probably the one most likely to be of any service. In Nimar and Betul there has been a considerable expansion in the occupied area.

The Commissioner of Jubbulpore Division has failed to notice the subject of management of Government Estates in his Report, but the Mandla District Report shows that the allotment of Rs. 11,000 for improvements was duly expended during the year on useful work, principally wells. Four groves have also been planted in ryotwari villages. Rs. 3,800 was distributed in loans to the cultivators for making small embankments in their fields. In Chanda over Rs. 10,000 was spent

on the construction and repair of tanks and wells, and in Balaghat nearly Rs. 8,000. In Nimar the full allotment of Rs. 9,000 was not utilised, the failure being in part due to lack of energy and foresight on the part of the Tahsildar. The Deputy Commissioner is having a detailed survey made of the requirements of each village preliminary to the preparation of a comprehensive programme of work. In the minor ryotwari estates considerable expenditure has been incurred, mainly on the improvement of water-supply. The work of patels is generally favourably reported on. The colonisation of the areas of Government forest commanded by the Asola-Mendha and Gorajheri Tanks in Chanda has so far not met with any appreciable success. Applicants of the right stamp ready to take up personal residence have not been found, and the question of modifying the terms on which land can be given out is under consideration. In Nimar Mr. Nelson, the Settlement Officer, has made some proposals for the revision of the incidents of our ryotwari tenure, but it will probably be advisable to defer making any radical changes in our ordinary ryotwari system until the alterations of the law, which are in contemplation, have taken definite shape.

13. Transfers of proprietary rights affect a rather slightly larger area on the whole than in the preceding year. Comparisons  
 Alienation of land. are, however, vitiated by the inclusion in the returns from some districts of transfers of malik-makbuza plots which, in accordance with recent orders, will now be omitted. As observed by the Commissioner of Jubbulpore Division, the conditions governing the value of a mahal and that of a plot are very different. The prices realised generally indicate a keen demand for land. But the unreliability of any inference from a single year's figure showing the proportion between the revenue assessed and the consideration paid is shown by the fact that in the year under report Nimar shows the lowest proportion in the Nerbudda Division. An extraordinary case is mentioned from Jubbulpore of a decree of Rs. 8,66,000, including compound interest for 60 years, on an original debt of Rs. 12,000 for which two villages in the Murwara Tahsil passed to a mortgagee under a foreclosure decree.

14. The pending file of partition cases shows a slight fall, and progress has  
 Partitions. been fair on the whole. The Deputy Commissioner of Bilaspur considers that the congestion of the partition files in that district was largely due to the distaste which Extra-Assistant Commissioners have for this class of work, which involves not only a laborious investigation but the exercise of much patience. Any tendency to such shirking must be checked by periodical inspection of the files by the Deputy Commissioner.

15. There is nothing to call for special remark in the statistics of  
 Cases under the special provisions of the Land Revenue and Tenancy Acts. cases instituted under the principal sections of the Land Revenue and Tenancy Acts. In the Jubbulpore Division the enforcement of the rule for the payment of revenue through Lambardars goes on and is responsible for applications under Section 116. An important case of levying excess rates is mentioned in the Mandla Report. It is curious that cases of the execution of decrees by ejectment for arrears of rent increased in the Narsinghpur District which had a bumper rabi harvest. The number of transfers of *sir* land increased in Jubbulpore and Chhattisgarh Divisions and fell slightly in the other two Divisions. There was an increase in the number of applications to be placed in possession of surrendered occupancy holdings (Section 36 of the Tenancy Act), and the Nerbudda Division is responsible for more than half of the applications for resort to that rather unsatisfactory provision of Revenue law.

16. The number of suits for arrears of rent decreased, the fall being  
 Suits for arrears of rent. noticeable in the Nagpur and Nerbudda Divisions.

17. Land acquisition work was heavy during the year in many districts, and  
 Land acquisition. on the whole satisfactory progress has been made. In Mandla there is a good deal of acquisition for roads still to be done. In Bhandara it is mentioned that the delay in the disposal of cases was caused by constant changes, apparently in alignment, by the Irrigation

Department. Mr. Umrao Singh, Extra-Assistant Commissioner, on special duty, was favourably mentioned for his acquisition work connected with railway extension in the Betul and Chhindwara Districts and with the Tendula Canal in the Drug District.

The instructions in Revenue Book Circular IX-2 have been revised so as to separate the calculation of the multiples for framing the award of compensation for cultivating as distinguished from proprietary rights, and to delegate increased powers to Deputy Commissioners and full powers to Commissioners to sanction such multiples. The increased value of land in several districts has rendered it necessary to sanction much higher multiples than were usual a few years ago.

18. The number of cases in which the sales were ordered by the Civil Courts was almost identical with that of the preceding year. The number of cases in which sale of shares or plots took place is slightly larger this year. In Chhattisgarh, as in the preceding year, in no case was sale averted by temporary alienation. But the suggestion of the Deputy Commissioner, Raipur, that the intervention of the Collector in execution could be done away with does not seem to be one which can be seriously considered. There is no doubt that the Collector is in a position to sell the property or part of it to the best advantage, even if sale cannot be averted.

19. The total number of cases instituted is almost identical with that of the preceding year. There has been a noticeable decrease in the Nerbudda Division, of which the principal cause is the change of procedure in respect of the transfer of malik-makbuza plots. The reasons for the small increase in Jubbulpore and Chhattisgarh Divisions are not clear. Pending files show a satisfactory decrease generally. The Commissioner, Chhattisgarh Division, observes that, owing to the difference in treatment and methods in registration, statistics in Revenue cases are of little value. He has submitted certain proposals for some radical alterations in our system of registration of Revenue cases, but any modification of our system of records must be approached with great caution, and though some details may be improved, it would seem advisable to await the passing of the new Land Revenue and Tenancy Acts which will make a great change in the system of Revenue work.

20. The large increase in the number of letters dealing with Revenue matters registered in the English Department represents mainly the abandonment of the system tentatively introduced to curtail correspondence. The Commissioner of the Nagpur Division reports that the confusion and difficulty in tracing correspondence which existed prior to the abandonment of that system is now disappearing. The Commissioner of Chhattisgarh Division still considers that there is much waste in registration, and offers to submit further proposals, but a simplified form of Correspondence Register, which aims at securing full registration with the minimum of clerical labour, is under consideration. I am inclined to think that Mr. Laurie rather under-rates the dangers of curtailment of registration.

21. There is not much comment which is new regarding village officers in the Reports. Lambardars, mukaddams and kotwars have as usual done well on the whole. The friction between lambardars and other sharers in *pattidari* villages, which is more common in the northern districts, is noticed in the Balaghat District. As observed by the Commissioner of Chhattisgarh, so far as their duties towards Government are concerned, there is no cause for complaint against the lambardars. But their position towards the proprietary body and towards the tenants is one of some difficulty from their relationship not being sufficiently clearly defined. In Betul and in Bhandara severe punishments were inflicted on two mukaddams, but these cases are exceptions to the general good conduct of our mukaddams and kotwars in the matter of reporting crimes. One kotwar in Damoh did exceptionally good work in arresting a notable criminal. In several districts action was taken to level up the emoluments of insufficiently paid kotwars.

The Deputy Commissioner, Seoni, points out that kotwars often prefer to remain in their ancestral villages on an inadequate remuneration rather than take up a better-paid post elsewhere. I am inclined to agree with him that amalgamation of villages for the purpose of improving the remuneration of kotwars should generally be left to be carried out along with settlement operations.

22. As regards touring and inspection work, this seems to have been adequately performed by all grades of officers. Only the  
 Tours and Inspections. Narsinghpur Report refers to the effect given to the orders which recently issued with a view to making tours more effective and less of a burden to the people. The matter is one which should be touched on in next year's Report.

23. The office of the Financial Commissioner was held by  
 Financial Commissioner. Mr. Fox-Strangways from the commencement of the year to the 11th March 1913, by Mr. Crump from that date to 28th July 1913, and by myself from the 29th July to the end of the year. 97 appeals were disposed of in the Court of the Financial Commissioner, the orders being modified or reversed in 14 cases. 34 applications for revision were disposed of, only 3 of these being successful. 228 applications for sanction to the transfer of *sir* lands were dealt with during the year.

24. The outturn of work in most districts was quite satisfactory. But the  
 Land Records. Director of Land Records observes that in some districts there is a tendency to disregard quality of work in the desire to exhibit good statistics of quantity. As observed by the Director, to be of any real value, checking by Superintendents of Land Records and their Assistants must be check of Revenue Inspectors' work, and the fact that many of the Superintendents of Land Records are over 50 is not conducive to the reality of their supervision of the work of the Inspectors. It is under consideration to amalgamate the superior Land Record staff with that of Tahsildars and Naibs, so as to avoid the continuous employment of an officer on Land Records work, which results in his being unfit for any other duty after he becomes too old for field work.

The practice of fining Patwaris has been abolished, and the orders regarding the frequency of Revenue Inspector's visits to each Patwari's circle have been modified so as to fix a scale with which rigid compliance can be insisted on.

The number of punishments inflicted on the Land Records staff shows a satisfactory decrease.

25. Operations for the revision of settlement were conducted during the  
 Settlement. year in the Saugor, Nimar and Nagpur Districts, and correction of maps and records preparatory to settlement was proceeded with in Chhindwara, Hoshangabad and Nagpur Districts. Forecast Reports on the resettlement of Hoshangabad and Chhindwara Districts were submitted during the year, and the orders of the Government of India were received on the Final Report for Drug and Jubbulpore Districts and for the Bilaspur Zamindaris. In Saugor the work was specially complicated by the recent reimposition proceedings. But Mr. Corbett has turned out a large amount of work of high quality though hampered by misfortunes among his staff. In Nimar the Settlement operations have proceeded with great rapidity under Mr. Nelson, and are expected to terminate shortly. In the heavy work of the Nagpur resettlement Mr. Dyer has shown powers of organisation and unflagging energy, and the programme was punctually carried out. In controlling and supervising the work of the Settlement Department Mr. Hemingway has been most successful.

26. All the Commissioners acknowledge the good work done by their  
 Notice of Officers. Deputy Commissioners during the year under report, and the Commissioner, Nagpur Division, specially notices the services of Mr. C. A. Clarke in bringing the arrears in the Nagpur District

Office up to date. The Commissioner, Jubbulpore Division, refers to the retirement during the year of Rai Bahadur Anantlal after a long and meritorious service.

A list of officers who have gained the special mention of their names for assiduous and good work is given below :—

*Assistant Commissioners.*

**DIVISION.**

by the map correction party.

to reforming survey numbers by the Settlement Department.

this year been let out for cultivation for Rs. 14.

of Rs. 7 in assessment is due to the exchange between Minhail and occupied areas.

decrease in column 4 is attributed to the exclusion of the assessment on *Baris* which the Revenue Inspector of the Mandla Tahsil has erroneously to the increase in columns 5, 6 and 7 and the decrease in columns 8, 9, 10 and 17, 18 and 19.

**DIVISION.**

to wrong calculation in the preceding year in the Hoshangabad Tahsil.

**DIVISION.**

of unoccupied numbers at Settlement.

STATEMENT B-II.—Showing the area held by the

**JUBBULPORE DIVISION.**

(a) The increase of Rs. 20 as compared with the figures given in column 13 of the printed statement for the previous year is due to the inclusion of Rs. 20.

(b) Rs. 16,892 due to the revision of Settlement and Rs. 31 on account of muafi resumptions.

(c) On account of Takoli of the Diwan's Estate.

(d) The demand shown in column 13 of the statement of the previous year is Rs. 10,32,410, but Rs. 1,250 were added to it for the year 1911-12 as revised kistbandis were received from the Settlement Officer after submission of the previous year's annual statement and Rs. 313 which were deducted from the demand in 1911-12 on account of remission in land acquisition case of mauzas Gorakhpur, Gopalpur and Garaiya had to be added again to the demand, as on verification it was found that the amount had already been taken into account in announcing the revised jama.

(e) Excludes Rs. 2 which was included last year in the demand by mistake.

**NAGPUR DIVISION.**

(a) The increase of Rs. 15 is due to the assessment of the ryotwari villages given in exchange to the malguzar of Ganpur and the decrease of Rs. 7 is due to the addition of full kamil jama due to resumption of a plot instead of half jama. Hence the net increase is Rs. 8.

(b) Last year's figure was wrong.

**CHHATTISGARH DIVISION.**

(a) Increase of Rs. 30 is due to revision of Settlement.

*STATEMENT F.—Showing Demand and Collections during the Revenue year ending the 30th September 1913.*

**JUBBULPORE DIVISION.**

- (a) Excludes Rs. 48 remitted in the Saugor District and Rs. 3 remitted in the Mandla District.  
 (b) Difference of Re. 1, as compared with the previous year's figures, is due to difference in annas.  
 (c) Rs. 505 are on account of revised demand of ryotwari villages for 1911-12 as intimated by the Settlement Officer after the close of the year 1911-12.  
 (d) Includes Rs. 1,060 on account of arrears of revenue due to resumption of muafii in mauza Compasur.  
 (e) Excludes the amount remitted as follows :—

|        |        |
|--------|--------|
|        | Rs.    |
| Damoh  | .. 40  |
| Mandla | .. 697 |
| Seoni  | .. 635 |

- (f) Excludes Rs. 26 not yet adjusted and hence included in column 10.  
 (g) The amount is under suspension as follows :—

|            |          |
|------------|----------|
|            | Rs.      |
| Damoh      | .. 69    |
| Jubbulpore | .. 111   |
| Mandla     | .. 2,426 |

- (h) Rs. 107 recommended as remission.  
 (i) The amount is under suspension as follows :—

|        |        |
|--------|--------|
|        | Rs.    |
| Mandla | .. 401 |
| Seoni  | .. 252 |

**NERBUDDA DIVISION.**

- (a) Excludes Rs. 27-6-0, Rs. 17-6-0 and Rs. 11-10-0 remitted.  
 (b) Rs. 27,149 suspended but a sum of Rs. 50 was wrongly included in the suspension proposed, hence the difference.  
 (c) Includes Rs. 17-12-0 remitted.

**NAGPUR DIVISION.**

- (a) Rs. 39 remitted.  
 (b) Excludes Rs. 17 remitted.  
 (c) Excludes Rs. 12 remitted.  
 (d) Excludes Rs. 2 refunded.  
 (e) Includes Rs. 511 on account of difference between kamil-jama and takoli ordered to be recovered this year

**CHHATTISGARH DIVISION.**

- (a) Includes Rs. 37 on account of demand increased for arrears of rent and excludes Rs. 43 remitted.

*STATEMENT F.—Showing Demand and Collections during the Revenue year ending the  
30th September 1913.—(Contd.)*

**JUBBULPORE DIVISION.**

(a) Excludes Rs. 2 remitted.

(b) The increase of Re. 1 in the Damoh District is due to increase in the Land Revenue of mauza Chandora Rajapatti and that of Rs. 114 in the Jubbulpore District on account of revised demand for 1911-12 intimated by the Settlement Officer.

(c) Excludes the amounts remitted as follows :—

|        |     |
|--------|-----|
|        | Rs. |
| Mandla | 1   |
| Seoni  | 5   |

(d) Excludes the following amounts which have been refunded or are included in column 9 of the statement :—

|            | Refunded. | Included in column 9. |
|------------|-----------|-----------------------|
|            | Rs.       | Rs.                   |
| Jubbulpore | 3         | 14                    |
| Seoni      | 5         | 2                     |
| Total      | 8         | 16                    |

(e) Suspended.

(f) Recommended for remission.

**NAGPUR DIVISION.**

(a) Excludes Re. 1 remitted.

(b) Excludes Rs. 23 refunded.

**CHHATTISGARH DIVISION.**

(a) Demand increased by Rs. 2 on account of progressive settlement.

*STATEMENT F.—Showing Demand and Collections during the Revenue year ending the 30th September 1913.—(Concl'd.)*

**PART IV.—MISCELLANEOUS LAND REVENUE.**

| Division.    | District.   | Demand.                     |                        | Collected in advance during previous year. | Net demand (Total of columns 3 and 4 minus column 5). | Collection.                  |                                  | Balance.                                               |                                                                            | Collected in advance on account of the year following. |

## REVENUE AND SCARCITY DEPARTMENT

---

*Nagpur, the 28th April 1915.*

READ—

Report by the Financial Commissioner on the Land Revenue Administration of the Central Provinces during the year 1913-14.

Report on the Department of Land Records and Settlements by the Director of Land Records and Commissioner of Settlements for the year 1913-14.

---

### RESOLUTION.

---

The year was one of serious crop failure, especially in the northern districts and in Chhattisgarh, owing to early and abrupt cessation of the rains of 1913. The kharif harvest was more or less of a failure everywhere: the rabi harvest was much better, but the area on which it was sown was greatly restricted on account of want of moisture at sowing time. In the three districts of Jubbulpore, Damoh and Mandla it was found necessary to grant a small measure of direct famine relief, but elsewhere the situation was adequately met by the expansion of ordinary works, the grant of forest concessions, the suspension of land revenue and the distribution of takavi on a liberal scale. The people came through the ordeal without any manifestation of severe distress, and the most serious effect of the calamity was the depletion of wheat stocks. On the other hand, the Provinces were fortunately free from any widespread epidemic disease. The present season has been fortunately a good one and all traces of last year's trouble have practically disappeared.

2. No important measures were undertaken which affected in any way the relations between landlords and tenants. Generally the landlords appear to have acted up to their responsibilities in the tracts most affected by the scarcity, and it would appear that in the matter of rent collection they refrained from excessive insistence, while remaining reasonably punctual in the payment of the revenue to Government. Among the tenants one of the greatest obstacles to progress is the scattered nature of holdings, especially in Chhattisgarh; until some degree of consolidation is attained, the greatly increased facilities for irrigation, which will shortly be offered by Government, cannot be fully and economically utilized. It is possible that legal power may have to be taken to effect consolidation: most of the tenants concerned seem to be desirous of some such measure, but a few obstructionists are generally to be found.

3. The area held direct from Government in ryotwari tenure continues to expand, and the progress of these villages, which often lie in the most backward tracts, is stimulated by a policy of effecting improvements at the cost of public funds, including, of late, the establishment of dispensaries. In Chanda a scheme of colonization from outside has failed, but the pressure of population in the adjacent villages is likely to be sufficient to supply cultivators for the available area on ordinary ryotwari terms.

4. The question of further checking the alienation of land by the agricultural classes has recently received the attention of the Administration, but no further measures are proposed excepting restriction of alienation by aboriginal tribes in tracts where their numbers are of importance and where there is a marked tendency for them to lose ground as proprietors of villages. The question of undertaking legislation to deal with this state of affairs is now under consideration.

5. The scarcity operations threw a good deal of extra work on Revenue officers, and it is satisfactory to find that this extra work did not materially impede the expeditious despatch of business. There is, however, one direction in which the Chief Commissioner must insist on the necessity for greater promptitude, namely, in the disposal of cases under the Land Acquisition Act. Delay in the proceedings for the acquisition of land not only indicates inefficiency, but may also mean the locking up of capital, especially for railway construction, which ought to be earning interest.

6. The work of the village officers is generally favourably reported upon, and due recognition must be paid to the services which they performed in a year which threw an unusual burden of work on them on account of the scarcity and relief operations. The Chief Commissioner has noted with interest the suggestions put forward for granting special rewards to village kotwars for continued good service and for increasing literacy amongst their numbers. Both suggestions deserve to be pursued.

7. Work in the Settlement Department was heavier than in the previous year: it will be still heavier in the near future, but the Chief Commissioner knows that he can depend on Mr. Hemingway and the Settlement Officers to maintain the commendable standard of despatch which, he is glad to notice, has again been a feature of the year's work in this Department. Sir Benjamin Robertson is also pleased to learn that measures are to be taken to effect an improvement in the proper utilization of the Traverse Survey Parties.

Once again—this time in Chhindwara—there has become apparent the tendency of landlords deliberately to restrict cultivation on the inception of Settlement operations. In Saugor the policy of allowing old fallow land, often deliberately left as waste, to escape free of assessment has been modified to some extent, and it is now reported that the area held by tenants has considerably increased.

8. The work of the Land Records staff shows considerable improvement and is generally satisfactory. Further progress in this respect may be looked for from the introduction of the scheme for amalgamating the staffs of Tahsildars and Superintendents of Land Records and of Naib-Tahsildars and Assistant Superintendents. Sir Benjamin Robertson has read with interest Mr. Hemingway's account of the general working of the Department, showing as it does close personal touch with what is being done in the different districts.

9. In some districts the Land Records staff has been reorganized and the pay of the patwaris has been increased. In this matter the Chief Commissioner is of opinion that, while a strong case can undoubtedly be made out for an increase of the pay of the patwaris, who sometimes receive little more than can be earned by the casual labourer, any proposals for increasing the number of these officials should be most carefully scrutinized. More especially is this the case in the wilder tracts of the Provinces, where tenures and cultivation are often shifting, and the crops are of little commercial or revenue-paying importance. In such tracts accuracy and a high standard of efficiency may be sought for at too high a cost; there are also obvious objections to increasing the number of subordinate officials who have to deal with the most ignorant and backward classes of the population.

10. Sir Benjamin Robertson desires to express to the Financial Commissioner, Mr. Crump, his acknowledgments of the constant assistance that he has rendered to the Administration, not only in the Revenue but also in other Departments. His thanks are also due to the Commissioners of Divisions, and to the officers whose names have favourably been mentioned in their reports.

---

ORDER.—Ordered that a copy of this Resolution and its annexures be submitted to the Government of India in the Department of Revenue and Agriculture; that copies be forwarded to all Commissioners and Deputy Commissioners, the Commissioner of Settlements and Director of Land Records and Settlement Officers; and that the Resolution be published in the Supplement to the *Central Provinces Gazette*.

J. HULLAH,

*Third Secretary to the Chief Commissioner,*

*Central Provinces.*

## Report by the Financial Commissioner on the Land Revenue Administration of the Central Provinces during the year 1913-14.

The reports from the Jubbulpore and Chhattisgarh Divisions were received a week later than the prescribed date, and the statistical returns from the former Division were received three weeks later. As the compilation and printing of the statistics at head-quarters takes a considerable time, punctuality in their submission is even more important than in the case of the reports, which are not printed.

2. The monsoon of 1913 was quite satisfactory up to the end of August, but early in September there was a premature cessation of the rains. October was almost rainless, with the result that kharif crops were everywhere poor, the failure being extensive and serious in the Jubbulpore, Damoh and Mandla districts, and very considerable in the rest of the Jubbulpore Division, part of the Nerbudda Division, and most of Chhattisgarh. The rabi-sowing season was most unfavourable owing to the dryness of the soil, and the area sown with rabi crops was 11 per cent smaller than in the previous year. In Mandla it declined by 51 and in Jubbulpore by 34 per cent. Rain in December prevented any very considerable deterioration on the area that it had been possible to sow, and ultimately the rabi harvest, though below normal in every district, except Wardha, Chanda and Nagpur, was a good deal better than might have been expected. In March 1914 hailstorms did considerable damage in Jubbulpore, Hoshangabad and Narsinghpur.

3. All kharif crops were generally very poor, the most successful being tur (arhar), which gave an average of 88 per cent of a normal outturn, but this crop, though extensively sown, is nowhere reckoned as a staple. Cotton was fairly successful, but the outturn of rice was poor. In Damoh and Jubbulpore it was only one-fifth of the normal, and in the north of the latter district the crop was an almost total failure. In the northern districts the minor millets, kodon and kutki, which are the staple food-grains in the wilder tracts, were also very poor. The important rabi crops, wheat, gram and linseed, gave an average of three-fourths of a normal crop, but only half, or less than half, of a normal harvest was reaped in several of the most important wheat-growing districts, such as Jubbulpore, Narsinghpur, Hoshangabad, Damoh and Bilaspur.

4. The total area included in holdings showed a further rise of 71,023 acres. Every Division contributed towards this increase, the expansion in area varying from 2,216 acres in the Nerbudda Division to 33,445 acres in the Chhattisgarh Division. The Commissioner, Nerbudda Division, attributes the increase in occupied area to the general tendency to extend cultivation: the other Divisional reports are silent on the point, but it is probable that the same tendency, encouraged by a series of prosperous seasons, is sufficient to explain the expansion in all parts of the Province. The only districts in which there has been any noticeable contraction in the occupied area are Nagpur and Chhindwara. In Nagpur the decrease of 3,720 acres is attributed to land-acquisition: in Chhindwara the fall of 3,940 acres in the khalsa area is not explained in the district report, but the Commissioner is probably correct in attributing it to deliberate restriction of cultivation in anticipation of settlement operations. As another illustration of this practice it may be noted that the Deputy Commissioner, Saugor, reports that a considerable expansion in the area held in ordinary tenant right has accompanied the practical completion of attestation in the Khurai and Banda tahsils.

5. The area held as *sir* land increased by 6,673 acres: all Divisions contributed towards the increase except the Chhattisgarh Division in which there was no settlement in progress to counterbalance the shrinkage which occurs when villages are sold with reservation of occupancy rights in the *sir* land. The khudkasht area decreased by 28,167 acres. In this respect also the Chhattisgarh Division is peculiar in showing an actual increase: in the other Divisions

the reasons given for the fall are the conferment of *sir* rights, the recording of land as unoccupied after it has lain fallow for three years and the fact that khudkasht lessees acquired ordinary tenant rights. The tendency noticed in last year's Resolution for tenants to increase their holdings in a slightly faster proportion than the home-farm of landlords has expanded is again in evidence: the percentage of the occupied area held by the landlords has fallen slightly from 18.84 to 18.68. There is nothing particularly noteworthy as regards variations in the areas held by different classes of tenants.

6. The statistics of rental collection reflect with more or less accuracy the agricultural conditions of the year. The percentage of realisation on account of current demand and arrears varied very considerably from district to district. Balaghat heads the list with a percentage of 96, and in the Nagpur Division generally collections were normal except in the Bhandara district, where the percentage was only 85. In the other Divisions suspensions and remissions of revenue necessitated similar concessions in the realisation of rents: collections were generally less than in the preceding year, but the majority of the district reports show that, considering the adverse conditions, the recovery of rents was as good as could be expected. In Bilaspur, however, collections fell by 46 per cent in the khalsa area, while in Mandla, where less than one-quarter of the revenue demand was suspended, two-fifths of the rental demand remained uncollected.

7. The conditions of the year were such as to put the resources of the agricultural classes in many parts of the Province to a severe test, and the comparative ease with which they came through the ordeal has brought out very clearly the stability of the position attained by both cultivators and labourers as the result of a series of generally prosperous years. Malguzars and tenants with substantial holdings had sufficient reserves and took full advantage of the comparative cheapness of labour to build houses and improve their land; the smaller tenants undoubtedly felt the pinch more severely, but with the assistance afforded by Government were able to eke out the scanty harvest in various ways; and labourers, though they did not everywhere retain the commanding position which they had held in previous years, found ample employment at rates which at the worst assured them a living-wage in spite of the rise in the prices of all the staple food-grains. The extent and effect of the crop failure were by no means uniform, and the amount of help required from Government varied considerably. In the Nagpur Division conditions were almost normal until the end of the year, when the fall in the price of cotton consequent on the outbreak of the European war had a disturbing effect in the cotton-growing districts. In the other Divisions suspensions and remissions of revenue had to be granted on a liberal scale and there was a greatly increased demand for Government loans both for land improvement and for the purchase of seed-grain and cattle. The only districts, however, in which there appeared any signs of actual distress calling for special relief measures were Jubbulpore, Damoh and Mandla, and here the situation was promptly and adequately met by an expansion of the work programmes of the Forest, Public Works and Irrigation Departments, the grant of forest concessions and the distribution of gratuitous relief doles on a strictly limited scale. Even in these districts, where the crop failure was most severe, the people showed great power of resistance and no permanent deterioration has resulted from the scarcity; from Damoh it is reported that the kharif harvest of 1914-15 has been so good that the people have already forgotten last year's trouble. The year was a generally healthy one: cholera and small-pox appeared in places in epidemic form, but plague was again almost entirely absent. In some districts cattle suffered some distress owing to shortage of fodder, but no abnormal mortality was reported.

8. The reports bring to light little that is new regarding the relations between landlords and tenants. Active oppression on the part of malguzars is of rare occurrence, and while some village communities may have reason to complain of harsh and unsympathetic treatment, it must be remembered that the necessity of protecting their

own interests has compelled landlords to adopt an attitude of defence against the advance of a tenantry which is no longer completely ignorant of its rights or backward in insisting on them. The conditions of scarcity which prevailed in a considerable portion of the Province brought out both the worst and the best aspects of landlordism: the Deputy Commissioner, Raipur, reports that a good deal of pressure had to be put on absentee landlords and their agents in order to secure assistance to crippled and helpless paupers, while elsewhere not only did many malguzars afford employment to their villages by building houses and carrying out land improvement works either with the aid of Government loans or from their own resources,—a form of assistance which was not wholly disinterested—but some even undertook the support of paupers on their estates who would otherwise have been in receipt of gratuitous relief from Government. Rights of nistar continued to be the most common source of disagreement, but the Deputy Commissioner, Betul, reports that this type of quarrel seems to be decreasing as tenants get to understand that malguzars are entitled to impose reasonable limits on user. In general, it may be said that the relations between landlords and tenants continued to be satisfactory and that the collisions which occurred were not unduly numerous considering the many opportunities for friction which arise, as the Commissioner, Jubbulpore Division, observes, during the gradual substitution of contracts for custom.

9. The outbreak of the war in Europe gave the people of this Province an opportunity of demonstrating that fundamental loyalty and good will towards Government which in ordinary circumstances, as the Commissioner, Jubbulpore Division, remarks, is apt to be passive rather than active. Offers of assistance were freely made on all sides, and the appeal for subscriptions to the Indian Imperial Relief Fund met with a wonderful response. Conditions were not favourable to the development and expansion of the activities of the Agriculture and Veterinary Departments, but the increasing extent to which their aid was voluntarily invoked indicates the progress which these two Departments are making in breaking down the prejudice of the conservative cultivating classes against agricultural innovations. It is satisfactory to note that cultivators in Chhattisgarh have not been unduly discouraged by the comparative failure of rice transplantation which was due to the short rainfall, and that the area transplanted this year actually shows a slight increase. The development of the Co-operative Credit movement was handicapped not only by the unfavourable agricultural conditions, but also by the financial crisis due to bank failures: despite these adverse conditions, however, the number of societies increased everywhere, and in many places they are reported to have been of material help in enabling cultivators to tide over the unfavourable season. A satisfactory feature of the year is the continued harmonious co-operation of this organisation with the Agriculture Department. Many of the reports fail to mention the work of District Agricultural Associations, but it appears that they continued their career of usefulness under departmental guidance. The Chhattisgarh and Jubbulpore Divisional Reports have omitted all reference to the destruction of pig, although attention was drawn to this point in the Report of last year. The work was carried on as effectively as before in the Hoshangabad district, and in Nimar the number killed increased from 322 to 1,553, though the Deputy Commissioner reports that satisfactory progress was made in the Burhanpur tahsil alone. In the Garchiroli tahsil of Chanda about 2,000 pig were destroyed by means of trenches and nets. The Deputy Commissioner, Narsinghpur, reports that pig skins have a value in the local market and that 60 skins were sold for Rs. 35.

10. The number of sanads granted for land improvements was again small, except in those districts in which settlement operations were in progress. The sanads which were granted were mostly for wells and field embankments. Some of the reports attribute the falling off in the number of applications to the failure of the Land Records staff to bring deserving cases to notice, but the Commissioner, Jubbulpore Division, is of opinion that the people do not care much for sanads or think that they are worth the trouble of application. In any case it seems clear that the number of sanads granted is no accurate criterion of the number of improvements effected.

11. The failure of the crops led to a greatly increased demand for loans from Government, and the advances under the Agriculturists' Loans Act and Land Improvement Loans Act amounted to Rs. 13,47,583 and Rs. 7,92,951, respectively, as compared with Rs. 4,18,345 and Rs. 77,032 in the preceding year. There was an increase in every Division, but the largest allotments were naturally made in the Jubbulpore and Chhattisgarh Divisions in which the crop failure was most pronounced. The Jubbulpore Division accounted for Rs. 5,71,120 and Rs. 3,62,338 of the total outlay under the two Acts, while the corresponding figures for Chhattisgarh were Rs. 4,40,680 and Rs. 3,43,294. In view of the large sums advanced and the temptations to divert them to other purposes, the number of cases in which misapplication of loans came to light were remarkably few. It was found necessary to grant remissions and suspensions on a fairly liberal scale, but if these be left out of account, the collections may be regarded as satisfactory. As was anticipated in last year's Report, the result of the working of the transactions under the two Acts in the Central Provinces was a loss to Government of Rs. 30,369.

12. The demand on account of land revenue on the roll on the 1st October 1914 was Rs. 99,43,610 as compared with Rs. 96,42,639 on the corresponding date in the preceding year. This increase of just over three lakhs of rupees was mainly due to settlement operations in the Saugor, Nimar and Nagpur districts. Remissions amounted to Rs. 96,845, chiefly in the Jubbulpore and Nerbudda Divisions, and suspensions totalled Rs. 12,16,924, of which the Jubbulpore Division accounted for Rs. 6,93,704 and the Chhattisgarh Division for Rs. 4,61,329. The net demand for collection was Rs. 85,91,329: actual collections amounted to Rs. 85,64,444, leaving an unsuspended balance of Rs. 26,885. Of this sum the Jubbulpore district accounts for no less than Rs. 20,084, which is due from a wealthy land-owner in temporary difficulties owing to the financial crisis, while the arrears of Rs. 6,602 in the Saugor district were due to the late receipt of kistbandis from the Settlement Officer and to alterations in assessment made by him. With the exception of these two items, the demand was realised almost in full, a result which shows that sufficient leniency was shown in the grant of suspensions and remissions. The demand on account of arrears was Rs. 81,364: Rs. 52,629 was remitted, Rs. 14,690 was suspended and the balance was collected in full. As regards land revenue not on the roll and miscellaneous land revenue there is little that calls for comment beyond an increase of over a lakh of rupees in miscellaneous revenue in the Nerbudda Division which was mainly due to the sale by auction of a large number of escheated malik-makbuza plots in Nimar. In Narsinghpur a sum of nearly Rs. 80,000 was due from the Mohpani Colliery on account of royalty: this demand has gradually accumulated for several years, pending the Government of India's decision on the question of the royalty payable by the Great Indian Peninsula Railway Company. Orders have now been received for collection of the amount due.

The unsuspended revenue was collected with considerable ease, judging by the number of coercive processes issued. There was a decrease as compared with the previous year under each class of process, while the number of sales after attachment was the same as last year. One village in the Nimar district was taken under direct management on the ground that its absentee proprietor was an habitual defaulter.

13. The total area included in occupied survey numbers shows a rise of 38,500 acres in the Province as a whole. Four of the six districts in which the ryotwari estate covers an important area contribute towards this increase: in Betul the fall is insignificant, but in the Balaghat district there is a shrinkage amounting to 2,612 acres. This decline, which was reported to have occurred in villages close to Government Forest, was the subject of a special enquiry and report by the Deputy Commissioner, but the Commissioner merely states that the enquiry showed that there were other factors besides proximity to Government Forest, and he thinks that the enormous increase in the number of deer and pig, owing to the destruction of tigers, is one of the chief of these. The increase of 14,998 acres

in the Chanda district is attributed largely to the declaration of certain patch-cultivation villages to be regularly settled ryotwari villages. No explanation has been given of the increases of 15,770 acres in Nimar and 9,149 in Mandla, but no doubt the expansion in ryotwari villages, as in malguzari villages, was due to a normal extension of cultivation as the result of a series of prosperous years.

The allotments for improvements in Government estates appear in general to have been fully and usefully expended. The Deputy Commissioner, Nimar, has drawn up a comprehensive scheme for the improvement of the water-supply which is still deficient. The continuous inflow of settlers into this district has led the Deputy Commissioner to submit proposals for the establishment of two dispensaries in the ryotwari tract, where the arrangements for medical relief are inadequate, and application has been made for a grant of Rs. 7,500 for dispensary buildings. In the Mandla estate the chief heads of expenditure were the construction of roads, the provision of water-supply and the construction of stone terraces to prevent erosion: it is hoped that these improvements may do something to induce the Mandla aboriginal to abandon the practice of shifting cultivation. The development of agriculture under the large tanks in Chanda is reported to be slow; but a special investigation, which I have made recently, shows that no special measures are required, and that in time there is every prospect of the available land being taken up locally. The work of patels is generally reported to have been satisfactory.

14. No accurate comparison between the figures of 1912-13 and those of 1913-14 in regard to transfers of proprietary rights is possible, because a number of the district returns for the former year include transfers of malik-makbuza plots, which, in accordance with recent orders, are now left out of consideration. A decrease in the number of sales by order of a Court is attributed by the Commissioner, Jubbulpore Division, to the deferring of sales until a more favourable season in the interest of both creditor and debtor. The reports do not contain sufficient information to enable a conclusion to be reached as to the proportion of transfers in favour of agriculturists, but there is obviously much variation: in Chhindwara 88 out of 90 transfers were in favour of agriculturists, or persons combining agriculture with other pursuits, while in Narsinghpur only 52 out of 95 were in favour of agriculturists. The futility of attempting to draw reliable inferences as to the demand for land in a particular tract from a calculation of the price obtained in relation to the revenue assessment is shown by the fact that in two tahsils of the Chhindwara district the consideration in sales by order of a Court varied from 6 times to 158 times the revenue assessed.

The question whether the intervention of the Collector really benefits the agriculturist is one which has been much discussed. On the one hand it is urged that the delay in recovering the debt raises the rate of interest and does him harm. On the other hand it is said that the sale by the Collector realises a better price than would be obtained under unrestricted sales by the Civil Court. The question is one of considerable difficulty, but I do not think that the arguments in favour of a change in system are as yet sufficiently strong to justify an alteration in the practice.

15. The pending file of partition cases shows a very considerable rise from 172 to 245, which may be attributed to a large increase in the number of institutions during the year. The institutions in Bilaspur and Bhandara were especially numerous, and in the former district were attributed to jealousy of the lambardar and quarrels between co-sharers over the home-farm. This is the usual cause for asking for a partition. The Commissioner, Nerbudda Division, draws attention to the large proportion of cases withdrawn or rejected in Narsinghpur and Nimar, and a similar condition of affairs is noticeable in Jubbulpore, Seoni, Balaghat, Bilaspur and Drug. The Commissioner, Chhattisgarh Division, points out that protracted enquiries are generally due to failure on the part of the partitioning officer to visit the spot and that most difficulties disappear when the case is taken up in the village to be partitioned. Good progress was made in disposing of these

troublesome cases in the Jubbulpore Division: this is the more creditable as Revenue officers in that Division had a good deal of extra work in connection with the scarcity relief operations.

16. A comparison of the statistics of cases instituted under the principal sections of the Land Revenue and Tenancy Acts during the last three years brings to light some interesting variations in the degree to which the people of different parts of the Central Provinces make use of the various provisions of the Revenue law. The Commissioner, Jubbulpore Division, points out that applications for penalties against malguzars under Sections 10 and 12 of the Tenancy Act are far more numerous in that Division than elsewhere. More noticeable than this is extraordinarily large proportion of applications by tenants to deposit rent which are instituted in the Chhattisgarh Division and the small proportion of applications for execution of decrees by ejectment of tenants in the same Division. The Nerbudda Division appears to account regularly for more than half the total applications to be placed in possession of surrendered occupancy holdings. The year's figures in themselves afford little subject for comment. A distinct rise in the number of applications by lambardars in the Nagpur Division for recovery of arrears from co-sharers is accompanied by a fall in all other Divisions: this is the more curious as the rise is attributed to difficulty of collection after a poor harvest, and it was in the Nagpur Division that the failure of the crops was least pronounced. The number of applications under Section 73 of the Tenancy Act for the acquisition of occupancy rights is small but the causes are twofold—firstly the fact that the rights of an occupancy tenant are little more valuable than ordinary tenant rights, and secondly, the growing practice of acquiring these rights, when a holding is first taken up, on payment of a nazarana out of Court. The district reports indicate that tenants pay a nazarana which may amount to 20 or 25 times the rental to secure occupancy rights. There was an increase during the year both in the number of applications to transfer *sir* land and in the number of applications sanctioned.

17. There was a considerable increase in the number of suits by landlords for arrears of rent as compared with last year, but the figures are still below those of the year 1911-12. There was a fall in the number of cases transferred to Revenue Courts under Sections 84 and 85 of the Tenancy Act.

18. Land acquisition work was again heavy, especially in the Nagpur and Chhattisgarh Divisions. For the Raipur district, where applications from the Irrigation Department were numerous, the Commissioner has recommended the appointment of another Land Acquisition Officer. In one case in Chhindwara the award of the Collector was referred to a Civil Court, which awarded additional compensation of Rs. 1,428, including interest. None of the Divisional reports make any comment on the working of the revised instructions under Revenue Bock Circular IX-2. The Deputy Commissioner, Nagpur, has drawn attention to the greatly increased value of land in that district which has resulted from the extension of the railway system and the commercial and industrial development of recent years. The rate at which land acquisition cases are disposed of is unsatisfactory, and I have recently had to call the attention of the Commissioner, Nagpur Division, to the necessity for greater despatch. At present much time is wasted over preliminary verifications of area before submission of a draft notification for acquisition, in spite of the fact that officers have often been reminded that the law requires only the approximate area of the land to be stated in the Notification.

19. The number of cases in which sale was ordered by the Civil Courts increased by 238, a rise to which every Division contributed except Chhattisgarh. The number of cases for disposal, however, was almost the same as that of the preceding year. In view of the conditions of the year, it is rather surprising to note an increase in the number of cases in which sale was averted by payment of the claim. A fall in the number of cases in which sale was effected and a rise in the number of

pending cases may probably be attributed, as the Commissioner, Jubbulpore Division, observes, to a desire to give judgment-debtors a chance of saving their property by postponing sales until a more favourable season. The number of cases in which sale was averted by temporary alienation increased from 36 to 68. The question of giving greater powers to District Officers in disposing of these cases is under consideration; any reasonable measure that would tend to shorten the proceedings would be an appreciable relief to creditors and debtors alike.

20. The total number of cases instituted showed a very large rise of 16,780. The increase was shared by all Divisions, but the Jubbulpore Division accounts for no less than 10,184 of the total. The greater part of the increase is due to the larger numbers of applications for Government loans. It is also reported that the death of two malguzars in the Saugor District involved the institution of three cases in each of 147 villages. Considering the heavier volume of work for disposal, it is not surprising to find that pending files increased by 437. The only Division in which pending files were reduced is the Nagpur Division, in which Revenue officers were not hampered by extra work in connection with scarcity operations. The reports indicate that the long-pending cases are almost all Collector's cases in which a lease has been granted.

21. The number of communications registered in the English Department has risen as a result of the abandonment of the tentative scheme introduced for the curtailment of correspondence. But the time involved in the registration is saved whenever the reference is required.

22. Individual cases of friction between lambardars and co-sharers over the collection of revenue and the distribution of profits have naturally come to light, but it appears from the reports that the lambardari system has worked as satisfactorily as usual during the year. The Deputy Commissioner, Jubbulpore, in drawing attention to the fact that their relations towards the proprietary body are undefined, suggests that lambardars should be required to render accounts to their co-sharers. The more exact definition, under the law, of the relations of the lambardar with his co-sharers is receiving attention in the Land Revenue Bill now before the Council.

The punishment roll of mukaddams was a comparatively heavy one, but with the exception of a few cases in which severe punishments had to be inflicted for deliberate concealment of crime, the offences were instances of neglect of duty in more trivial matters and a warning or a small fine was considered adequate to meet the case. Considering the extra burden of work which was thrown on mukaddams on account of the scarcity and the relief operations, their conduct in general was quite satisfactory.

What has been said of mukaddams may equally be said of kotwars. In view of the variety and the standard of work which is required from them, the number of complaints and punishments cannot be regarded as unduly large. The only serious case of insubordination which occurred was in the Nimar district, where 23 kotwars resigned their appointments as a protest against the decision of the Settlement Officer that kotwars are not entitled to the hides and carcasses of dead cattle. It is reported that the vacancies were filled up without difficulty, and that this prompt action had a sobering effect on other malcontents. In the affected tracts of the Jubbulpore, Damoh and Mandla districts kotwars were given doles at the same rate as paupers, and allowances were also given to kotwars in parts of the Chhattisgarh Division, in order to keep them in their villages. The Commissioner, Jubbulpore Division, reports that he is considering a scheme of rewarding kotwars against whom no bad reports are made. The Deputy Commissioner, Betul, mentions that he is insisting on all kotwars sending their sons to school, and hopes that in this way a literate class of kotwars will eventually be secured for the district. The experiment is an interesting one, and appears to be one capable of producing useful results. I think that the degree of success attained will be mentioned by the Deputy Commissioner in future reports.

23. The amount of touring and inspection done by all grades of officers appears to have been adequate. A number of the reports  
 Tours and Inspections. have again failed to make any reference to the effect given to the orders which were recently issued with a view to making tours more effective and less harassing to the people, while other reports point out that the work in connection with the scarcity compelled officers to be continually on the move and prevented them from transacting their business during halts at central places.

24. The office of the Financial Commissioner was held by the Hon'ble Mr. Walker from the beginning of the year until the  
 Financial Commissioner. 31st October 1913, and again from the 1st January 1914 to the 9th April 1914. During the remainder of the year the office was held by myself. The number of appeals disposed of in the Court of the Financial Commissioner was 114, of which 10 were successful. The orders of the Lower Court were modified or reversed in 3 of the 41 applications for revision disposed of during the year. The number of applications for sanction to the transfer of *sir* land on which orders were passed was 236.

25. The report of the Director of Land Records indicates that the work and conduct of the staff were generally satisfactory.  
 Land Records. There was greater punctuality in the filing of the annual village papers, and circle and village note-books were generally up to date. A marked improvement was effected in the quality of the check of village records by Superintendents of Land Records and their Assistants: the importance of devoting their chief attention to check of Revenue Inspectors' work has evidently been brought home to these officers with good results. The amount of checking done by Deputy Commissioners and their Assistants appears to have generally fallen off, and it is hoped that all Deputy Commissioners will give their attention to this question during the ensuing year.

While the number of punishments shows a further and considerable decrease, the Director of Land Records indicates clearly that the standard of discipline is not as high as it should be and draws attention to the slackening of discipline which has been caused by the extent to which Superintendents have ousted Tahsildars from the control of the Land Records staff. Stress has been frequently laid on the importance of the Tahsildar exercising control over the Land Record staff of his Tahsil, and the attention of Deputy Commissioners is invited to this important point.

26. Operations for the revision of settlement were in progress in the  
 Settlement. Saugor, Nimar, Nagpur, Hoshangabad and Chhindwara districts. A Forecast Report for the re-settlement of the Balaghat district and Final Reports for the Damoh, Wardha and Bilaspur (Khalsa) districts were submitted, and the orders of the Government of India were received on the two last. The operations in Nimar were concluded during the course of the year, and good progress was made in Saugor and Nagpur, though work in the former district was hampered by Mr. Corbett's ill-health and the partial failure of the monsoon. The outturn of work in the first year of operations in Hoshangabad and Chhindwara was good, and reflects credit on the energy and organizing ability of Mr. Gowan and Mr. Irwin, the latter of whom in particular had to contend with many difficulties.

Map correction, preliminary to assessment, was carried out in four districts. In paragraph 6 of the Local Administration's Resolution on the Revenue Report of 1912-13 it was suggested that these expensive operations were perhaps unnecessary. It appears, however, from the Settlement Commissioner's remarks, that the efficiency of the Land Record staff has not yet reached a point when the accuracy of the maps, as maintained from year to year, can be trusted as a basis for the Record of Rights, and the results in Hoshangabad and Chhindwara, where it is found necessary to survey afresh no less than 74 villages, certainly support this opinion. One of the reasons for the inaccuracy of the maps is said to be insufficiency of sub-traverse stations, and the Director promises to take systematic measures to remedy this defect. At present the time of the skilled professional staff engaged in traverse work is largely wasted on sporadic and

unnecessary work, and I agree with the Director that in the wilder tracts a traverse survey of isolated villages, which have often only a few acres under cultivation, is unnecessary.

27. All the Divisional Commissioners express their satisfaction with the manner in which the Deputy Commissioners have administered their districts. In the district reports the work of many officers is favourably noticed, and the following officers may be specially mentioned :—

*Assistant Commissioners.*

|                       |     |   |                                                                             |

**JUBBULPORE**

(a) The difference in figures is due to the

(b) The difference in figures is due to the revision of Settlement and allotment

(c) The increase is due to the exchange

(d) The decrease of 65, 138 and 15 in columns 3, 4 and 5 respectively is due to the reason that some leased area was taken as survey numbers statement by 314, 2,016 and 402 as the figures reported last year were wrong.

**NERBUDDA**

(a) Difference of 531,695 and 50,632 in columns 3, 4 and 5

(b) Excludes 57,691 and 167 in columns 3, 4 and 5

**NAGPUR**

(a) Includes Rs. 516 being the assessment of survey numbers

(b) On account of survey numbers assessed

*Allotment of waste Lands during the Year ending the 30th September 1914.*

DIVISION.  
revision of Settlement in the Rehli Tahsil.  
of survey numbers previously under "Minhai Abadi".  
between Minhai and occupied area.  
last year by mistake. The figures in columns 9, 10 and 11 exceed those given in columns 18, 19 and 20 of the last year's  
The decrease of 379, 2,154 and 417 in columns 6, 7 and 8 is also due to the same reason.  
DIVISION.  
respectively has not been explained.  
respectively transferred to malguzari villages.  
DIVISION.  
which were not assessed at Settlement,  
at Settlement only.

*STATEMENT B-II.—Showing the Area held by the several*

**JUBBULPORE DIVISION.**

- (a) Rs. 59,693 owing to the revision of Settlement and Rs. 20 owing to muafi resumption.  
 (b) Rs. 21 inclusive of Milkiyat Sarkar revenue in the kistbandi and Rs. 5 to muafi resumption.  
 (c) Muafi resumption.

**NAGPUR DIVISION.**

- (a) The increase of Rs. 1,795 is due to the transfer of 4 villages from the Nagpur District, and the decrease of Rs. 40 to the reduction in the demand of certain villages of the Arvi tahsil.  
 (b) The decrease of Rs. 14 is due to the declaration of some plots as muafi.  
 (c) Difference of Re. 1 is due to remission.

*STATEMENT F.—Showing Demand and Collections during the Revenue year ending the 30th September 1914.*

**JUBBULPORE DIVISION.**

(a) Includes Rs. 40,927 on account of revision of assessment.—

(b) Excludes the following amounts refunded in cash out of advance collections :—

|            |     |
|------------|-----|
|            | Rs. |
| Saugor     | 38  |
| Jubbulpore | 203 |
| Mandla     | 84  |

**NERBUDDA DIVISION.**

(a) Increase of Rs. 20 is due to the expiry of the term of abatements of mauza Simaria.

(b) The demand increased by Rs. 10 on account of resumption of mauza.

(c) Out of Rs. 13 shown in column 14 of the last year's Statement Rs. 1 was refunded.

(d) The difference is due to the fact that the revised demand was collected owing to the revisions of Settlement in the district with the exception of the 1st Kist of the Burhanpur tahsil.

(e) The demand was increased by Rs. 6 owing to the amalgamation of milkiyat sarkar plots in the malguzari village of Khamla.

(f) Last year Rs. 310 were wrongly shown in column 14 of the Statement.

**NAGPUR DIVISION.**

(a) *Vide* Remark (a) in Statement E.

(b) The increase of Rs. 92,000 is due to revision of Settlement.

(c) *Vide* Remark (b) in Statement E.

(d) Excludes Rs. 292 refunded and Rs. 112 by adjustment.

(e) The increase of Rs. 9 is due to amount wrongly deducted twice over now added to the demand.

*STATEMENT F.—Showing Demand and Collections during the Revenue year ending the  
30th September 1914.—(Contd.)*

**PART II.—LAND REVENUE NOT ON THE ROLL.**

| Division.    | District.   | Demand.                     |                        | Collected in advance during previous year. | Net demand (total of columns 3 and 4 minus column 5). | Collection.                  |                                  | Balance.                                               |                                                                            | Collected in advance on account of the year following. |

**JUBBULPORE DIVISION.**

(a) Remitted the following amounts :—

|            |       |
|------------|-------|
|            | Rs.   |
| Damoh      | 69    |
| Jubbulpore | 111   |
| Mandla     | 2,934 |
| Seoni      | 252   |

(b) Excludes the following amounts remitted :—

|        |     |
|--------|-----|
|        | Rs. |
| Damoh  | 4   |
| Mandla | 101 |

(c) Includes the following amounts which are under suspension :—

|            |        |
|------------|--------|
|            | Rs.    |
| Saugor     | 17     |
| Damoh      | 5,111  |
| Jubbulpore | 395    |
| Mandla     | 32,827 |
| Seoni      | 7,938  |

(d) Includes Rs. 18 on account of advance collections of the previous year which could not be adjusted during the year under report.

**NERBUDDA DIVISION.**

(a) Decrease of Rs. 18 is owing to remission granted.

(b) The increase of Rs. 13 is due to deficit credit in the past.

**NAGPUR DIVISION.**

(a) The increase of Rs. 283 is on account of arrears of ryotwari revenue in Chanda Tahsil and arrears of water-rate in Garchiroli Tahsil and also penal assessment on account of unauthorised cultivation of last year having been detected and collected during the year.

(b) Increase of Rs. 504 is due to arrears of land revenue.

(c) Includes Rs. 96 on account of surface rents.

(d) Excludes Rs. 10 remitted.

*STATEMENT F.—Showing Demand and Collections during the Revenue year ending the 30th September 1914.—(Contd).*
